

Are there changes in the estimates from the last approval?

There is a decrease of 17,796 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease reflects EPA's phase down of the Climate Leaders program on September 30, 2011. As a result, the number of respondents to this ICR decreased to include only those 46 small businesses participating in the joint EPA-GSA Federal Supplier Greenhouse Gas Emissions Inventory Pilot.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: November 21, 2011.

Elizabeth Craig,

Director, Climate Protection Partnerships Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2011-0891; FRL-9498-3]

Agency Information Collection Activities; Proposed Collection; Comment Request; Protection of Stratospheric Ozone: Recordkeeping and Periodic Reporting of the Production, Import, Recycling, Destruction, Transshipment, and Feedstock Use of Ozone-Depleting Substances (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit a request to renew an existing approved Information Collection Request (ICR) to the Office of Management and Budget (OMB). This ICR, 1432.29, is scheduled to expire on

April 30, 2012. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before January 30, 2012.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OAR-2011-0891 by one of the following methods:

- <http://www.regulations.gov>: Follow the on-line instructions for submitting comments.
- *Email:* a-and-r-Docket@epa.gov.
- *Fax:* (202) 566-1741
- *Mail:* EPA-HQ-OAR-2011-0891, Environmental Protection Agency, Mailcode: 6205J, 1200 Pennsylvania Ave. NW., Washington, DC 20460.
- *Hand Delivery:* EPA-HQ-OAR-2011-0891, Air and Radiation Docket at EPA West, 1301 Constitution Avenue NW., Room B108, Mail Code 6102T, Washington, DC 20460. Such deliveries are only accepted during the Docket's normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA-HQ-OAR-2011-0891. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at www.regulations.gov, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or email. The www.regulations.gov Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through www.regulations.gov your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or

viruses. For additional information about EPA's public docket visit the EPA Docket Center homepage at <http://www.epa.gov/epahome/dockets.htm>.

FOR FURTHER INFORMATION CONTACT: Staci Gatica, Stratospheric Protection Division, Office of Atmospheric Programs, (6205J), Environmental Protection Agency, 1200 Pennsylvania Ave., NW. Washington, DC 20460; *telephone number:* (202) 343-9469; *fax number:* (202) 343-2338; *email address:* gatica.staci@epa.gov. You may also visit the Ozone Depletion Web site of EPA's Stratospheric Protection Division at www.epa.gov/ozone/strathome.html for further information about EPA's Stratospheric Ozone Protection regulations, the science of ozone layer depletion, and related topics.

SUPPLEMENTARY INFORMATION:**How can I access the docket and/or submit comments?**

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-OAR-2011-0891, which is available for online viewing at www.regulations.gov, or in person viewing at the Air and Radiation Docket in the EPA Docket Center (EPA/DC), EPA West Room 3334, 1301 Constitution Ave. NW., Washington, DC. The EPA/DC Public Reading Room is open from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for Air and Radiation Docket is (202) 566-1742.

Use www.regulations.gov to obtain a copy of the draft collection of information, submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified in this document.

What information is EPA particularly interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What should I consider when I prepare my comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What information collection activity or ICR does this apply to?

Affected entities: Entities potentially affected by this action are producers, importers, and distributors of Class I ozone-depleting substances, including chlorofluorocarbons, halons, and quarantine and preshipment methyl bromide, as well as research institutions using such substances.

Title: Agency Information Collection Activities; Proposed Collection; Comment Request; Protection of Stratospheric Ozone: Recordkeeping and Periodic Reporting of the Production, Import, Recycling, Destruction, Transshipment, and Feedstock Use of Ozone-Depleting Substances (Renewal).

ICR numbers: EPA ICR No. 1432.30, OMB Control No. 2060-0170.

ICR status: EPA ICR 1432.29 is currently scheduled to expire on April

30, 2012. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in Title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: EPA is seeking to renew EPA ICR 1432.29 which authorizes the recordkeeping and reporting requirements established in the regulations stated in 40 CFR part 82, subpart A and as required by the United States' commitments under the international treaty *The Montreal Protocol on Substances that Deplete the Ozone Layer* (Protocol). This information collection allows EPA to monitor the United States' compliance with the Protocol and Title VI of the Clean Air Act Amendments of 1990 (CAA).

Under its Protocol commitments, the United States is obligated to cease production and import of Class I controlled substances excluding chlorofluorocarbons (CFCs) that are subject to essential use exemptions, methyl bromide that is subject to critical use exemptions or exemptions for quarantine and preshipment uses, previously used material, and material that will be transformed, destroyed, or exported to developing countries. The Protocol also establishes limits and reduction schedules leading to the eventual phaseout of Class II controlled substances with similar exemptions beyond the phaseout. In addition to the Montreal Protocol, the CAA has its own limits on production and consumption of controlled substances that EPA must adhere to and enforce.

Under 40 CFR 82.13, producers, importers, exporters, and distributors of Class I ozone-depleting substances (ODS) must meet quarterly, annual, and/or transactional recordkeeping and reporting requirements. This information collection is conducted to meet U.S. obligations under the Montreal Protocol. The information collection request is required to obtain a benefit under Title VI of the CAA, added by Section 764 of the 1999 Omnibus Consolidated and Emergency Supplemental Appropriations Act (Pub. L. 105-277; October 21, 1998).

The reporting and recordkeeping requirements for Class I ODS will enable EPA to:

1. Ensure compliance with the restrictions on production, import, and export of Class I controlled substances;
2. Allow exempted production and import for certain uses and the consequent tracking of that production and import;
3. Address industry and Federal concerns regarding the illegal import of mislabeled used controlled substances;
4. Satisfy the United States' obligations to report data under Article 7 of the Montreal Protocol;
5. Fulfill statutory obligations under Section 603(b) of the CAA for reporting and monitoring;
6. Provide information to report to the U.S. Congress on the production, use, and consumption of Class I controlled substances as statutorily required in Section 603(d) of Title VI of the CAA.

