RIN 0648–XR84

Fisheries of the Northeastern United States; Spiny Dogfish Fishery; Commercial Period 1 Quota Harvested

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure of spiny dogfish fishery.

SUMMARY: NMFS announces that the spiny dogfish commercial quota available to the coastal states from Maine through Florida for the first semi-annual quota period, May 1, 2009 - October 31, 2009, has been harvested. Therefore, effective 0001 hours, September 26, 2009, federally permitted spiny dogfish vessels may not fish for, possess, transfer, or land spiny dogfish until November 1, 2009, when the Period 2 quota becomes available. Regulations governing the spiny dogfish fishery require publication of this notification to advise the coastal states from Maine through Florida that the

quota has been harvested and to advise vessel permit holders and dealer permit holders that no Federal commercial quota is available for landing spiny dogfish in these states. This action is necessary to prevent the fishery from exceeding its Period 1 quota and to allow for effective management of this stock.

DATES: Quota Period 1 for the spiny dogfish fishery is closed effective at 0001 hr local time, September 26, 2009, through 2400 hr local time October 31, 2009. Effective September 26, 2009, federally permitted dealers are also advised that they may not purchase spiny dogfish from federally permitted spiny dogfish vessels.

FOR FURTHER INFORMATION CONTACT: Don Frei at (978) 281–9221, or Don.Frei@noaa.gov.

SUPPLEMENTARY INFORMATION:

Regulations governing the spiny dogfish fishery are found at 50 CFR part 648. The regulations require annual specification of a commercial quota, which is allocated into two quota periods based upon percentages specified in the fishery management plan. The commercial quota is distributed to the coastal states from Maine through Florida, as described in § 648.230.

The initial total commercial quota for spiny dogfish for the 2009 fishing year is 12 million lb (5,443.11 mt) (74 FR 20230, May 1, 2009). The commercial quota is allocated into two periods (May 1 through October 31, and November 1 through April 30). Vessel possession limits are intended to preclude directed fishing, and they are set at 3,000 lb (1.36 mt) for both Quota Periods 1 and 2. Quota Period 1 is allocated 6,948,000 lb (3,151.56 mt), and Quota Period 2 is allocated 5,052,000 lb (2,291.55 mt) of the commercial quota. The total quota cannot be exceeded, so landings in excess of the amount allocated to Period 1 have the effect of reducing the quota available to the fishery during Period 2.

The Administrator, Northeast Region, NMFS (Regional Administrator) monitors the commercial spiny dogfish quota for each quota period and, based upon dealer reports, state data, and other available information, determines when the total commercial quota will be harvested. NMFS is required to publish a notification in the *Federal Register* advising and notifying commercial vessels and dealer permit holders that, effective upon a specific date, the Federal spiny dogfish commercial quota has been harvested and no Federal commercial quota is available for landing spiny dogfish for the remainder of that quota period.

Section 648.4(b) provides that Federal spiny dogfish permit holders agree, as a condition of the permit, not to land spiny dogfish in any state after NMFS has published notification in the **Federal Register** that the commercial quota has been harvested and that no commercial quota for the spiny dogfish fishery is available. Therefore, effective 0001 hr local time, September 26, 2009, landings of spiny dogfish in coastal states from Maine through Florida by vessels holding commercial Federal

fisheries permits will continue to be prohibited through October 31, 2009, 2400 hr local time. The 2009 Period 2 quota will be available for commercial spiny dogfish harvest on November 1, 2009. Effective September 26, 2009, federally permitted dealers are also advised that they may not purchase spiny dogfish from vessels issued Federal spiny dogfish permits that land in coastal states from Maine through Florida.

Classification

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866.
