

and disclose them to a government agency or to the public? If so, should such disclosure be limited to where I3S services or functions impact certain areas of the covered critical infrastructure?

32. What role can the Department of Commerce play in promoting public-private partnerships?

33. How can public-private partnerships be used to foster better incentives within the I3S?

34. How can existing public-private partnerships be improved?

35. What are the barriers to information sharing between the I3S and government agencies with cybersecurity authorities and among I3S entities? How can they be overcome?

36. Do current liability structures create a disincentive to participate in information sharing or other best practice efforts?

37. What is the best means to promote research on cost/benefit analyses for I3S security?

38. Are there any examples of new research on cost/benefit analyses of I3S security? In particular, has any of this research significantly changed the understanding of cybersecurity and cybersecurity related decision-making?

39. What information is needed to build better cost/benefit analyses?

40. What new or increased efforts should the Department of Commerce undertake to facilitate cybersecurity education?

41. What are the specific areas on which education and research should focus?

42. What is the best way to engage stakeholders in public/private partnerships that facilitate cybersecurity education and research?

43. What areas of research are most crucial for the I3S? In particular, what R&D efforts could be used to help the supply chain for I3S and for small and medium-sized businesses?

44. What role does the move to cloud-based services have on education and research efforts in the I3S?

45. What is needed to help inform I3S in the face of a particular cyber threat? Does the I3S need its own "fire department services" to help address particular problems, respond to threats, and promote prevention or do enough such bodies already exist?

46. What role should Department of Commerce play in promoting greater R&D that would go above and beyond current efforts aimed at research, development, and standards?

47. How can the Department of Commerce work with other Federal agencies to better cooperate, coordinate, and promote the adoption and

development of cybersecurity standards and policy internationally?
