FOR FURTHER INFORMATION CONTACT:

Marty Tuegel, Branch Chief, by U.S. mail at Environmental Review, P.O. Box 1306, Room 6034, Albuquerque, NM 87103; or by telephone at 505-248-6651.

SUPPLEMENTARY INFORMATION:

Introduction

Under the Endangered Species Act, as amended (16 U.S.C. 1531 *et seq.*; Act), we, the U.S. Fish and Wildlife Service, invite the public to comment on an incidental take permit (ITP) application for take of the federally listed American burying beetle (*Nicrophorus americanus*) resulting from activities associated with geophysical exploration (seismic) and construction, maintenance, operation, repair, and decommissioning of oil and gas well field infrastructure within Oklahoma. If approved, the permit would be issued to the applicant under the *Oil and Gas Industry Conservation Plan Associated with Issuance of Endangered Species Act Section 10(a)(1)(B) Permits for the American Burying Beetle in Oklahoma* (ICP). The ICP was made available for comment on April 16, 2014 (79 FR 21480), and approved on May 21, 2014 (publication of the FONSI notice was on July 25, 2014; 79 FR 43504). The ICP and the associated environmental assessment/finding of no significant impact are available on the Web site at <http://www.fws.gov/southwest/es/oklahoma/ABBICP>. However, we are no longer taking comments on these documents.

Applications Available for Review and Comment

We invite local, State, Tribal, and Federal agencies, and the public to comment on the following application under the ICP, for incidental take of the federally listed ABB. Please refer to the appropriate permit number (TE-54185B) when requesting application documents and when submitting comments. Documents and other information the applicants have submitted with this application are available for review, subject to the requirements of the Privacy Act (5 U.S.C. 552a) and Freedom of Information Act (5 U.S.C. 552).

Permit TE-54185B

Applicant: Chaparral Energy, LLC, Oklahoma City, OK.

Applicant requests a new permit for gas upstream and midstream production, including geophysical exploration (seismic) and construction, maintenance, operation, repair, and decommissioning of gas well field infrastructure, as well as construction, maintenance, operation, repair, decommissioning, and reclamation of gas gathering, transmission, and distribution pipeline infrastructure within Oklahoma.

Public Availability of Comments

Written comments we receive become part of the public record associated with this action. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can request in your comment that we withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. We will not consider anonymous comments. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

Authority

We provide this notice under section 10(c) of the Act (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.22) and the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1506.6).

Dated: January 12, 2015.

Joy E. Nicholopoulos,

Acting Regional Director, Southwest Region.

Notice of Intent To Prepare an Environmental Impact Statement for the Proposed Bruneau-Owyhee Sage-Grouse Habitat Project, Owyhee County, Idaho

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent.

SUMMARY: In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended, the Bureau of Land Management (BLM) Boise District, Boise, Idaho, intends to prepare an Environmental Impact Statement (EIS) and by this notice is announcing the beginning of the scoping process to solicit public comments to identify relevant issues.

DATES: This notice initiates the public scoping process for the EIS. Comments on issues may be submitted in writing until February 19, 2015. The date(s) and location(s) of any scoping meetings will be announced at least 15 days in advance through local media, newspapers and the BLM Web site, <http://www.blm.gov/id>. In order to be included in the draft EIS, all comments must be received prior to the close of the 30-day scoping period or 15 days after the last public meeting, whichever is later. There will be additional opportunities for public participation upon publication of the draft EIS.

ADDRESSES: You may submit comments related to the Bruneau Owyhee Sage-Grouse Habitat Project by any of the following methods:

- *Web site:* http://www.blm.gov/id/st/en/prog/nepa_register/BOSH-juniper-removal.html.
- *email:* blm_id_bruneauowyheesagegrouse@blm.gov.
- *fax:* 208-384-3326.
- *mail:* 3948 S. Development Avenue, Boise, ID 83705-5339.

Documents pertinent to this proposal may be examined at the Boise District Office at the above address.

