BILLING CODE 7020-02-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (20-073)]

Aerospace Safety Advisory Panel; Meeting

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, the National Aeronautics and Space Administration announces a forthcoming meeting of the Aerospace Safety Advisory Panel (ASAP).

DATES: Thursday, October 1, 2020, 11:30 a.m. to 1:00 p.m., Eastern Time.

ADDRESSES: This will be a virtual meeting via teleconference.

FOR FURTHER INFORMATION CONTACT: Ms. Lisa M. Hackley, ASAP Administrative Officer, NASA Headquarters, Washington, DC 20546, (202) 358–1947 or lisa.m.hackley@nasa.gov.

SUPPLEMENTARY INFORMATION: The Aerospace Safety Advisory Panel (ASAP) will hold its Fourth Quarterly Meeting for 2020. This discussion is pursuant to carrying out its statutory duties for which the Panel reviews, identifies, evaluates, and advises on those program activities, systems, procedures, and management activities that can contribute to program risk. Priority is given to those programs that involve the safety of human flight. The agenda will include:

- —Updates on the International Space Station Program
- —Updates on the Commercial Crew Program
- —Updates on Exploration System
 Development Program
- —Updates on Advanced Exploration Systems Program

This meeting is a virtual meeting, and only available telephonically. Any interested person may call the USA toll free conference call number 888–566–6133; passcode 8343253 and then the # sign. At the beginning of the meeting, members of the public may make a verbal presentation to the Panel on the subject of safety in NASA, not to exceed 5 minutes in length. To do so, members of the public must contact Ms. Lisa M. Hackley at lisa.m.hackley@nasa.gov or at (202) 358–1947 at least 48 hours in

advance. Any member of the public is permitted to file a written statement with the Panel via electronic submission to Ms. Hackley at the email address previously noted. Verbal presentations and written statements should be limited to the subject of safety in NASA. It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the key participants.

Patricia Rausch,

Advisory Committee Management Officer, National Aeronautics and Space Administration.

BILLING CODE 7510-13-P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

[NARA-20-0020; NARA-2020-062]

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments

SUMMARY: The National Archives and Records Administration (NARA) publishes notice of certain Federal agency requests for records disposition authority (records schedules). We publish notice in the Federal Register and on regulations.gov for records schedules in which agencies propose to dispose of records they no longer need to conduct agency business. We invite public comments on such records schedules.

DATES: NARA must receive comments by November 2, 2020.

ADDRESSES: You may submit comments by either of the following methods. You must cite the control number, which appears on the records schedule in parentheses after the name of the agency that submitted the schedule.

- Federal eRulemaking Portal: http://www.regulations.gov
- Mail: Records Appraisal and Agency Assistance (ACR); National Archives and Records Administration; 8601 Adelphi Road, College Park, MD 20740–6001

FOR FURTHER INFORMATION CONTACT:

Kimberly Keravuori, Regulatory and External Policy Program Manager, by email at regulation_comments@nara.gov. For information about records schedules, contact Records Management Operations by email at request.schedule@nara.gov, by mail at

the address above, or by phone at 301–837–1799.

SUPPLEMENTARY INFORMATION:

Public Comment Procedures

We are publishing notice of records schedules in which agencies propose to dispose of records they no longer need to conduct agency business. We invite public comments on these records schedules, as required by 44 U.S.C. 3303a(a), and list the schedules at the end of this notice by agency and subdivision requesting disposition authority.

In addition, this notice lists the organizational unit(s) accumulating the records or states that the schedule has agency-wide applicability. It also provides the control number assigned to each schedule, which you will need if you submit comments on that schedule. We have uploaded the records schedules and accompanying appraisal memoranda to the regulations.gov docket for this notice as "other documents. Each records schedule contains a full description of the records at the file unit level as well as their proposed disposition. The appraisal memorandum for the schedule includes information about the records.

We will post comments, including any personal information and attachments, to the public docket unchanged. Because comments are public, you are responsible for ensuring that you do not include any confidential or other information that you or a third party may not wish to be publicly posted. If you want to submit a comment with confidential information or cannot otherwise use the regulations.gov portal, you may contact request.schedule@nara.gov for instructions on submitting your comment.

We will consider all comments submitted by the posted deadline and consult as needed with the Federal agency seeking the disposition authority. After considering comments, we will post on regulations.gov a "Consolidated Reply" summarizing the comments, responding to them, and noting any changes we have made to the proposed records schedule. We will then send the schedule for final approval by the Archivist of the United States. You may elect at regulations.gov to receive updates on the docket, including an alert when we post the Consolidated Reply, whether or not you submit a comment. If you have a question, you can submit it as a comment, and can also submit any concerns or comments you would have to a possible response to the question. We will address these items in

consolidated replies along with any other comments submitted on that schedule.

