

that these revisions are no less stringent than the corresponding federal regulations. Therefore, EPA intends to approve these program revisions.

All interested parties may request a public hearing. A request for a public hearing must be submitted by April 10, 2002, to the Regional Administrator at the EPA Region 6 address shown below. Frivolous or insubstantial requests for a hearing may be denied by the Regional Administrator. However, if a substantial request for a public hearing is made by April 10, 2002, a public hearing will be held. If no timely and appropriate request for a hearing is received and the Regional Administrator does not elect to hold a hearing on his own motion, this determination shall become final and effective on April 10, 2002. Any request for a public hearing shall include the following information: The name, address, and telephone number of the individual, organization, or other entity requesting a hearing; a brief statement of the requesting person's interest in the Regional Administrator's determination and a brief statement of the information that the requesting person intends to submit at such hearing; and the signature of the individual making the request, or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

ADDRESSES: All documents relating to this determination are available for inspection between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, at the following offices: Arkansas Department of Health, Division of Engineering—Slot #37, 4815 West Markham, Little Rock, Arkansas 72205 and United States Environmental Protection Agency, Region 6, Drinking Water Section (6WQ-SD), 1445 Ross Avenue, Suite 1200, Dallas, Texas 75202.

FOR FURTHER INFORMATION CONTACT: José G. Rodriguez, EPA Region 6, Drinking Water Section at the Dallas address given above or at telephone (214) 665-8087.

Authority: (Section 1413 of the Safe Drinking Water Act, as amended (1996), and 40 CFR part 142 of the National Primary Drinking Water Regulations).

Dated: February 22, 2002.

Lawrence Starfield,

Acting Regional Administrator, Region 6.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collections Approved by Office of Management and Budget

March 4, 2002.

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995, Pub. L. 104-13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number. For further information contact Shoko B. Hair, Federal Communications Commission, (202) 418-1379.

Federal Communications Commission

OMB Control No.: 3060-0463.

Expiration Date: 07/31/2002.

Title: Telecommunications Services for Individuals with Hearing and Speech Disabilities and the Americans with Disabilities Act of 1990, 47 CFR part 64 (Sections 64.601-64.605).

Form No.: N/A.

Respondents: Business or other for-profit.

Estimated Annual Burden: 5052 respondents; 5.31 hour per response (avg.); 26,831 total annual burden hours (for all collections under this control number).

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion; Every five years; Recordkeeping; Third Party Disclosure.

Description: In the *Memorandum Opinion and Order and Further Notice of Proposed Rulemaking* issued in CC Docket No. 98-67, released December 21, 2001 (MO&O), the Commission adopts three of the four recommendations for traditional TRS: (1) The Commission directs the TRS administrator to use the average per minute costing methodology to develop the interstate cost recovery mechanism for traditional TRS; (2) the Commission also directs the TRS administrator to review the TRS Center Data Request, and report to the Chief of the Common Carrier Bureau, on an ongoing basis, any changes necessary to ensure that TRS providers are compensated for additional costs imposed by the *Improved TRS Order*; and (3) the Commission directs that the same minutes of use allocation methodology in place for toll-free call minutes should be used for 900 call minutes. In the *MO&O*, the Commission also adopts the

four recommendations for STS cost recovery: (1) The Commission directs the TRS administrator to use the same average per minute costing methodology cost recovery mechanism for traditional TRS for STS; (2) the Commission adopts a separate per-minute national average compensation formula for STS and directs the TRS administrator to develop annually a national average STS reimbursement rate for compensating STS providers; (3) because STS service is of a more recent origin, the Commission adopts the Advisory Council and the Fund Administrator's recommendation that the TRS Center Data Request be expanded to capture separately STS costs and minutes; and (4) as with traditional TRS, each provider of STS services will be compensated at the national average rate for every completed conversation minute. In the *MO&O*, the Commission also states that due to the unique characteristics of VRS, a separate reimbursement rate for VRS should be calculated. The Commission also agrees with the Advisory Council and the Fund Administrator's recommendation that the TRS Center Data Request should be expanded to include specific sections to capture separately VRS costs and minutes for this service. Thus, the Commission requires NECA to expand the TRS Data Request to include data that are specific to VRS. By promoting the efficient and effective means of cost recovery for TRS services, these collection requirements should help to advance a procompetitive, deregulatory national policy framework for telecommunications services, a key goal of the Telecommunications Act of 1996. Other information collections unaffected by the MO&O remain in place as currently approved by OMB.

Obligation to respond: Mandatory.

OMB Control No.: 3060-0519.

Expiration Date: 02/28/2005.

Title: Rules and Regulations

Implementing the Telephone Consumer Protection Act of 1991 (CC Docket No. 92-06).

Form No.: N/A.

Respondents: Business or other for-profit.

Estimated Annual Burden: 30,000 respondents; 31.2 hours per response (avg.); 936,000 total annual burden hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion; Recordkeeping.