The reported data will enable EPA to:

1. Maintain compliance with the Protocol requirements for annual data submission on the production of ODS; and
2. Analyze technical use data to ensure that exemptions are used in accordance with requirements included in the annual authorization rulemakings.

EPA informs respondents that they may assert claims of business confidentiality for any of the information they submit. Information claimed confidential will be treated in accordance with the procedures for handling information claimed as confidential under 40 CFR Part 2, Subpart B, and will be disclosed only to the extent, and by means of the procedures, set forth in Subpart B. If no claim of confidentiality is asserted when the information is received by EPA, it may be made available to the public without further notice to the respondents (40 CFR 2.203).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2.3 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently

changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR draft supporting statement available in the public docket provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

- Estimated total number of potential respondents: 1143.
- Frequency of response:
 - Producers, importers, exporters of methyl bromide, laboratory suppliers, and distributors of QPS methyl bromide (Class I, Group VI substances) are to report to EPA quarterly (45 days after the end of each quarter).
 - Exporters (of non-methyl bromide Class I substances), and persons that destroy and transform Class I controlled ODS are to report to EPA annually (45 days after the end of the control period).
 - Persons wanting to transfer CFCs or who petition to import used Class I controlled substances are to submit reports to EPA on a transactional basis.
 - All entities may be required to provide other such information that the Administrator may reasonably require to comply with requests from the Ozone Secretariat seeking information required by decisions taken by the Parties to the Montreal Protocol.
- Estimated total annual burden hours: 2583 hours.
- Estimated total annual costs: \$277,130. This includes an estimated burden cost of \$71,550 and an estimated cost of \$5,580 for capital investment or maintenance and operational costs.

Are there changes in the estimates from the last approval?

There is a decrease of 227 hours in the total estimated respondent burden compared with that identified in the EPA ICR 1432.29 which is currently approved by OMB. This decrease is due to the continued phaseout and decreased use of Class I controlled substances which subsequently reduces reporting obligations. For example, the exemption under the Montreal Protocol allowing for production and export of Class I controlled substances to developing countries for basic domestic needs expired in 2010. The burden and cost estimates for the Agency decreased due to revisions to the managerial review of reporting forms. Most reviews are done at the technical staff level. EPA

also now offers electronic reporting via the Agency's central data exchange (CDX) to the regulated community which has contributed to the reduction in burden for both the Agency as well as the regulated community.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: November 20, 2011.

Drusilla Hufford,

Director, Stratospheric Protection Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9498-4]

Clean Water Act Section 303(d): Availability of List Decisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of EPA's action identifying water quality limited segments and associated pollutants in Louisiana to be listed pursuant to Clean Water Act Section 303(d), and request for public comment. Section 303(d) requires that States submit and EPA approve or disapprove lists of waters for which existing technology-based pollution controls are not stringent enough to attain or maintain State water quality standards and for which total maximum daily loads (TMDLs) must be prepared.

On November 17, 2011, EPA partially approved and proposed to partially disapprove Louisiana's 2010 Section 303(d) submittal. Specifically, EPA approved Louisiana's listing of 410 waterbody pollutant combinations, and associated priority rankings. EPA proposed to disapprove Louisiana's decisions not to list three waterbodies. These three waterbodies were added by EPA because the applicable numeric water quality standards marine criterion

for dissolved oxygen was not attained in these segments.

EPA is providing the public the opportunity to review its proposed decisions to add the three waters to Louisiana's 2010 Section 303(d) List. EPA will consider public comments and if necessary amend its proposed action on the additional waterbodies identified for inclusion on Louisiana's Final 2010 Section 303(d) List.

DATES: Comments must be submitted in writing to EPA on or before December 30, 2011.

ADDRESSES: Comments on the decisions should be sent to Diane Smith, Environmental Protection Specialist, Water Quality Protection Division, U.S. Environmental Protection Agency Region 6, 1445 Ross Ave., Dallas, TX 75202-2733, telephone (214) 665-2145, facsimile (214) 665-6490, or email: smith.diane@epa.gov. Oral comments will not be considered. Copies of the documents which explain the rationale for EPA's decisions and a list of the 3 water quality limited segments for which EPA proposed disapproval of Louisiana's decisions not to list can be obtained at EPA Region 6's web site at <http://www.epa.gov/region6/water/npdes/tmdl/index.htm>, or by writing or calling Ms. Smith at the above address. Underlying documents from the administrative record for these decisions are available for public inspection at the above address. Please contact Ms. Smith to schedule an inspection.

FOR FURTHER INFORMATION CONTACT: Diane Smith at (214) 665-2145.

SUPPLEMENTARY INFORMATION: Section 303(d) of the Clean Water Act (CWA) requires that each State identify those waters for which existing technology-based pollution controls are not stringent enough to attain or maintain State water quality standards. For those waters, States are required to establish Total Maximum Daily Loads (TMDLs) according to a priority ranking. EPA's Water Quality Planning and Management regulations include requirements related to the implementation of Section 303(d) of the CWA (40 CFR 130.7). The regulations require States to identify water quality limited waters still requiring TMDLs every two years. The list of waters still needing TMDLs must also include priority rankings and must identify the waters targeted for TMDL development during the next two years (40 CFR 130.7). On March 31, 2000, EPA promulgated a revision to this regulation that waived the requirement for States to submit Section 303(d) lists in 2000 except in cases where a court
