identify the transportation mode and alignment for the proposed project with the appropriate level of detail for corridor-level decisions, or select the No Action Alternative. The Tier I EIS will also include a discussion of measures that could be implemented to avoid, minimize, or mitigate potential adverse impacts of the build alternatives. These measures would be developed to mitigate both short-term (construction phase) and long-term (operational) adverse impacts of the proposed build alternatives. The mitigation strategies that will be examined will be designed to specifically minimize any potential adverse effects on the local communities where new or expanded infrastructure is proposed or where the operational effects of increased freight movement are expected. Tier II will then further explore the selected alternative in greater detail to evaluate regional and localized environmental impacts and outline site-specific mitigation measures in project-level environmental documentation. The PANYNJ and FHWA intend to engage the community in devising mitigation measures for potential adverse impacts at both tiers of the EIS. The scope of the Tier I and Tier II analyses will be commensurate with the level of detail necessary for those documents. Input from the public and from reviewing agencies will be solicited during both tiers.

SAFETEA-LŬ: SAFETEA-LU provisions and NEPA regulations, in general, call for public involvement in the EIS process. Section 6002 of SAFETEA-LU requires that agencies: (1) Extend an invitation to other Federal and non-Federal agencies and Indian tribes that may have an interest in the proposed project to become 'participating agencies;" (2) provide an opportunity for involvement by participating agencies and the public in helping to define the purpose and need for the proposed project, as well as the range of alternatives for consideration in the impact statement; and (3) establish a plan for coordinating public and agency participation in and comments on the Scoping Document. Letters will be sent to any agency with a fiduciary, regulatory, or permitting authority over the program as an invitation to be part of the coordination process. Any interested Federal or non-Federal agency or Indian tribe that does not receive an invitation to become a participating agency can notify the contact persons listed above.

A Coordination Plan will be developed to facilitate and document the lead agencies' structured interaction with the public and other agencies, and to inform the public and other agencies of the manner in which the coordination will be accomplished. The Coordination Plan prepared for the Cross Harbor Freight Movement Program will include: The Plan Purpose and Identification of Lead Agencies; Program History; List of Participating and Coordinating Agencies; Roles and Responsibilities of the Lead, Participating, and Coordinating Agencies; Agency Contact Information; Coordination Points; and the Program Schedule.

Comments or questions regarding this Notice of Intent should be directed to the FHWA or PANYNJ contacts identified above.

FTA Supplemental Fiscal Year 2010 Apportionments, Allocations, and Corrections

AGENCY: Federal Transit Administration (FTA), DOT.

ACTION: Notice.

SUMMARY: The Hiring Incentives to Restore Employment Act, (Pub. L. 111-147), signed into the law by President Obama on March 18, 2010, authorized funds for all of the surface transportation programs of the U.S. Department of Transportation (DOT) for the remainder of the Fiscal Year (FY) ending September 30, 2010, and the first quarter of FY 2011. This Notice supplements the February 18, 2009 Federal Register notice to apportion the full amount of FY 2010 formula funds. In addition, this Notice revises the Job Access and Reverse Commute (JARC) and Alternatives Analysis program carryover tables, Small Transit Intensive Cities (STIC) performance data and Apportionments table, and Bus and Bus Facilities Extensions and Reprogramming table, and allocates the remaining FY 2010 funds made available to congressionally designated projects under the Alternative Analysis program.

FOR FURTHER INFORMATION CONTACT: For general information about this notice contact Henrika Buchanan-Smith, Office of Program Management, at (202) 366–2053. Please contact the appropriate FTA regional or metropolitan office for any specific requests for information or technical assistance. The appendix at the end of this notice includes contact information for FTA regional and metropolitan offices.

