The 60-day notice was published on January 27, 2010 (75 FR 4447) and no comments were received. Title: Brake Hose Manufacturers Identification, Federal Motor Vehicle Safety Standard (FMVSS) No. 106.

OMB Control Number: 2127-0052.

Form Number: This collection of information uses no standard form.

Type of Request: Extension of a currently approved collection of information.

Abstract: 49 U.S.C. 30101 *et seq.*, as amended ("the Safety Act"), authorizes NHTSA to issue Federal Motor Vehicle Safety Standards (FMVSS). The Safety Act mandates that in issuing any Federal motor vehicle safety standards, the agency is to consider whether the standard is reasonable and appropriate for the particular type of motor vehicle or item of motor vehicle equipment for which it is prescribed. Using this authority, FMVSS No. 106, Brake Hoses, was issued. This standard specifies labeling and performance requirements which apply to all manufacturers of brake hoses and brake hose end fittings, and to those who assemble brake hoses. Prior to assembling or selling brake hoses, these entities must register their identification marks with NHTSA to comply with the labeling requirements of this standard. In accordance with the Paperwork Reduction Act, the agency must obtain OMB approval to continue collecting labeling information.

Currently, there are 1,944 manufacturers of brake hoses and end fittings, and brake hose assemblers, registered with NHTSA. However, only approximately 20 respondents annually request to have their symbol added to or removed from the NHTSA database. To comply with this standard, each brake hose manufacturer or assembler must contact NHTSA and state that they want to be added to or removed from the NHTSA database of registered brake hose manufacturers. This action is usually initiated by the manufacturer with a brief written request via U.S. mail, facsimile, an e-mail message, or a telephone call. Currently, a majority of the requests are received via U.S. mail and the follow-up paperwork is conducted via facsimile, U.S. mail, or electronic mail. The estimated cost for complying with this regulation is \$100 per hour. Therefore, the total annual cost is estimated to be \$3,000 (time burden of 30 hours × \$100 cost per hour).

Affected Public: Business or other for profit.

Estimated Annual Burden: 30 hours.

Estimated Number of Respondents: 20.

Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the Department,

including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

A comment to OMB is most effective if OMB receives it within 30 days of publication.

Issued on: April 1, 2010.

Stephen R. Kratzke,

Associate Administrator for Rulemaking.
