

Accession Number: 20231208–5139.
Comment Date: 5 pm ET 12/20/23.

Any person desiring to protest in any of the above proceedings must file in accordance with Rule 211 of the Commission's Regulations (18 CFR 385.211) on or before 5:00 p.m. Eastern time on the specified comment date.

The filings are accessible in the Commission's eLibrary system (<https://elibrary.ferc.gov/idmws/search/fercgensearch.asp>) by querying the docket number.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or OPP@ferc.gov.

Dated: December 11, 2023.

Debbie-Anne A. Reese,
Deputy Secretary.

BILLING CODE 6717–01–P

ENVIRONMENTAL PROTECTION AGENCY

[FRL–11465–01–R5]

Clean Air Act Operating Permit Program; Order on Petition for Objection to State Operating Permit for Chicago Department of Aviation, Cook County, Illinois

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petition.

SUMMARY: The Environmental Protection Agency (EPA) Administrator signed an order dated September 29, 2023, denying a petition dated January 5, 2023, submitted by an anonymous petitioner identified as C23D32 (the Petitioner). The petition requested that EPA object to a Clean Air Act (CAA) title V operating permit issued by the Illinois Environmental Protection Agency (IEPA) to the Chicago

Department of Aviation located in Cook County, Illinois.

ADDRESSES: The final order, the petition, and other supporting information are available for public inspection during normal business hours at the following address: Environmental Protection Agency, Region 5, Air and Radiation Division, 77 West Jackson Boulevard, Chicago, Illinois 60604. This facility is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding Federal holidays and facility closures due to COVID–19. We recommend that you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section before visiting the Region 5 office. Additionally, the final order and petitions are available electronically at: <https://www.epa.gov/title-v-operating-permits/title-v-petition-database>.

FOR FURTHER INFORMATION CONTACT: Dan Wolski, Air Permits Section, Air Programs Branch (AR–18J), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886–0557, wolski.daniel@epa.gov.

SUPPLEMENTARY INFORMATION: EPA received a petition from C23D32 dated January 5, 2023, requesting that EPA object to the issuance of operating permit no. 95110002, issued by IEPA to Chicago Department of Aviation in Cook County, Illinois. On September 29, 2023, the EPA Administrator issued an order denying the petition. The order explains the basis for EPA's decision.

Sections 307(b) and 505(b)(2) of the CAA provide that a petitioner may request judicial review of those portions of an order that deny issues in a petition. Any petition for review shall be filed in the United States Court of Appeals for the appropriate circuit no later than February 13, 2024.

Authority: 42 U.S.C. 7401 *et seq.*

Dated: December 11, 2023.

Debra Shore,

Regional Administrator, Region 5.

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OPPT–2023–0265; FRL–11109–02–OCSP]

Tris(2-chloroethyl) Phosphate (TCEP); Draft Risk Evaluation Under the Toxic Substances Control Act (TSCA); Letter Peer Review; Notice of Availability, Public Meeting and Request for Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is announcing the availability of and soliciting public comment on the document titled: “2023 Draft Risk Evaluation for Tris(2-chloroethyl) Phosphate (TCEP)” and related draft charge questions. EPA will be submitting the Draft Risk Evaluation and public comments to peer reviewers who will consider the approach and methodologies utilized. The letter peer review will include review of the analysis of physical-chemical properties, the fate of TCEP in the environment, releases of TCEP to the environment, environmental hazard and risk characterization for terrestrial and aquatic species, and human health hazard and risk characterization for workers, consumers, and the general population. The letter peer review is expected to begin on March 13, 2024, and end on April 12, 2024. A preparatory virtual public meeting will be held on March 5, 2024, for reviewers and the public to comment on and ask questions regarding the scope and clarity of the draft charge questions. Feedback from the letter peer review will be considered in the development of the final TCEP risk evaluation.

DATES:

Virtual Public Meeting: March 5, 2024, 1–4 p.m. EST. To receive the webcast meeting link and audio teleconference information before the meeting, you must register by 5 p.m. EST on March 1, 2024.