I. Overview

FTA's current authorization, the Safe. Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (SAFETEA–LU), expired September 30, 2009. Since that time, Congress has enacted the Hiring Incentives to Restore Employment Act, (Pub. L. 111-147), hereinafter "HIRE Act, 2010," which continues the authorization of the Federal transit programs of DOT through December 31, 2010. Additionally, Division A of the Transportation, Housing and Urban Development, and Related Agencies Appropriations Act 2010 (Pub. L. 111-68), which was signed into law by President Obama on December 16, 2009, appropriated funds for FTA funded programs for FY 2010. This Notice provides the remaining formula funds, the full year allocations of Alternative Analysis program funds, and corrections to the Alternatives Analysis and JARC program carryover tables, Bus and Bus Facilities Extensions and Reprogramming table, and STIC performance data and Apportionments table.

II. FTA Program Funding Based on the Appropriations Act, 2010 and Hire Act, 2010

FTA's resources are provided in both appropriations and authorization law. For FY 2010, the Transportation and Housing and Urban Development Appropriations Act (Pub. L. 111–117) and Hiring Incentives to Restore

Employment Act (HIRE) Act (Pub. L. 111-147) together included a total of \$10.7 billion. While the appropriations act provided full-year General Fund budget authority for certain FTA programs, the HIRE Act built on previously enacted partial-year extensions of SAFETEA-LU authorities, including the provision of contract authority from the Mass Transit Account of the Highway Trust Fund. Specifically, it provided contract authority for the Formula and Bus Programs for the remainder of FY 2010, as well as contract authority through December 31st of 2010 (the first quarter of FY 2011). Table 1 of this document shows the total amount of FY 2010 funding that is available for FTA's grant programs contract authority for the first quarter of FY 2011 will be apportioned after October 1, 2010. See the February 18, 2008 Federal Register notice for detailed information on FTA programs.

Note: The HIRE Act provided contract authority at levels equal to the FY 2009 authorized levels in SAFETEA–LU. However, the FY 2010 Appropriations Act contains an obligation limitation for the Formula and Bus programs that is slightly lower than the FY 2010 authorized contract authority. Funding levels made available under this Notice are based on the obligation limitation contained in FTA's FY 2010 appropriations act.

TABLE 4

FY 2010 SECTION 5307 APPORTIONMENT FORMULA

Distribution of Available Funds

Of the funds made available to the Section 5307 program, a one percent takedown is authorized for Small Transit Intensive Cities. This amount is apportioned to the Governors based on a separate formula that uses criteria related to specific service performance categories.

The remaining funds are apportioned to small, medium, and large sized urbanized areas (UZAs). 9.32% is made available for UZAs 50,000-199,999 in population, and 90.68% to UZAs 200,000 or more in population.

UZA Population and Weighting Factors

50,000-199,999 in population :	9.32% of available Section 5307 funds
(Apportioned to Governors)	50% apportioned based on population
	50% apportioned based on population x population density
200,000 and greater in population: (Apportioned to UZAs)	90.68% of available Section 5307 funds
(Apportoned to 02As)	33.29% (Fixed Guideway Tier*)
	95.61% (Non-incentive Portion of Tier)
	at least 0.75% to each UZA with commuter rail and pop. 750,000 or greater
	60% - fixed guideway revenue vehicle miles

Federal Transit Administration

FY 2010 Discretionary Funding Opportunity: Paul S. Sarbanes Transit in Parks Program

AGENCY: Federal Transit Administration (FTA), DOT.

ACTION: Notice of Availability: Solicitation of Project Proposals.

SUMMARY: The Federal Transit Administration (FTA) announces the availability of approximately \$24.5 million in discretionary Fiscal Year (FY) 2010 Paul S. Sarbanes Transit in Parks Program (Transit in Parks Program) funds. This notice solicits proposals to compete for FY 2010 funds under the program, which was established by Section 3021 of the Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy For Users (SAFETEA-LU), as amended (49 U.S.C. 5320). The program is administered by FTA in partnership with U.S. Department of Interior (DOI) and the U.S. Department of Agriculture's Forest Service.

