

Nature of Decision to be Made

The Regional Forester will decide whether or not to amend the Land and Resource Management Plan for the Huron-Manistee National Forests, through the closure of some or all of the Semiprimitive Nonmotorized Management Areas to firearm hunting and snowmobile use (subject to existing rights); and the Primitive Area (Nordhouse Dunes Wilderness) to firearm hunting (subject to existing rights).

Preliminary Issues

We expect issues to include effects on game species and wildlife management, effects on vegetation, and changes to the recreational experience for visitors to the Semiprimitive Nonmotorized Management Areas and the Primitive Area (Nordhouse Dunes Wilderness), as well as the possible effects of the project on tourism in the counties affected.

Permits and Licenses Required

The Forest Service is not required to obtain any permits or licenses in order to implement this proposal.

Scoping Process

This Notice of Intent initiates the scoping process, which guides the development of the SEIS. The Forest Service plans to scope for information by contacting persons and organizations interested or potentially affected by the proposed action through mailings, public announcements, and personal contacts. Comments received on this notice will be used to identify the range of actions, alternatives and effects to be considered in the SEIS.

It is important that respondents provide their comments at such times and in such manner that they are useful to the agency's preparation of the SETS. Therefore, comments must be provided prior to the close of the comment period and should clearly articulate the respondent's concerns and contentions.
