Information Collection Request

1. *Title:* Defect/Noncompliance Report and Campaign Update Report.

OMB Control Number: 1625–0010.

Summary: Manufacturers whose products contain defects that create a substantial risk of personal injury to the public or fail to comply with an applicable Coast Guard safety standard are required to conduct defect notification and recall campaigns in accordance with 46 U.S.C. 4310. Regulations in 33 CFR 179 require manufacturers to submit certain reports to the Coast Guard concerning progress made in notifying owners and making repairs.

Need: Under 46 U.S.C. 4310(d) and (e); 33 CFR 179.13 and 179.15, the manufacturer shall provide the Commandant of the Coast Guard with an initial report consisting of certain information about the defect notification

and recall campaign being conducted and follow up reports describing progress. Upon receipt of information from a manufacturer indicating the initiation of a recall, the Recreational Boating Product Assurance Branch assigns a recall campaign number, and sends the manufacturer CG forms CG–4917 and CG–4918 for supplying the information.

Forms: CG–4917; Defect/Noncompliance Report and CG–4918; Campaign Update Report.

Respondents: Manufacturers of boats and certain items of “designated” associated equipment (inboard engines, outboard motors, sterndrive engines or an inflatable personal flotation device approved under 46 CFR 160.076).

Frequency: Quarterly.

Burden Estimate: The estimated burden has decreased from 252 to 207 hours annually. The number of campaigns has decreased due to the proactive nature of the Coast Guard factory inspectors who detect and correct recreational boat deficiencies before a watercraft is placed in the market for sale.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended.

Dated: July 8, 2015.

Sincerely,

Thomas P. Michelli,

[Docket ID FEMA-2015-0001]

Changes in Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final notice.

SUMMARY: New or modified Base (1-percent annual chance) Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, and/or regulatory floodways (hereinafter referred to as flood hazard determinations) as shown on the indicated Letter of Map Revision (LOMR) for each of the communities listed in the table below are finalized. Each LOMR revises the Flood Insurance Rate Maps (FIRMs), and in some cases the Flood Insurance Study (FIS) reports, currently in effect for the listed

communities. The flood hazard determinations modified by each LOMR will be used to calculate flood insurance premium rates for new buildings and their contents.

DATES: The effective date for each LOMR is indicated in the table below.

ADDRESSES: Each LOMR is available for inspection at both the respective Community Map Repository address listed in the table below and online through the FEMA Map Service Center at www.msc.fema.gov.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, FEMA, 500 C Street SW., Washington, DC 20472, (202) 646-4064, or (email) Luis.Rodriguez3@fema.dhs.gov; or visit the FEMA Map Information eXchange (FMIX) online at www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final flood hazard determinations as shown in the LOMRs for each community listed in the table below. Notice of these modified flood hazard determinations has been published in newspapers of local circulation and 90 days have elapsed since that publication. The Deputy Associate Administrator for Mitigation has resolved any appeals resulting from this notification.

The modified flood hazard determinations are made pursuant to section 206 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

For rating purposes, the currently effective community number is shown and must be used for all new policies and renewals.

The new or modified flood hazard information is the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to remain qualified for participation in the National Flood Insurance Program (NFIP).

This new or modified flood hazard information, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities.

This new or modified flood hazard determinations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings, and for the contents in those buildings. The changes in flood hazard determinations are in accordance with 44 CFR 65.4.

Interested lessees and owners of real property are encouraged to review the final flood hazard information available at the address cited below for each community or online through the FEMA Map Service Center at www.msc.fema.gov.