The program funds capital and planning expenses for alternative transportation systems such as buses and trams in federally-managed parks and public lands. Federal land management agencies, as well as State, tribal and local governments acting with the consent of a Federal land management agency are eligible to apply. DOI, after consultation with and in cooperation with FTA, will determine the final selection and funding of projects. Geographic diversity will be considered when allocating funds. This announcement is available on the FTA Web site at: http://www.fta.dot.gov. FTA will announce final selections on the Web site and in the Federal Register. A synopsis of this funding opportunity will be posted in the FIND module of the government-wide electronic grants Web site at http://www.grants.gov. **DATES:** Complete proposals must be received by 12 midnight EST on June

28, 2010. **ADDRESSES:** Project proposals must be submitted electronically through the GRANTS.GOV Web site and applicants must be properly registered. Anyone intending to apply electronically through GRANTS.GOV should initiate the process of registering on the GRANTS.GOV site immediately to

ensure completion of registration before the deadline for submission. GRANTS.GOV applicants should receive two confirmation e-mails. The first will confirm that the application was received and a subsequent e-mail will be sent within 24-48 hours indicating whether the application was validated or rejected by the system. If interested parties experience difficulties at any point during the registration or application process, please call the **GRANTS.GOV** Customer Support Hotline at 1-800-518-4726, Monday-Friday from 7 a.m. to 9 p.m. EST. The required electronic project proposal template as well as guidance on completing a proposal template can also be found on GRANTS.GOV and on the program Web site at http:// www.fta.dot.gov/funding/grants/ grants financing 6106.html.

FOR FURTHER INFORMATION: Contact the appropriate FTA Regional Administrator (Appendix A) for proposal-specific information and issues or the appropriate land management agency (Appendix B) for the Paul S. Sarbanes Transit in Parks Program. For general program information, contact Kimberly Sledge, Paul S. Sarbanes Transit in Parks Program, (202) 366–2053, *Kimberly.Sledge@dot.gov.* A TDD is available at 1–800–877–8339 (TDD/FIRS).

I. Overview

Section 3021 of SAFETEA–LU, as amended, established the Paul S. Sarbanes Transit in Parks Program (Transit in Parks Program) (49 U.S.C. 5320). The program is administered by FTA in partnership with DOI and the U.S. Department of Agriculture's Forest Service.

Congestion in and around parks and public lands causes traffic delays, noise, and air pollution that substantially detract from the visitor's experience and the protection of natural resources. In August 2001, the U.S. Department of Transportation and DOI published a comprehensive study of alternative transportation needs in national parks and related Federal lands. The study identified significant alternative transportation needs at sites managed by the National Park Service, the Bureau of Land Management, and the U.S. Fish and Wildlife Service. Additionally, a supplement to this report identified Forest Service sites that would benefit from such services.

II. Program Purpose

The purpose of the program is to enhance the protection of national parks and Federal lands, and increase the enjoyment of visitors' experience by conserving natural, historical, and cultural resources; reducing congestion and pollution; improving visitor mobility and accessibility; enhancing the visitor experience; and ensuring access to all, including persons with disabilities.

III. Program Information

1. Eligible Applicants

Eligible applicants are Federal land management agencies that manage an eligible area, including but not limited to the National Park Service, the Fish and Wildlife Service, the Bureau of Land Management, the Forest Service, and the Bureau of Reclamation; and State, tribal and local governments with jurisdiction over land in the vicinity of an eligible area, acting with the consent of a Federal land management agency, alone or in partnership with a Federal land management agency or other governmental or non-governmental participant. Note: If the applicant is a State, tribal, or local government, a letter from the affected unit(s) of the Federal land management agency or agencies expressing support for the project should be submitted with the project proposal. Proposals with support letters from the unit of the Federal land management agency or agencies will be weighted more favorably by FTA, DOI, and the Forest Service in its evaluation.

2. Eligible Projects

SAFETEA-LU defines alternative transportation as "transportation by bus, rail, or any other publicly or privately owned conveyance that provides to the public general or special service on a regular basis, including sightseeing service. This also includes a nonmotorized transportation system (including the provision of facilities for pedestrians, bicycles, and nonmotorized watercraft)."

The program funds capital and planning expenses for alternative transportation systems such as buses and trams in federally-managed parks
