

previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The annual public reporting and recordkeeping burden for this collection of information is estimated to average: 8 hours for the 2 EPA-approved refrigerant recovery/recycling equipment testing organizations; 2,250 hours for an estimated 2,250 owners of refrigerant recovery/recycling equipment (including air-conditioning and refrigeration service establishments) that will change ownership or enter the market; 375 hours for an estimated 375 appliance disposal establishments that change ownership or enter the market; 97,500 hours for the maintenance of copies of signed statements by an estimated 7,500 disposal establishments; 20 hours for certification of an estimated 4 refrigerant reclaimers that change ownership or enter the market; 245 hours for refrigerant reclaimer annual reporting from an estimated 49 respondents; 306 hours for refrigerant reclaimer transactional recordkeeping from an estimated 49 respondents; 2,250,000 hours for an estimated 10,000 refrigerant wholesalers to maintain records of refrigerant sales transactions; 25 hours for an estimated 5 technician certification programs applying for first-time approval; 455 hours for an estimated 91 technician certification programs to maintain records; 182 hours for an estimated 91 technician certification programs to submit biannual reports on their pass/fail rates and the next year's testing schedule; 5,010 hours for an estimated 30,000 technicians acquiring certification for the first time; 5,010 hours for an estimated 300,000 previously certified technicians to maintain their certification cards; 512 hours for an estimated 20,500 technicians servicing appliances with charge sizes greater than 50 pounds of refrigerant to provide service invoices to their customers; 512 hours for an estimated 20,500 owners/operators of appliances with charge sizes greater than 50 pounds of refrigerant to maintain service invoices; 10 hours for an estimated 20 owners of industrial process refrigeration equipment (appliances) who request a 30-day extension to the 30-day leak repair requirement or the retrofit requirement; 0.5 hours (30 minutes) for an estimated 1 owner of industrial process refrigeration equipment

(appliances) who requests an extension to the 1-year timeframe to implement retrofit/retirement plans; 0.05 hours (3 minutes) for an estimated 2 owners of industrial process refrigeration appliances who maintain information on purged/destroyed refrigerant that they wish to exclude from their leak rate calculations; 40,000 hours for an estimated 5,000 owners/operators of appliances with refrigerant charges greater than 50 pounds to create and maintain a plan to retire/replace or retrofit comfort cooling, commercial refrigeration, and industrial process refrigeration appliances; 2,501 hours for an estimated 100,025 owners/operators of industrial process refrigeration appliances with refrigerant charge sizes greater than 50 pounds to maintain records on the results of initial and follow-up verification tests and 5,000 hours for an estimated 200,000 appliance owners/operators who choose to determine the appliance's full charge using a range of possible values.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here: *Estimated total number of potential respondents:* 663,669.

*Frequency of response:* Reporting requirements under this rulemaking are primarily required on an annual basis, with the exception of technician testing organizations that are required to report biannually. The frequency of recordkeeping requirements under this rulemaking vary depending upon the actions of the respondent but are generally required on a transactional basis.

*Estimated total average number of responses for each respondent:* 1.

*Estimated total annual burden hours:* 2,404,913 hours.

*Estimated total annual costs:* \$96,364,851. This includes an estimated burden cost of \$96,364,851 and an

estimated cost of \$0 for capital investment costs.

#### **Are there changes in the estimates from the last approval?**

There is no increase of hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This is due to the fact that there have been no changes in any program requirement, no changes in EPA's estimates of the time required to submit reports and maintain records, and no changes in EPA's estimates of the overall number of respondents. However, due to a correction of miscalculated estimates in the ICR currently approved by OMB, there is a change in the estimated total number of potential respondents from that identified in the ICR currently approved by OMB. There is also an increase of \$8,345,044 in the estimated total annual cost as a result of changes in EPA's estimates of labor rates.

#### **What is the next step in the process for this ICR?**

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: December 8, 2010.

#### **Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NSPS for Electric Utility Steam Generating (Renewal)**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C.

3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

**DATES:** Additional comments may be submitted on or before January 13, 2011.

**ADDRESSES:** Submit your comments, referencing docket ID number EPA-HQ-OECA-2010-0359, to (1) EPA online using <http://www.regulations.gov> (our preferred method), or by e-mail to [docket.oeca@epa.gov](mailto:docket.oeca@epa.gov), or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 28221T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

**FOR FURTHER INFORMATION CONTACT:** Robert C. Marshall, Jr., Office of Compliance, 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-7021; e-mail address: [marshall.robert@epa.gov](mailto:marshall.robert@epa.gov).

**SUPPLEMENTARY INFORMATION:** EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On June 2, 2010, (75 FR 30813) EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2010-0359, which is available for public viewing online at <http://www.regulations.gov>, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index

listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that the EPA policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

**Title:** NSPS for Electric Utility Steam Generating Units (Renewal).

**ICR Numbers:** EPA ICR Number 1053.10, OMB Control Number 2060-0023.

**ICR Status:** This ICR is scheduled to expire on January 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the EPA regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

**Abstract:** The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 60, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 60, subpart Da. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 96 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain,

or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Owners or operators of electric utility steam generating units.

**Estimated Number of Respondents:** 677.

**Frequency of Response:** Initially, quarterly and semiannually.

**Estimated Total Annual Hour Burden:** 160,839.

**Estimated Total Annual Cost:** \$27,445,813, which includes \$15,090,813 in labor costs, \$2,200,000 in capital/startup costs, and \$10,155,000 in operation and maintenance (O&M) costs.

**Changes in the Estimates:** There are no changes in either the labor hours or in the capital/startup and operation and maintenance costs in this ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative, or non-existent.

The increase in labor cost to both Respondents and the Agency is due to labor rate adjustments that reflect the most recent available estimates.

Dated: December 7, 2010.