Special Accommodations: To allow EPA time to process your request for special accommodations, please submit the request by February 23, 2024.

Written Comments: Comments must be received on or before February 13, 2024.

ADDRESSES: Submit written comments identified by docket identification (ID) number EPA–HQ–OPPT–2023–0265, through <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional information on commenting or visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT: The Peer Review Leader (PRL), Alaa Kamel, Ph.D., Mission Support Division, Office of Program Support, Office of Chemical Safety and Pollution Prevention, Environmental Protection Agency;

telephone number: (202) 564-5336 or call the main office number: (202) 564-8450; email address: kamel.alaa@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Executive Summary

A. What action is the Agency taking?

EPA is announcing the availability of and soliciting public comment on the document titled: “2023 Draft Risk Evaluation for Tris(2-chloroethyl) Phosphate (TCEP)”. A letter peer review is expected to begin on March 13, 2024, and end on April 12, 2024, to review the approach and methodologies utilized in this document. A preparatory virtual public meeting will be held on March 5, 2024, for reviewers and the public to comment on and ask questions regarding the scope and clarity of the draft charge questions.

B. What is the Agency’s authority for taking this action?

Section 6(b) of the Toxic Substances Control Act (TSCA) (15 U.S.C. 2605(b)), requires that EPA conduct risk evaluations on existing chemical substances and identifies the minimum components EPA must include in all chemical substance risk evaluations. The risk evaluation must not consider costs or other non-risk factors (15 U.S.C. 2605(b)(4)(F)(iii)). The specific risk evaluation process is set out in 40 CFR part 702 and summarized on EPA’s website at <https://www.epa.gov/assessing-and-managing-chemicals-under-tsca/risk-evaluations-existing-chemicals-under-tsca>.

C. Does this action apply to me?

This action is directed to the public in general. This action may, however, be of interest to those involved in the manufacture, processing, distribution, and disposal of chemical substances and mixtures, and/or those interested in the assessment of risks involving chemical substances regulated under TSCA. Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

D. What should I consider as I submit my comments to EPA?

1. Submitting Confidential Business Information (CBI).

Do not submit CBI or other sensitive information to EPA through <https://www.regulations.gov> or email. If you’d like to include information in your comment that you consider to be CBI or otherwise protected, please contact the PRL listed under **FOR FURTHER INFORMATION CONTACT** to obtain special

instructions before submitting that information.

2. *Tips for preparing comments.* When preparing and submitting your comments, see Tips for Effective Comments at <https://www.epa.gov/dockets>.

II. Request for Comment

EPA is seeking public comment on both the draft risk evaluation and the draft charge questions for the letter peer review. Both documents are available in EPA Docket ID No. EPA-HQ-OPPT-2023-0265 at <https://www.regulations.gov> and may also be accessed through EPA’s website at <https://www.epa.gov/tsca-peer-review>. As additional background materials become available, EPA will include those additional background documents (e.g., reviewers participating in this letter peer review) in the docket and on the website.

III. Preparatory Meeting

EPA will publish instructions on how to register for the virtual public meeting that will be held on March 5, 2024, from 1–4 p.m. EST. After registering, you will receive the webcast meeting link and audio teleconference information for this public meeting. You may register and participate as a listen-only attendee at any time up to the end of the meeting on March 5, 2024. Requests to make brief (up to five minutes) oral comments during the preparatory meeting can be submitted when registering and will be accepted until Friday, March 1, 2024.

IV. Letter Peer Review

A. What is the purpose of this Letter Peer Review?

The focus of this Letter Peer Review is on the approach and methodologies utilized in the “2023 Draft Risk Evaluation for Tris(2-chloroethyl) Phosphate (TCEP).” Feedback from this review will be considered in the development of the final TCEP risk evaluation.

B. Why did EPA develop these documents?

TCEP is a High-Priority substance undergoing the TSCA risk evaluation process. TCEP has been primarily used in paint and coating manufacturing, and in polymers used in aerospace equipment and products. In the past it has also been used in commercial and consumer products, including fabric and textile products, foam seating, and construction materials. TCEP may also be imported in articles intended for consumer use.

