

(2) Compliance with paragraphs (a) through (c) of this section is not required for submission of a “Sequence Listing XML” that is solely an English translation of a previously submitted “Sequence Listing XML” that contains non-English values for any language-dependent free text elements (as per § 1.833(b)(3)). The required submission will be a translated “Sequence Listing XML” in compliance with §§ 1.831 through 1.834. Updated values for attributes in the root element (§ 1.833(b)(2)(iii)) or elements of the general information part (§ 1.833(b)(2)(iv)) are not considered amendments for purposes of complying with paragraphs (a) through (c) of this section.

(e) If any of the requirements of §§ 1.831 through 1.834 are not satisfied at the time of filing an international application under the PCT, where the application is to be searched by the United States International Searching Authority or examined by the United States International Preliminary Examining Authority, the applicant may be sent a notice necessitating compliance with the requirements within a prescribed time period. Under PCT Rule 13ter, the applicant can provide, in response to such a requirement or otherwise, a sequence listing that is a “Sequence Listing XML” in accordance with § 1.831(a). The “Sequence Listing XML” must be accompanied by a statement that the information recorded does not go beyond the disclosure in the international application as filed. In response to such a requirement, the late furnishing fee set forth in § 1.445(a)(5) is also required. If the applicant fails to timely provide the required “Sequence Listing XML,” the United States International Searching Authority shall search only to the extent that a meaningful search can be performed without the “Sequence Listing XML,” and the United States International Preliminary Examining Authority shall examine only to the extent that a meaningful examination can be performed without the “Sequence Listing XML.”

(f) Any appropriate amendments to the “Sequence Listing XML” in a patent (e.g., by reason of reissue, reexamination, or certificate of correction) must comply with the requirements of paragraph (b) of this section.

#### **§ 1.839 Incorporation by reference.**

(a) Certain material is incorporated by reference into this subpart with the approval of the Director of the Federal Register under 5 U.S.C. 552(a) and 1

CFR part 51. All approved incorporation by reference (IBR) material is available for inspection at the USPTO and at the National Archives and Records Administration (NARA). Contact the USPTO’s Office of Patent Legal Administration at 571-272-7701. For information on the availability of this material at NARA, email [fr.inspection@nara.gov](mailto:fr.inspection@nara.gov) or go to [www.archives.gov/federal-register/cfr/ibr-locations.html](http://www.archives.gov/federal-register/cfr/ibr-locations.html). The material may be obtained from the source(s) in paragraph (b) of this section.

#### **Air Plan Approval; Indiana; Redesignation of the Indiana Portion of the Chicago-Naperville Area to Attainment of the 2008 Ozone Standard, NO<sub>x</sub> RACT Waiver, and Serious Plan Elements**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) finds that the Indiana portion of the Chicago-Naperville, IL–IN–WI area (Chicago area) is attaining the 2008 ozone National Ambient Air Quality Standard (NAAQS or standard). In addition, in response to a December 6, 2021, request from the Indiana Department of Environmental Management (Indiana or the State), EPA is redesignating the Indiana portion of the Chicago area to attainment for the 2008 ozone NAAQS, because the State has met the statutory requirements for redesignation under the Clean Air Act (CAA). EPA is approving, as a revision to the Indiana State Implementation Plan (SIP), the State’s plan for maintaining the 2008 ozone NAAQS through 2035 for the Indiana portion of the Chicago area. EPA is also approving a waiver, for the Indiana portion of the Chicago area, from the oxides of nitrogen (NO<sub>x</sub>) requirements of the CAA. EPA finds adequate and is approving Indiana’s 2030 and 2035 volatile organic compound (VOC) and NO<sub>x</sub> motor vehicle emission budgets (budgets) for the Indiana portion of the Chicago area. Finally, EPA is approving the VOC reasonably available control technology (RACT), clean-fuel vehicle programs (CFVP), enhanced monitoring of ozone and ozone precursors (EMP), and enhanced motor vehicle Inspection/Maintenance (I/M) SIP revisions. These SIP revisions satisfy the above requirements for a nonattainment area that is classified as a “Serious area” for the Indiana portion of the Chicago area under the 2008 ozone NAAQS. EPA proposed to approve this action on March 3, 2022, and received adverse comments from one commentator.

**DATES:** This final rule is effective on May 20, 2022.

**ADDRESSES:** EPA has established dockets for this action under Docket ID No. EPA–R05–OAR–2020–0743 (regarding the serious area elements), EPA–R05–