FOR FURTHER INFORMATION CONTACT:

Mike McGee, Wildlife Biologist, Boise District Fuels Management to have your name added to the mailing list, at telephone 208-384-3300; address 3948 S. Development Avenue, Boise, ID 83705-5339; email blm_id_bruneauowyheesagegrouse@blm.gov. Persons who use a telecommunications

device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The project is a collaborative effort among Federal, State, and county governments as well as conservation organizations and the University of Idaho to improve and maintain functioning sage-grouse habitat in Owyhee County, Idaho. The proposal is to remove early-stage encroachment of western juniper (*Juniperus occidentalis*) from Greater Sage-Grouse (*Centrocercus urophasianus*) habitat across 1.5 million acres in the BLM Bruneau and Owyhee Field Offices. Treatment areas were selected based on the current distribution of sage-grouse and focused within a 10 kilometer radius of occupied sage-grouse leks. A lek is an area where sage-grouse gather each spring for mating and is considered breeding habitat.

Recent research suggests that sage-grouse populations incur negative impacts at a very low level of juniper encroachment, and that no leks remain active when conifer cover exceeds 4 percent. Within the proposed treatment area, thousands of acres of sage-grouse habitat are being encroached upon by western juniper. Removal of early-stage juniper encroachment would improve and maintain suitable sage-grouse habitat. Many acres within the project area do not meet the criteria for treatment, for example, areas where juniper is well established and areas where no juniper trees are present. Therefore, actual treatment acres would be considerably less than the 1.5 million acres identified as the project area.

Proposed treatments include cutting and lopping juniper, leaving the material on site, or cutting followed by jackpot burning. Jackpot burning—burning when the ground is saturated, frozen, or covered by snow—would be utilized in areas where scattering cut juniper is not feasible or desirable. Mastication of juniper using a track-hoe fitted with a grinding implement could also occur within 100 feet of existing roads. The BLM may use handsaws to implement treatment within designated wilderness or wilderness study areas, as determined through a minimum requirements analysis.

The purpose of public scoping is to determine relevant issues that will influence the scope of the

environmental analysis, including alternatives, and to guide the process for developing the EIS. At present, the BLM has identified the following preliminary issues:

- Juniper slash near roads posing a threat to the public and firefighters during a wildfire,
- Introduction and spread of invasive and noxious vegetation,
- Impacts to raptor nests,
- Removal of old growth juniper,
- Disturbance to lekking, nesting or wintering sage-grouse during project implementation,
- Disturbance to migratory birds, and
- Effects of juniper management on wilderness characteristics.

Appropriate mitigation measures would be used to minimize impacts to sage-grouse habitat, old growth juniper, raptor nests, migratory birds, and wilderness characteristics. These mitigation measures would be identified in detail in the EIS and would primarily include physical avoidance and timing restrictions during implementation.

The BLM will use NEPA public participation requirements to assist the agency in satisfying the public involvement requirements under Section 106 of the National Historic Preservation Act (NHPA) (16 U.S.C. 470(f)) pursuant to 36 CFR 800.2(d)(3). Information about historic and cultural resources within the area potentially affected by the proposed sage-grouse habitat project will assist the BLM in identifying and evaluating impacts to such resources in the context of both NEPA and Section 106 of the NHPA.

The BLM will consult with Indian Tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, that may be interested in or affected by the proposed sage-grouse habitat project may request or be requested by the BLM to participate in the development of the environmental analysis as a cooperating agency.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: 40 CFR 1501.7.

James M. Fincher,
BLM Boise District Manager.

Notice of Public Meeting, Dakotas Resource Advisory Council Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of public meeting.

SUMMARY: In accordance with the Federal Land Policy and Management Act (FLPMA) and the Federal Advisory Committee Act of 1972 (FACA), the U.S. Department of the Interior, Bureau of Land Management (BLM) Dakotas Resource Advisory Council (RAC) will meet as indicated below.

DATES: The Dakotas Resource Advisory Council meeting will be held on February 12, 2015 in Bowman, North Dakota. The meeting will start at 9:00 a.m. and adjourn at approximately 4:30 p.m.

ADDRESSES: Bowman City Offices, 101 First Street Northeast, Bowman, North Dakota.

FOR FURTHER INFORMATION CONTACT:

Mark Jacobsen, Public Affairs Specialist, BLM Eastern Montana/Dakotas District, 111 Garryowen Road, Miles City, Montana 59301; (406) 233-2831; mjacobse@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-677-8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, 7 days a week to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The 15-member council advises the Secretary of the Interior through the BLM on a variety of planning and management issues associated with public land management in North and South Dakota. At this meeting, topics will include: An Eastern Montana/Dakotas District report, North Dakota and South Dakota Field Office manager reports, Montana/Dakotas State Office RAC chair meeting topics for discussion, Ft. Meade Recreation Area trails projects report, individual RAC member reports and other issues the council may raise. All meetings are open to the public and the