In August 2020, EPA published a final scope document for 20 High-Priority

substances, including TCEP, outlining the hazards, exposures, conditions of use, and the potentially exposed or susceptible subpopulations the Agency expects to consider in its risk evaluation.

EPA is submitting the “2023 Draft Risk Evaluation for Tris(2-chloroethyl) Phosphate (TCEP)” and associated supporting documents for Letter Peer Review. The Letter Peer Review will include review of the analysis of physical chemical properties, the fate of TCEP in the environment, releases of TCEP to the environment, environmental hazard and risk characterization for terrestrial and aquatic species, and human health hazard and risk characterization for workers, consumers, and the general population. Specifically, EPA is seeking comment on the following issues:

- The list of considerations EPA used to arrive at the human health hazard confidence levels and the specific confidence levels chosen for individual human health hazard outcomes (neurotoxicity, reproductive/developmental effects, kidney effects, and cancer) in the TCEP risk evaluation.
- Whether the approach used to estimate anaerobic degradation in the absence of data is appropriate for assessing anaerobic degradation in sediment.
- Use of the model, Web-based Interspecies Correlation Estimation (Web-ICE), to predict acute toxicity hazard values for aquatic species not represented in the available studies.

This is the first time EPA has used Web-ICE in a TSCA risk evaluation. These predictions were used with available empirical data to create a Species Sensitivity Distribution (SSD). The SSD was used to calculate a hazardous concentration for 5% of species (HC₀₅). EPA is also using a data-driven way of accounting for uncertainty for environmental hazard and is soliciting comment on its characterization of this uncertainty, specifically its use of the lower bound of the 95% confidence interval of the hazardous HC₀₅.

- Human health hazard benchmark dose modeling of animal toxicity data for TCEP.
- The list of considerations EPA used to arrive at the human health hazard confidence levels and the specific confidence levels chosen for individual human health hazard outcomes (neurotoxicity, reproductive/developmental effects, kidney effects, and cancer) to quantitatively evaluate risk from TCEP.
- Use of several approaches for estimating exposures to humans and

environmental receptors: (1) The use of Verner 2008 Multi-compartment model, which was used to assess TCEP exposure to infants through human milk for the first time in a TSCA risk evaluation; (2) the use of Verner 2008 Multi-compartment model and associated uncertainties in extrapolating from the inhalation to oral routes of exposure; (3) the use of the American Meteorological Society/Environmental Protection Agency Regulatory Model (AERMOD) to estimate air deposition of TCEP. EPA has used AERMOD in previous TSCA risk evaluations; however, its use in estimating air deposition is novel for TSCA risk evaluations.

- Approach for modeling drinking water contamination from wells near municipal solid waste landfills, which is a new approach for TSCA risk evaluations.

C. How can I access the documents submitted for review?

The “2023 Draft Risk Evaluation for Tris(2-chloroethyl) Phosphate (TCEP)” and all background documents, related supporting materials, and draft charge questions are available at <https://www.regulations.gov> in Docket ID No. EPA-HQ-OPP-2023-0265 and through the TSCA Scientific Peer Review Committees website at <https://www.epa.gov/tsca-peer-review>. In addition, as additional background materials become available (e.g., reviewers participating in the letter peer review), EPA will include those additional background documents in the docket and through the website.

Pesticide Product Registration; Receipt of Applications for New Uses November 2023

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received applications to register new uses for pesticide products containing currently registered active ingredients. Pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is hereby providing notice of receipt and opportunity to comment on these applications.

DATES: Comments must be received on or before January 16, 2024.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2023-0067, through the *Federal eRulemaking Portal* at <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically

any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting and visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

Charles Smith, Registration Division (RD) (7505T), main telephone number: (202) 566-2427, email address: RDfRNotices@epa.gov. The mailing address for each contact person is Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001. As part of the mailing address, include the contact person's name, division, and mail code. The division to contact is listed at the end of each application summary.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](https://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at
