

that domestic track nuts are “reasonably available” and the waiver should still be granted.

CONCLUSION:

For the following reason, FRA is granting NNEPRA’s request. The FRA agrees with NNEPRA in that custom made fabricated track nuts that cannot be delivered for 10–16 weeks are not “reasonably available” under 49 U.S.C. 24405(a)(2)(B), especially given that NNEPRA has mobilized for construction, prompt project implementation is consistent with ARRA’s economic recovery goals, and Maine has a short construction season. In addition, NNEPRA used a competitive bidding process to procure the track nuts. Neither Chicago Track Nut and Bolt nor Dyson Corp. came forward at that time, but instead NNEPRA received bids only from suppliers offering foreign-made track nuts. This waiver is granted only because of the specific facts of this project; any future requests for a waiver regarding this product will not be granted without a specific showing that domestic track nuts for that particular project also are not reasonably available at that time. This decision does not become final until fifteen (15) days after its publication in the **Federal Register**.

Sincerely,
Karen Rae
Deputy Administrator

Note: The Deputy Administrator is making this decision because Administrator Joseph C. Szabo is recused from making it. Mr. Szabo is a former United Transportation Union (UTU) employee. The UTU commented in opposition to granting the waiver request.

Issued in Washington, DC, on November 23, 2010.

Mark E. Yachmetz,
Associate Administrator for Railroad Development, Federal Railroad Administration.

BILLING CODE 4910–06–P

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

State of Good Repair Bus and Bus Facilities Discretionary Program Funds

AGENCY: Federal Transit Administration (FTA), DOT.

ACTION: State of Good Repair Bus and Bus Facilities program announcement of project selections.

SUMMARY: The U.S. Department of Transportation’s (DOT) Federal Transit Administration (FTA) announces the selection of projects funded with Section 5309 Bus and Bus Facilities program funds in support of the State of Good Repair (SGR) Initiative, which was announced in the State of Good Repair Initiative Notice of Funding Availability on May 4, 2010. The SGR Initiative makes funds available to public transit providers to finance capital projects to replace, rehabilitate, and purchase buses and related equipment and to construct bus-related facilities, including programs of bus and bus-related projects for assistance to subrecipients that are public agencies, private companies engaged in public transportation, or private non-profit organizations. Additionally, the SGR Initiative makes funds available for Transit Asset Management systems, which is a systematic process of operating, maintaining, improving, and expanding physical assets effectively throughout their life cycles.

FOR FURTHER INFORMATION CONTACT: Successful and unsuccessful applicants should contact the appropriate FTA Regional office (Appendix) for specific information regarding applying for the funds or proposal specific questions. For general program information on the Bus and Bus Facilities program, contact Kimberly Sledge, Office of Program Management, at (202) 366–2053, *e-mail:* kimberly.sledge@dot.gov, or Henrika Buchanan-Smith, Office of Program

Management, at (202) 366–2053, *e-mail:* henrika.buchanan-smith@dot.gov.

SUPPLEMENTARY INFORMATION: A total of \$776,474,305 was available for FTA’s SGR Initiative. A total of 422 applicants requested \$4.06 billion, indicating significant demand for funds. Project proposals were evaluated based on the criteria detailed in the May 4, 2010 Notice of Funding Availability. The projects selected and shown in Table 1 will provide funds to help maintain the nation’s public transportation bus fleet, infrastructure, and equipment in a state of good repair.

Grantees selected for competitive discretionary funding under the SGR Initiative should work with their FTA regional office (Appendix) to finalize the application in FTA’s Transportation Electronic Award Management system, (TEAM) so that funds can be obligated expeditiously. Funds must be used for projects detailed in the proposal and for the purposes specified in the project descriptions in the table. A discretionary project identification number has been assigned to each project for tracking purposes and must be used in the TEAM application. Selected projects have pre-award authority as of October 4, 2010. Post-award reporting requirements include submission of the Federal Financial Report (FFR) and Milestone Report in TEAM as appropriate (*see* FTA.C.5010.1D).

The grantee must comply with all applicable Federal statutes, regulations, executive orders, FTA circulars, and other Federal administrative requirements in carrying out the project supported by the FTA grant. Funds allocated in this announcement must be obligated in a grant by September 30, 2013.

Issued in Washington, DC, November 23, 2010.

Peter Rogoff,
Administrator.

Maritime Administration

Reports, Forms and Recordkeeping Requirements; Agency Information Collection Activity Under OMB Review

AGENCY: Maritime Administration, DOT.

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, this notice announces that the Information Collection abstracted below will be submitted to the Office of Management and Budget (OMB) for review and approval. The nature of the information collection is described as well as its expected burden. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on August 26, 2010. No comments were received.

DATES: Comments must be submitted on or before December 30, 2010.

FOR FURTHER INFORMATION CONTACT: Joe Strassburg, Maritime Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590. Telephone: (202) 366-4156; or e-mail: joe.strassburg@dot.gov. Copies of this collection also can be obtained from that office.

SUPPLEMENTARY INFORMATION: Maritime Administration (MARAD)

Title of Collection: War Risk Insurance, Applications and Related Information.

OMB Control Number: 2133-0011.

Type of Request: Extension of currently approved information collection.

Affected Public: Vessel owners or charterers interested in participating in MARAD's war risk insurance program.

Form Numbers: MA-355; MA-528; MA-742; MA-828, and MA-942.

Abstract: As authorized by Section 1202, Title XII, Merchant Marine Act, 1936, as amended, the Secretary of the U.S. Department of Transportation may provide war risk insurance adequate for the needs of the waterborne commerce

of the United States if such insurance cannot be obtained on reasonable terms from qualified insurance companies operating in the United States. This collection is required for the program.

Expiration Date of Approval: Three years from date of approval by the Office of Management and Budget.

Annual Estimated Burden Hours: 256 hours.

ADDRESSES: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention: MARAD Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or