Description: In CC Docket No. 92-60, the Commission implemented rules pursuant to the requirements of the Telephone Consumer Protection Act of 1991, Public Law 102-243, December

20, 1991 (TCPA) which added Section 227 to the Communications Act of 1934, as amended, to restrict the use of automatic telephone dialing systems, artificial or prerecorded messages, facsimile machines or other devices to send unsolicited advertisements. The rules require that telephone solicitors maintain and use company-specific lists of residential subscribers who request not to receive further telephone calls (company-specific do-not-call lists), thereby affording consumers the choice of which solicitors if any, they will hear from by telephone. Telephone solicitors also are required to have a written policy for maintaining do-not-call lists, and are responsible for informing and training their personnel the existence and use of such lists. See 47 CFR Section 64.1200(e)(i). The rules require that those making telephone solicitations identify themselves to called parties, and that basic identifying information also be included in telephone facsimile transmissions. See 47 CFR Sections 64.1200(e)(iv) and 68.318(c)(3). The Commission believes that these rules are the best means of preventing unwanted telephone solicitations. *Obligation to respond:* Mandatory.

OMB Control No.: 3060–0653.

Expiration Date: 02/28/2005.

Title: Sections 64.703(b) and (c)—Consumer Information—Posting by Aggregators.

Form No.: N/A.

Respondents: Business or other for-profit.

Estimated Annual Burden: 56,200 respondents; 3.67 hour per response (avg.); 206,566 total annual burden hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion; Third Party Disclosure.

Description: Section 226(c)(1)(A) of the Communications Act and Section 64.703(b) of the Commission's rules require that each aggregator post on or near the telephone instrument in plain view of consumers: (1) The name, address, and toll-free telephone number of the provider of operator services; (2) written disclosure that the rates for all operator-assisted calls are available on request, and that consumers have a right to obtain access to the interstate common carrier of their choice and may contact their preferred interstate common carriers for information on accessing that carrier's service using that telephone; and (3) the name and address of the Consumer Information Bureau of the Commission, to which the consumer may direct complaints regarding operator services. This

requirement was a response to a widespread failure of aggregators to disclose information necessary for informed consumer choice in the marketplace. See 47 CFR Section 64.703(b). In the Second Order on Reconsideration in CC Docket No. 92–77, the Commission amended section 64.703(b)(4) to require that the new bureau's (Consumer Information Bureau) name and address be posted on payphones in future postings. The Consumer Information Bureau, is now the appropriate recipient of consumer complaints about OSPs. Section 64.703(c) establishes a 30-day outer limit for aggregators to update the posted information. An aggregator may meet the 30-day outer limit rule, where its maintenance technicians would not otherwise visit the particular payphone location within 30 days, by having its coin collection or other agent affix a temporary sticker to the payphone. Such temporary sticker must be replaced with permanent signage during the next regularly scheduled maintenance visit. Section 64.703(c) is intended to provide updated OSP information to consumers and enable consumers to make informed choices when placing operator service calls. See 47 CFR Section 64.703(c). Aggregators will disclose the required information to consumers via printed notice that is posted on or near each of the aggregator's phones. Pursuant to Section 64.703(c), this information must be updated within 30 days in changes of OSPs. Consumers will use this information to determine whether they wish to use the services of the identified OSP. *Obligation to respond:* Mandatory. *OMB Control No.:* 3060–0823.

Expiration Date: 2/28/2005.

Title: Pay Telephone Reclassification Memorandum Opinion and Order, CC Docket No. 96–128.

Form No.: N/A.

Respondents: Business or other for-profit.

Estimated Annual Burden: 400 respondents; 111.75 hour per response (avg.); 44,700 total annual burden hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$480,000.

Frequency of Response: On occasion; Recordkeeping; Third Party Disclosure.

Description: In the Payphone Orders, the Commission adopted rules and policies governing the payphone industry to implement section 276 of the Telecommunications Act of 1996. Those rules and policies in part establish a plan to ensure fair compensation for “each and every completed intrastate and interstate call using [a] payphone.” Specifically, the Commission established a plan to ensure that payphone service providers

(PSPs) were compensated for certain noncoin calls originated from their payphones. In a Memorandum Opinion and Order issued in CC Docket No. 96–128 (Order), the Commission clarified requirements established in the Payphone Orders for the provision of payphone-specific coding digits. The following collections of information implement section 276 of the Act. The collection requirements are as follows:

a. *LEC Tariff to provide FLEX ANI to IXC:* Local exchange carriers (LECs) must implement FLEX ANI to comply with the requirements set forth in the Payphone Orders. LECs must provide to IXC through their interstate tariffs, FLEX ANI service so that IXC can identify which calls come from a payphone. LECs (and PSPs) must provide FLEX ANI to IXC without charge for the limited purpose of per-call compensation, and accordingly, LECs providing FLEX ANI must revise their interstate tariffs to reflect FLEX ANI as a nonchargeable option to IXC no later than March 30, 1998, to be effective no later than April 15, 1998, in those areas that it is available. (No. of respondents: 400; hours per response: 35 hours; total annual burden: 14,000 hours.)

