

delay. The Trust's Web site will provide ongoing pricing information for copper spot prices and the Shares. Market prices for the Shares will be available from a variety of sources including brokerage firms, information Web sites and other information service providers. The NAV will be published by the Sponsor on each business day after 4:00 p.m. E.T. and will be posted on the Trust's Web site. The IIV per Share for the Shares, updated at least every 15 seconds, as calculated by the Exchange or a third party financial data provider, will be widely disseminated by one or more major market data vendors at least every 15 seconds during the Core Trading Session on the Exchange. In addition, the Exchange will make available over the Consolidated Tape last sale and quotation information, trading volume, closing prices and NAV for the Shares from the previous day.

The proposed rule change is designed to promote just and equitable principles of trade and to protect investors and the public interest in that a large amount of information is publicly available regarding the Trust and the Shares, thereby promoting market transparency. Trading in Shares of the Trust will be halted if the circuit breaker parameters in NYSE Arca Equities Rule 7.12 have been reached or because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. Moreover, prior to the commencement of trading, the Exchange will inform its ETP Holders in an Information Bulletin of the special characteristics and risks associated with trading the Shares.

The proposed rule change is designed to perfect the mechanism of a free and open market and, in general, to protect investors and the public interest in that it will facilitate the listing and trading of an additional type of Commodity-Based Trust Shares that will enhance competition among market participants, to the benefit of investors and the marketplace. As noted above, the Exchange has in place surveillance procedures relating to trading in the Shares and may obtain information via ISG from other exchanges that are members of ISG or with which the Exchange has entered into a comprehensive surveillance sharing agreement.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) by order approve or disapprove the proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Increase the Class Quoting Limit for Options on Facebook

June 21, 2012.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that, on June 15, 2012, the Chicago Board Options Exchange, Incorporated (the "Exchange" or "CBOE") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

CBOE proposes to amend the Class Quoting Limit ("CQL") for options on Facebook. The text of the proposed rule change is available on the Exchange's Web site (<http://www.cboe.com/AboutCBOE/CBOELegalRegulatoryHome.aspx>), at the Exchange's Office of the Secretary and at the Commission's Public Reference Room.

² 17 CFR 240.19b-4.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

A CQL is the maximum number of Trading Permit Holders ("TPHs") that may quote electronically in a given product.³ CBOE Rule 8.3A, Interpretation .01 states that the CQL for products trading on the Exchange's Hybrid Trading System ("Hybrid") is 50.⁴ However, the President of the Exchange may increase the CQL for an existing or new product if he determines that it would be appropriate.⁵ Such an increase can be accomplished by submitting to the Commission a rule filing pursuant to Section 19b(3)(A) of the Act and announcing the increase to TPHs via Information Circular.⁶ The Exchange has previously increased the CQLs for other products to 60 via rule filing.⁷

Since the Exchange recently began electronically trading options on Facebook, trading volume and TPH interest in quoting on that product has increased rapidly. As such, CBOE's President has determined that it would be appropriate to increase the CQL for Facebook from 50 to 60. The Exchange has prepared an Information Circular to inform TPHs of this change, and hereby submits this proposed rule filing to effect such change. The Exchange has the system capacity to manage the proposed increase.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act and the rules and regulations

³ See CBOE Rule 8.3A.

⁴ See CBOE Rule 8.3A, Interpretation .01(a).

⁵ See CBOE Rule 8.3A, Interpretation .01(b).

⁶ See CBOE Rule 8.3A, Interpretation .01(c).

⁷ See Securities Exchange Act Release No. 55664 (April 24, 2007), 72 FR 23867 (May 1, 2007) (SR-CBOE-2007-36), which increased the CQLs for Apple Inc. and Research In Motion to 60.
