Corrosion-Resistant Carbon Steel Flat Products from Korea: Extension of Time Limits for the Final Results of Antidumping Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: December 5, 2005.

FOR FURTHER INFORMATION CONTACT:

Victoria Cho at (202) 482-5075, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On September 22, 2004, the Department published a notice of initiation of the administrative review of the antidumping duty order on corrosion-resistant carbon steel flat products from Korea, covering the period August 1, 2003, to July 31, 2004, (the "eleventh review") (69 FR 56745). On April 7, 2005, the Department fully extended the preliminary results of the eleventh administrative review by 120 days (70 FR 17648). On September 7, 2005, the Department published the preliminary results of the eleventh administrative review (70 FR 53153). The final results of this review are currently due no later than January 5, 2006.

Extension of Time Limits

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to issue (1) the preliminary results of a review within 245 days after the last day of the month in which occurs the anniversary of the date of publication of an order or finding for which a review is requested,

and (2) the final results within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within that time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary results to a maximum of 365 days and to extend the time limit for the final result to a maximum of 180 days. *See also* 19 CFR 351.213(h)(2).

We determine that it is not practicable to complete the final results of this review within the original time limit of complex model-match issues that cuts across all of the antidumping duty orders on the subject merchandise. Therefore, the Department is extending the deadline for the final results of the above referenced review by 32 days until February 6, 2006. This extension is in accordance with section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2).

Dated: November 28, 2005.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

Notice of Extension of Time Limit for the Final Results of the Administrative Review of the Antidumping Duty Order on Persulfates From the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: December 5, 2005.

FOR FURTHER INFORMATION CONTACT:

Charles Riggle at (202) 482-0650 or Frances Veith at (202) 482-4295, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On August 10, 2005, the Department of Commerce ("the Department") published the preliminary results of the administrative review of the antidumping duty order on persulfates from the People's Republic of China ("PRC") covering the period July 1, 2003, through June 30, 2004. *See Persulfates from the People's Republic of China: Notice of Preliminary Results of Antidumping Duty Administrative*

Review, 70 FR 46476 (August 10, 2005). The Department is extending the time limit for the final results of the administrative review of the antidumping duty order on persulfates from the PRC. The final results of this review are currently due no later than December 8, 2005.

Extension of Time Limit for Final Results of Review

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended, ("the Act"), requires the Department to issue the final results of an administrative review within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the final results to 180 days (or 300 days if the Department does not extend the time limit for the preliminary results) from the date of publication of the preliminary results. Completion of the final results within the 120-day period is not practicable due to several complex issues regarding the selection of the appropriate surrogate financial statements to use in the calculation of normal value for the final results. The parties have submitted extensive arguments regarding the use of financial data from producers of comparable products to derive surrogate financial ratios.

Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time period for issuing the final results of this review by 60 days until February 6, 2006.

This notice is published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: November 29, 2005.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.
