SUPPLEMENTARY INFORMATION:

Title: Drinking Water State Revolving Fund Program; OMB No. 2040-0185; EPA ICR No. 1803.03; expiration date June 30, 2000. This is a request for an extension of a currently approved collection.

Abstract: The Safe Drinking Water Act (SDWA) Amendments of 1996 (Public Law 104-182) authorize the creation of Drinking Water State Revolving Fund (DWSRF) programs in each State and Puerto Rico to assist public water systems to finance the costs of infrastructure needed to achieve or maintain compliance with SDWA requirements and to protect public health. Section 1452 authorizes the Administrator of EPA to award capitalization grants to the States and Puerto Rico which, in turn, provide low-cost loans and other types of assistance to eligible drinking water systems (*i.e.*, local respondents).

The information collection activities will occur primarily at the program level through the Capitalization Grant Application and Agreement / State Intended Use Plan, Biennial Report, Annual Audit, and Assistance Application Review.

In order to receive a grant, the State must prepare a Capitalization Grant Application that includes an Intended Use Plan (IUP) outlining in detail how it will use funds in the program. The Capitalization Grant Agreement is the principal instrument by which the State commits to manage its revolving fund program in conformity with the requirements of the SDWA.

The State must agree to complete and submit a Biennial Report on the uses of the capitalization grant. The Biennial Report indicates how the State has met its goals and objectives of the previous two fiscal years as stated in the grant agreement, and more specifically in the IUP. The report provides information on loan recipients, loan amounts, loan terms, project categories of eligible costs, and similar data on other forms of assistance.

A State must, at minimum, comply with the provisions of the Single Audit Act Amendments of 1996. Best management practices suggest, and EPA recommends, that a State conduct an annual independent audit of its DWSRF program (including set-asides), which contains an opinion on the financial statements of the DWSRF, a report on its internal controls, and a report on

compliance with applicable laws and the SDWA.

Because States provide assistance to local applicants, States assist local applicants in preparing DWSRF loan applications and verify that proposed projects will comply with applicable federal and state requirements.

EPA will use the Capitalization Grant Application / Intended Use Plan, Biennial Report, and Annual Audit to help conduct its oversight responsibilities as mandated by the SDWA.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on September 7, 1999 (64 FR 48615); 11 comments were received from two parties.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1,703 hours per State response and 80 hours per local respondent response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State and local governments and local respondents.

Estimated Number of Respondents: 1,377.

Frequency of Response: Annual.

Estimated Total Annual Hour Burden: 192,950 hours.

Estimated Total Annualized Cost Burden (non-labor costs): \$0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection

techniques to the following addresses. Please refer to EPA ICR No. 1803.03 and OMB Control No. 2040-0185 in any correspondence.
