

major change in an authorized AM broadcast station, to make a satisfactory showing that objectionable interference will not result to an authorized AM station as a condition for its acceptance if new or modified nighttime operation by a Class B station is proposed. The information collection requirements under 47 CFR 73.37(f) require applicants seeking facilities modification that would result in spacing that fail to meet any of the separation requirements to include a showing that an adjustment has been made to the radiated signal which effectively results in a site-to-site radiation that is equivalent to the radiation of a station with standard Model I facilities. FCC staff use the data to ensure that objectionable interference will not be caused to other authorized AM stations.

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before October 26, 2020. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov.

Number of Respondents and Responses: 19,820 respondents and 19,920 responses.

Estimated Time per Response: 0.25 hours–1 hour.

Frequency of Response: On occasion reporting requirements; annual recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 158 and 159.

Total Annual Burden: 10,030 hours.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Licensees or regulatees concerned about disclosure of sensitive information in any submissions to the Commission may request confidential treatment pursuant to 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60-day comment period in order to obtain the full three-year clearance from them.

The Commission provides broadcast licensees and commercial mobile radio service (CMRS) licensees with a “true-up” opportunity to update or otherwise correct their assessed fee amounts well before the actual due date for payment of regulatory fees. Providing a “true-up” opportunity is necessary because the data sources that are used to generate the fee assessments are subject to change at time of transfer or assignment of the license. The “true-up” is also an opportunity for regulatees to correct inaccuracies. Per 47 CFR 1.1119 and 1.1166, the FCC may, upon a properly submitted written request, waive or defer collection of an application fee or waive, reduce, or defer payment of a regulatory fee in a specific instance for good cause shown where such action would promote the public interest. When submitting the request, no specific form is required.

FCC requires that when licensees or regulatees request exemption from regulatory fees based on their non-profit status, they must file a one-time documentation sufficient to establish their non-profit status. The documentation may take the form of an IRS Determination Letter, a state charter indicating non-profit status, proof of church affiliation indicating tax exempt status, etc.