We will post schedules on our website in the Records Control Schedule (RCS) Repository, at https://www.archives.gov/records-mgmt/rcs, after the Archivist approves them. The RCS contains all schedules approved since 1973.

Background

Each year, Federal agencies create billions of records. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval. Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. The records schedules authorize agencies to preserve records of continuing value in the National Archives or to destroy, after a specified period, records lacking continuing administrative, legal, research, or other value. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

Agencies may not destroy Federal records without the approval of the Archivist of the United States. The Archivist grants this approval only after thorough consideration of the records' administrative use by the agency of origin, the rights of the Government and of private people directly affected by the Government's activities, and whether or not the records have historical or other value. Public review and comment on these records schedules is part of the Archivist's consideration process.

Schedules Pending

- 1. Department of Defense, Office of the Secretary of Defense, Records of the Office of Military Commissions (DAA– 0330–2014–0005).
- 2. Department of Homeland Security, U.S. Citizenship and Immigration Services, Humanitarian Benefits (DAA–0566–2019–0032).

Laurence Brewer,

Chief Records Officer for the U.S. Government.

BILLING CODE 7515-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-397; NRC-2020-0213]

Columbia Generating Station; Issuance of License Amendment Revising Technical Specification 3.8.7

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment application; opportunity to request a hearing and to petition for leave to intervene.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) approved a request by Energy Northwest (the licensee) for an amendment to Renewed Facility Operating License No. NPF-21, issued to the licensee for operation of the Columbia Generating Station, located in Benton County, Washington. The amendment adds a one-time extension to the completion time of Technical Specification (TS) 3.8.7, "Distribution Systems—Operating," Condition A, from 8 hours to 16 hours, specifically associated with Division 2 alternating current electrical power distribution inoperability caused by inoperability of 120/240-volt power panel E-PP-8AE during repairs on its supply transformer E-TR-8A/1.

DATES: A request for a hearing or petition for leave to intervene must be filed by November 16, 2020.

ADDRESSES: Please refer to Docket ID NRC–2020–0213 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

• Federal Rulemaking Website: Go to https://www.regulations.gov and search for Docket ID NRC-2020-0213. Address questions about Docket IDs in Regulations.gov to Jennifer Borges; telephone: 301-287-9127; email: Jennifer.Borges@nrc.gov. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION

CONTACT section of this document. NRC's Agencywide Documents Access and Management System (ADAMS): You may obtain publicly available documents online in the ADAMS Public Documents collection at https://www.nrc.gov/reading-rm/ adams.html. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room reference staff at 1-800-397-4209, 301-415–4737, or by email to *pdr.resource*@ nrc.gov. The license amendment and the NRC staff's safety evaluation are available in ADAMS under Accession No. ML20242A002.

FOR FURTHER INFORMATION CONTACT:

Mahesh L. Chawla, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington DC 20555–0001; telephone: 301–415–8371, email: *Mahesh.Chawla@nrc.gov.*

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC has issued an amendment to Renewed Facility Operating License No. NPF-21, issued to Energy Northwest for operation of Columbia Generating Station. The amendment consists of changes to the TSs in response to the licensee's application dated August 20, 2020 (ADAMS Accession No. ML20233A976), as supplemented by letters dated August 24, 2020; August 27, 2020; and September 1, 2020 (ADAMS Accession Nos. ML20238A706, ML20240A345, and ML20245E682, respectively). The licensee stated that a supply transformer E-TR-8A/1 was currently in degraded condition (but still operable) and required urgent repairs or replacement. Further, the licensee stated that during repairs or replacement of this transformer, the associated required Division 2, 120/240 V Power Panel E-PP-8AE would become inoperable.

The NRC staff found that the application for the license amendment complied with the requirements of the Atomic Energy Act of 1954, as amended, and the NRC's regulations. The NRC staff's evaluation may be obtained and examined at ADAMS Accession No. ML20242A002.

In its license amendment request dated August 20, 2020, the licensee requested that the proposed amendment be processed by the NRC on an exigent basis in accordance with the provisions in title 10 of the Code of Federal Regulations (10 CFR) section 50.91(a)(6). The licensee provided the following information to explain the exigency of the amendment. In the license amendment request, the licensee stated that replacement of transformer E-TR-8A/1 and post-maintenance testing would take approximately 14 hours, exceeding the current completion time of TS 3.8.7 Condition A by approximately 6 hours. The station acted to address an unforeseen degraded condition on a transformer that feeds one of the required Class 1E AC electrical panels. Extending the allowed completion time to 16 hours allows for corrective maintenance and subsequent retest and prevents the station from an unnecessary plant shutdown without a corresponding health and safety benefit.

The NRC staff considered the circumstances and found exigent circumstances exist in that the licensee
