

of the receiving exchange's disseminated quotation.

The proposed rule change also includes administrative provisions relating to the time period within which a receiving exchange must inform the specialist of the amount of the order executed and the amount, if any, that was canceled, and the time period for which a sending exchange must wait while the receiving exchange continues to disseminate the same price at the NBBO before sending a second P/A order. Currently, the applicable time period for each such circumstance is 15 seconds. The proposed rule change contemplates that the Options Linkage Authority could determine different applicable time periods for both circumstances, and that any change to such time periods must be approved by the Commission before becoming effective.

2. Statutory Basis

The Exchange believes that its proposal is consistent with section 6(b) of the Act⁵ in general, and furthers the objectives of Section 6(b)(5) of the Act⁶ in particular, in that it is designed to perfect the mechanisms of a free and open market and the national market system, protect investors and the public interest and promote just and equitable principles of trade, by permitting Exchange specialists to send multiple P/A Orders to multiple exchanges for a number of contracts equal to the receiving exchange's disseminated size.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

IV. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.⁷ In particular, the Commission finds that the proposed rule change is consistent with the requirements of Section 6(b)(5) of the Act⁸ which requires, among other things, that the rules of an exchange be

designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market, and to protect investors and the public interest. The Commission believes that the proposed rule change should clarify the specialist's obligations in handling P/A Orders, which should facilitate the efficient handling of P/A Orders through the Linkage.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of the notice thereof in the **Federal Register**. As noted above, the proposed rule change incorporates changes into the Phlx Rules that correspond to changes made to the Linkage Plan through Joint Amendment No. 10, which was published for comment on May 19, 2004.⁹ The Commission received no comments on the substance of that Amendment. The Commission believes that no new issues of regulatory concern are being raised by Phlx's proposed rule change. The Commission believes, therefore, that granting accelerated approval of the proposed rule change is appropriate and consistent with Sections 6 and 19(b) of the Act.¹⁰

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹¹ that the proposed rule change (SR-Phlx-2004-26) is approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹²

Margaret H. McFarland,
Deputy Secretary.

The Commission also periodically reviews and revises previously promulgated guidelines pursuant to 28 U.S.C. 994(o) and submits guideline amendments to the Congress not later than the first day of May each year pursuant to 28 U.S.C. 994(p).

For the amendment cycle ending May 1, 2005, and possibly continuing into the amendment cycle ending May 1, 2006, the Commission has identified the following tentative priorities:

(1) Implementation of crime legislation enacted during the second session of the 108th Congress warranting a Commission response.

(2) Continuation of its policy work regarding immigration offenses, specifically, offenses under § 2L1.1 (Smuggling, Transporting, or Harboring an Unlawful Alien), and 2L1.2 (Unlawfully Entering or Remaining in the United States), and chapter two, part L, subpart 2 (Naturalization and Passports), which also may involve the formation of an ad hoc advisory group on immigration offenses.

(3) Continuation of its work on the "15 Year Study," which is composed of a number of projects geared toward analyzing the guidelines in light of the goals of sentencing reform described in the Sentencing Reform Act.

(4) Continuation of its multi-year research, policy work, and possible guideline amendments relating to chapter four (Criminal History and Criminal Livelihood), which may include (A) assessment of the calculation of criminal history points for first time offenders and offenders who are in the highest criminal history categories; (B) assessment of the criminal history rules for the inclusion or exclusion of certain prior offenses;

(C) assessment of the criminal history rules for related cases; and (D) consideration of other application issues relating to simplifying the operation of chapter four.

(5) Continued review of data regarding the incidence of downward departures and fast-track programs, in view of the PROTECT Act.

(6) Continuation of its work with Congress and other interested parties on cocaine sentencing policy in view of the Commission's 2002 report to Congress, *Cocaine and Federal Sentencing Policy*.

(7) A general review of the firearms guidelines in chapter two, part K (Offenses Involving Public Safety), including an assessment of non-MANPADS destructive devices.

(8) Consideration of policy statements pertaining to compassionate release programs.

(9) A general review of, and possible amendments pertaining to, hazardous materials, and possibly other environmental offenses under chapter two, part Q (Offenses Involving the Environment).

(10) Continued monitoring of, and/or possible amendments pertaining to, section 5 of the CAN-SPAM Act, Public Law 108-187.

(11) Other miscellaneous and limited issues pertaining to the operation of the sentencing guidelines, including (A) resolution of a number of circuit conflicts, including the circuit conflict regarding the definition of "felony", as incorporated into § 2K2.6 (Possessing, Purchasing, or Owning Body Armor by Violent Felons) effective November 1, 2004; (B) continuation of policy work regarding offenses involving gamma-butyrolactone (GBL), a precursor for gamma-hydroxybutyric acid (GHB), sentenced under § 2D1.11 (Unlawfully Distributing, Importing, Exporting or Possessing a Listed Chemical; Attempt or Conspiracy); (C) simulated controlled substances; (D) structural issues regarding the Sentencing Table in chapter five, part A, particularly "cliff-like" effects occurring between levels 42 and 43, and a possible adjustment to the offense level computation when the offense level exceeds level 43; (E) commentary regarding the appropriate starting point for departures under § 5K1.1 (Substantial Assistance), particularly in cases in which the government has moved for relief from imposition of an otherwise applicable mandatory minimum term of imprisonment; and (F) commentary to § 3C1.1 (Obstructing or Impeding the Administration of Justice) regarding encryption; and

(12) Amendments to the Commission's Rules of Practice and

Procedure regarding retroactivity, public access to Commission materials, and access to nonpublic Commission meetings.

The Commission hereby gives notice that it is seeking comment on these tentative priorities and on any other issues that interested persons believe the Commission should address during the amendment cycle ending May 1, 2005, including short- and long-term research issues. To the extent practicable, comments submitted on such issues should include the following: (1) A statement of the issue, including scope and manner of study, particular problem areas and possible solutions, and any other matters relevant to a proposed priority; (2) citations to applicable sentencing guidelines, statutes, case law, and constitutional provisions; and (3) a direct and concise statement of why the Commission should make the issue a priority.
