II. Background of the Receipt of Requests to Cancel and Amend Registrations to Delete Uses

As a result of current and projected market demand and the availability of new generation wood treatment products, the below identified four registrants of CCA products have requested EPA to cancel certain affected products and to amend to terminate uses of the other pesticide registrations of the products identified in this notice (Tables 1 and 2). The letter from Arch Wood Protection, Inc. was dated February 5, 2002; from Chemical Specialties, Inc., dated February 4, 2002; from Osmose, Inc., dated February 6, 2002; and from Phibro-Tech, Inc., dated February 6, 2002. Specifically, the Agency has received a request to cancel two products, and requests to amend other affected end-use and manufacturing-use registrations to terminate all uses of such products with the exception of the treatment of forest products that fall under the American Wood Preservers Association (AWPA)

standards listed as stated below in the text of the requested label amendments.

For affected manufacturing-use products, the label amendments would read as follows:

Effective December 31, 2003, this product may only be used (1) for formulation of the following end-use wood preservative products: ACZA or CCA labeled in accordance with the "Directions for Use" shown below, or (2) by persons other than the registrant, in combination with one or more other products to make: ACZA wood preservative; or CCA wood preservative that is used in accordance with the "Directions for Use" shown below.

Effective December 31, 2003, this product may only be used for preservative treatment of the following categories of forest products and in accordance with the respective cited standard (noted parenthetically) of the 2001 edition of the American Wood Preservers' Association Standards: Lumber and Timber for Salt Water Use Only (C2), Piles (C3), Poles (C4), Plywood (C9), Wood for Highway Construction (C14), Poles, Piles and Posts Used as Structural Members on Farms, and Plywood Used on Farms (C16), Wood for Marine Construction (C18), Round Poles and Posts Used in Building Construction (C23), Sawn Timber Used To Support Residential and Commercial Structures (C24), Sawn Crossarms (C25), Structural Glued Laminated Members and Laminations Before Gluing (C28), Structural Composite Lumber (C33), and Shakes and Shingles (C34). Forest products treated with this product may only be sold or distributed for uses within the AWPA Commodity Standards under which the treatment occurred.

For affected end-use products, the label amendments would read as follows:

Effective December 31, 2003, this product may only be used for preservative treatment of the following categories of forest products and in accordance with the respective cited standard (noted parenthetically) of the 2001 edition of the American Wood Preservers' Association Standards: Lumber and Timber for Salt Water Use Only (C2), Piles (C3), Poles (C4), Plywood (C9), Wood for Highway Construction (C14), Poles, Piles and Posts Used as Structural Members on Farms, and Plywood Used on Farms (C16), Wood for Marine Construction (C18), Round Poles and Posts Used in Building Construction (C23), Sawn Timber Used To Support Residential and Commercial Structures (C24), Sawn Crossarms (C25), Structural Glued Laminated Members and Laminations Before Gluing (C28), Structural Composite Lumber (C33), and Shakes and Shingles (C34). Forest products treated with this product may only be sold or distributed for uses within the AWPA Commodity Standards under which the treatment occurred.

In addition, the registrants requested that EPA allow use of the previous (unamended) labels for a period of 60 calendar days from the date on which the particular affected registrant receives EPA's approval of the amendments, and that EPA allow a further amendment by notification on or

before December 1, 2003 to: (1) Delete the use directions in effect prior to these amendments, and (2) to delete the statement "Effective December 31, 2003" from the amended labels approved by EPA. Furthermore, the registrants stated in their letters that they will not amend or withdraw their requests before EPA acts on them. The registrants also intend to notify their customers of the amended labels by certified mail after EPA acts on the request.

The registrants also estimate that during the first year following acceptance of the amendments by EPA, sales of new generation wood treatment products are likely to increase to 15% to 25% of the total average sales during 1999, 2000, and 2001 of the products identified in Tables 1 and 2 for the non-industrial treatment categories subject to these amendments, and are estimated to increase to 60% to 70% of the same total average sales for these treatment categories subject to these amendments during the second year following acceptance of the amendments by EPA. Further, the registrants estimate that during the first year following acceptance of the amendments by EPA, sales of the products identified in Tables 1 and 2 are likely to decrease by 15% to 25% of their total average sales during 1999, 2000, and 2001 for the non-industrial treatment categories subject to the amendments, and are estimated to decrease by 60% to 70% of the same total average sales during 1999, 2000, and 2001 for these treatment categories subject to the amendments during the second year following acceptance of the amendments by EPA.

IV. What is the Agency's Authority for Taking This Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that a pesticide registration of the registrant be canceled or amended to terminate one or more uses. The Act further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

V. Provisions for Disposition of Existing Stocks

In any order issued in response these requests for amendment to terminate uses, the Agency proposes to include the following provisions for the treatment of any existing stocks of the products identified or referenced in Table 1:

All distribution, sale, and use of existing stocks of affected manufacturing-use and end-use products will be unlawful under FIFRA effective December 31, 2003, except for purposes of shipping such stocks for relabeling or repackaging, export consistent with the requirements of section 17 of FIFRA, or proper disposal, unless such stocks have been relabeled or repackaged in a manner that is consistent with this order.

In any order issued in response to the above-noted a request for cancellation of a product registration, the Agency proposes to not grant any period of time

for disposition of existing stocks of the products for which cancellation was requested as identified or referenced in Table 2.
