Description: ETA seeks approval of an annual plan narrative and one annual progress report as requirements for re-employment services allotments. In Program Year 2001 budget for Wagner-Peyser Act, State Employment Service Agencies (SESA) were allocated additional funds for re-employment services to Unemployment Insurance (UI) claimants. The annual plan and progress report will provide necessary information to assist the Secretary in determining if the proposed SESA re-employment services are acceptable and whether or not the purpose of the funds was achieved. Specific reporting is necessary to adequately track this activity separately from regular operations and record keeping. While this collection sets up new requirements, SESA staff can existing frameworks and systems to prepare the plan and collect any new information.

SUPPLEMENTARY INFORMATION:

I. Background

The Secretary of Labor under the Social Security Act, Title III, Section 302 (42 U.S.C. 502), funds the necessary cost of proper and efficient administration of each State Unemployment Insurance (UI) law. The BTQ program collects information and analyses data to do this. II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

III. Current Actions

Continued collection of data under the BTQ system will provide for a comprehensive evaluation of the overall UI program. The BTQ program has been, and will continue to be, one of the primary means used by UI Regional and National Office staff to assess performance levels of individual States and, as a basis for oversight, to discharge the Secretary of Labor's responsibility for determining proper and efficient administration. The SESAs also use the BTQ measures for their internal program assessment.