b. *LEC Tariff to recover costs:* LECs must file a tariff to establish a rate element in their interstate tariffs to recover their costs from PSPs for providing payphone-specific coding digits to IXC. This tariff must reflect the costs of implementing FLEX ANI to provide payphone-specific coding digits for payphone compensation, and provide for recovery of such costs over a reasonable time period through a monthly recurring flat-rate charge. LECs must provide cost support information for the rate elements they propose. The Bureau will review these LEC rate element tariff filings, the reasonableness of the costs, and the recovery period. LECs will recover their costs over an amortization period of no more than ten years. The rate element charges will discontinue when the LEC has recovered its cost. (No. of respondents: 400; hours per response: 35 hours; total annual burden 14,000 hours.)

c. *LECs must provide IXC information on payphones that provide payphone-specific coding digits for smart and dumb payphones:* LECs must provide IXC information on the number and location of smart and dumb payphones providing payphone-specific coding digits, as well as the number of those that are not. (No. of respondents: 400; hours per response: 24 hours; total annual burden: 9600 hours.)

d. *LECs must provide IXC and PSP information on where FLEX ANI is*

available now and when it is to be scheduled in the future: Within 30 days of the release of the MO&O, LECs should be prepared to provide IXC's, upon request, information regarding their plans to implement FLEX ANI by end office. LECs must provide IXC's and PSPs information on payphones that provide payphone-specific coding digits on end offices where FLEX ANI is available, and where it is not, on a monthly basis. Pursuant to the waivers in this order, LECs must also inform IXC's and PSPs proposed dates for its availability. (No. of respondents: 400; hours per response: 16 hours; total annual burden: 6400 hours.)

e. For a waiver granted to small or midsize LECs, a cost analysis must be provided, upon request: In the MO&O, the Bureau grants a waiver to midsize and small LECs that will be unable to recover the costs of implementing FLEX ANI in a reasonable time period. LECs must make this evaluation within 30 days of the release of the MO&O. The LEC must then notify IXC's that they will not be implementing FLEX ANI pursuant to this waiver, and provide the number of dumb payphones providing the "27" coding digit and the number of smart phones for which payphone-specific coding digits are unavailable. A LEC delaying the implementation of FLEX ANI pursuant to this waiver provision must be prepared to provide its analysis, if requested by the Commission. (No. of respondents: 20; hours per response: 35 hours; total annual burden: 700 hours.) The information disclosure rules and policies governing the payphone industry to implement section 276 of the Act will ensure the payment of per-call compensation by implementing a method for LECs to provide information to IXC's to identify calls, for each and every call made from a payphone. Obligation to respond: Required to obtain or retain benefits.

Public reporting burden for the collections of information are as noted above. Send comments regarding the burden estimates or any other aspect of the collections of information, including suggestions for reducing the burden to Performance Evaluation and Records Management, Washington, DC 20554.

Federal Communications Commission.

William Caton,

Acting Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) being Submitted to OMB for Review and Approval

March 4, 2002.

SUMMARY: The Federal Communications Commissions, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before April 10, 2002. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commission, Room 1-A804, 445 12th Street, SW., Washington, DC 20554 or via the Internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Les Smith at (202) 418-0217 or via the Internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0065.

Title: Application for New or Modified Radio Station Authorization Under Part 5 of FCC Rules, Experimental Radio Service (Other than Broadband).

Form Number: FCC 442.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions; and State, local, or tribal governments.

Number of Respondents: 700.

Estimated Time Per Response: 4 hrs.

Frequency of Response:

Recordkeeping; On occasion reporting requirement.

Total Annual Burden: 2,800 hrs.

Total Annual Costs: None.

Needs and Uses: Applicants must file FCC Form 442 under 47 CFR Sections 5.55(a), (b), and (c) of FCC Rules to obtain a license to operate a new or modified experimental radio station. The Commission uses the data obtained from Form 442 to if the applicant is eligible for an experimental license; the purpose of the experiment; compliance with the requirements of 5 CFR part 5 of FCC Rules; and if the proposed operation will cause interference to existing operations.

OMB Control Number: 3060-0149.

Title: Application and Supplemental Information Requirements—Part 63, Section 214, Sections 63.01-63.601.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 255.

Estimated Time Per Response: 10 hrs. (avg.).

Frequency of Response:

Recordkeeping; On occasion reporting requirements; Third party disclosure.

Total Annual Burden: 2,550 hrs.

Total Annual Costs: None.

Needs and Uses: Section 214 of the Communications Act of 1934, as amended, requires that the FCC review the establishment, lease, operations, and extension of channels of communications by interstate common carriers. 47 CFR part 63 implements provisions of the Cable Communications Policy Act of 1984 pertaining to video programming by telephone common carriers. The Commission uses the information it receives in applications from dominant carriers to determine if the facilities are needed. The information received from non-dominant carriers is used to monitor the growth of the networks and the availability of common carrier services.

OMB Control Number: 3060-0484.

Title: Amendment of part 63 of the Commission's Rules to Provide for Notification of Common Carriers of Service Disruptions, section 63.100.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.
