

This project would produce "processor profiles", short narrative descriptions of all the onshore fish processing plants in the state of Alaska that will augment and update existing community profiles.

II. Method of Collection

Phone surveys will be conducted with all shore-based fish processing plants in Alaska. Site visits will be conducted with shore-based fish processing plants in three communities in Alaska: Cordova, Kenai, and Petersburg (these communities have not previously received a site visit and have the largest number of fish processing facilities in their sub-regions).

III. Data

OMB Control Number: None.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Businesses or other for-profit organizations.

Estimated Number of Respondents: 163 phone survey respondents; 27 in-person survey respondents (one per each processing plant visited during site visits).

Estimated Time Per Response: 20 minutes for phone survey; 40–60 minutes for in-person survey.

SUPPLEMENTARY INFORMATION:

I. Abstract

As part of its fishery management responsibilities, NOAA's National Marine Fisheries Service collects information to determine the amount and type of groundfish caught by fishing vessels. This collection supports exempted fishing permit requirements for Pacific whiting shoreside vessels to have and use electronic monitoring to verify full retention of catch and for Pacific whiting shoreside processors to send electronic catch data used to manage the catch allocations and limits. The respondents are principally groundfish fishermen and shoreside processors which are companies/partnerships. Other respondents include State fisheries agencies who seek an exempted fishing permit.

II. Method of Collection

Information is sent through electronic programs and e-mail.
