BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

Notice of Proposed Information Collection for 1029-0087

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the Office of Surface Mining Reclamation and Enforcement (OSM) is announcing its intention to request renewed approval for the collection of information for 30 CFR 886—State and Tribal Reclamation Grants, and its accompanying form, OSM-76, Abandoned Mine Land Problem Area Description form.

The collection described below has been forwarded to the Office of Management and Budget (OMB) for review and approval. The information collection request describes the nature of the information collection and the expected burden and cost.

DATES: OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, public comments should be submitted to OMB by May 24, 2010, in order to be assured of consideration.

ADDRESSES: Comments may be submitted to the Office of Information and Regulatory Affairs, Office of Management and Budget, Department of the Interior Desk Officer, via e-mail at OIRA_Docket@omb.eop.gov, or by facsimile to (202) 395-5806. Also, please send a copy of your comments to John Trelease, Office of Surface Mining Reclamation and Enforcement, 1951 Constitution Ave., NW., Room 202-SIB, Washington, DC 20240, or electronically to jtrelease@osmre.gov. Please reference 1029-0087 in your correspondence.

FOR FURTHER INFORMATION CONTACT: To receive a copy of the information collection request contact John A. Trelease at (202) 208-2783, or electronically at jtrelease@osmre.gov.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities [see 5 CFR 1320.8(d)]. OSM has submitted requests to OMB to approve the collections of information for 30 CFR 886, State and Tribal Reclamation Grants, and its accompanying form, OSM-76, Abandoned Mine Land Problem Area Description form. OSM is requesting a 3-year term of approval for this information collection activity.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection of information is displayed on the form OSM-76 (1029-0087).

As required under 5 CFR 1320.8(d), a **Federal Register** notice soliciting comments on these collections of information was published on November 24, 2009 (74 FR 61363). No comments were received. This notice provides the public with an additional 30 days in which to comment on the following information collection activity:

Title: 30 CFR 886—State and Tribal Reclamation Grants and Form OSM-76.

Bureau Form: OSM-76—The Abandoned Mine Land Problem Area Description Form.

OMB Control Number: 1029-0087.

Summary: The regulation at 886.23(b) and its implementing form OSM-76 will be used to update the Office of Surface Mining Reclamation and Enforcement's inventory of abandoned mine lands. From this inventory, the most serious problem areas are selected for reclamation through the apportionment of funds to States and Indian tribes.

Frequency of Collection: On occasion.

Description of Respondents: State governments and Indian tribes.

Total Annual Responses: 1,350.

Total Annual Burden Hours: 4,800.

Send comments on the agency need for the collection of information to perform its mission; the accuracy of our burden estimates; ways to enhance the quality, utility and clarity of the information collection; and ways to minimize the information collection

burden on respondents, such as use of automated means of collection of the information, to the offices listed in the Addresses section. Please refer to OMB control number 1029-0087 in all correspondence.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: April 19, 2010.

John A. Trelease,

Acting Chief, Division of Regulatory Support.

BILLING CODE 4310-05-M

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Millerton Lake Resource Management Plan/General Plan (RMP/GP), Madera and Fresno Counties, CA

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability of the Final Environmental Impact Statement, Environmental Impact Report (EIS/EIR).

SUMMARY: The Bureau of Reclamation (Reclamation), as the National Environmental Policy Act Federal lead agency, and the California Department of Parks & Recreation (CDPR), as the California Environmental Quality Act (CEQA) State lead agency, have prepared a Final EIS/EIR for the Millerton Lake RMP/GP. The RMP/GP involves alternatives for future use of the project area for recreation and resource protection and management.

A Notice of Availability of the Draft EIS/EIR was published in the **Federal Register** on July 25, 2008 (73 FR 43473). The formal comment period on the Draft EIS/EIR ended on September 23, 2008. The Final EIS/EIR contains responses to all comments received and reflects comments and any additional information received during the review period.

DATES: Reclamation will not make a decision on the proposed action until at least 30 days after release of the Final EIS/EIR. After the 30-day waiting period, Reclamation will complete a Record of Decision (ROD). The ROD will state the action that will be

implemented and will discuss all factors leading to the decision.

The California State Parks and Recreation Commission Hearing on the Final RMP/GP EIS/EIR will be held on May 12, 2010. A Notice of Determination will be filed after the Commission Hearing. This action will trigger a 30-day appeal period under CEQA.

ADDRESSES: Send requests for a compact disc copy of the Final EIS/EIR to Mr. Jack Collins, Bureau of Reclamation, 1243 N Street, Fresno, CA 93721.

Copies of the Final RMP/EIS will be available at: http://www.usbr.gov/mp/nepa/nepa_projdetails.cfm?Project_ID=546. See the **SUPPLEMENTARY INFORMATION** section for locations where copies of the Final EIS/EIR are available.

FOR FURTHER INFORMATION CONTACT: Mr. Jack Collins, Bureau of Reclamation, Monday through Friday, 7 a.m. to 1 p.m., at (559) 349-4544 (TDD (559) 487-5933) or jwcollins@usbr.gov.

SUPPLEMENTARY INFORMATION: The Millerton Lake Final EIS/EIR evaluates the existing resource management of Millerton Lake. *The project purpose consists of:* (1) Identifying the current and most appropriate future uses of land and water resources within the Plan Area; (2) identifying the long-term resource programs and implementation guidelines to manage and develop recreation, natural, and cultural resources; and (3) developing strategies and approaches to protect and preserve the natural, recreational, aesthetic, and cultural resources.

Millerton Lake is an existing reservoir formed by Friant Dam, and located in Fresno and Madera Counties, CA. The Dam, which regulates the normal flow of the San Joaquin River and stores floodwaters for irrigation diversion into the Friant-Kern and Madera Canals, was completed in 1947. Millerton Lake has a storage capacity of 520,500 acre-feet and a surface area of 4,900 acres. Through agreements with Reclamation and the California Department of Fish and Game, the CDPR manages the entire Plan Area.

The most recent General Plan for the Plan Area was completed by CDPR in 1983, and projected recreation trends and deficiencies through 1990. Since the adoption of this plan, several changes to the physical and regulatory environment have resulted in the need for an updated plan. The new joint RMP/GP will have a planning horizon through the year 2035.

The new plan will: (1) Enhance natural resources and recreational opportunities without interrupting

reservoir operations; (2) provide recreational opportunities to meet the demands of a growing population with diverse interests; (3) ensure diversity of recreational opportunities and quality of the recreational experience; (4) protect natural, cultural, and recreational sources while providing resource education opportunities and stewardship; and (5) provide updated management for establishing a new management agreement with the State of California.

The Final EIS/EIR contains a program-level analysis of the potential impacts associated with adoption of the RMP/GP. The Final EIS/EIR outlines the formulation and evaluation of alternatives designed to address issues through a representation of the varied interests in the Plan Area and identifies Alternative 2 (Enhancement) as the preferred Alternative. The RMP/GP is intended to be predominately self-mitigating through implementation of management actions and strategies, but also includes mitigation measures to reduce potential adverse effects.

The Final EIS/EIR has been developed within the authorities provided by Congress through the Reclamation Recreation Management Act of 1992 (Pub. L. 102-575, Title 28, 16 U.S.C. 460l-31) and other applicable agency and the U.S. Department of the Interior policies.

Copies of the Final EIS/EIR are available at the following locations:
