

forests and require a diversity of food resources and the availability of size-specific cavities for nesting. The thick-billed parrot primarily feeds on seeds of several pine species, and to a lesser extent on acorns and terminal buds of pine trees (Snyder *et al.* 1999). As an obligate cavity nester, the thick-billed parrot needs cavities typically found in large-diameter pines and snags. Because of their specialized habitat needs, thick-billed parrot populations have experienced significant historical declines, corresponding to a drastic loss of high-elevation mixed-conifer forests, mainly from a legacy of logging. Only 1 percent of the old-growth forests is estimated to remain, supporting small populations of thick-billed parrots concentrated in a handful of sites.

Threats to the thick-billed parrot include loss of habitat, primarily driven by extensive logging of large mature pines, removal of nesting snags (Snyder *et al.* 1999), and, to a lesser degree, catastrophic forest fires (PACE 2009); low numbers of individuals and small remaining populations, leaving them vulnerable to stochastic events; removal of birds from the wild in Mexico for the illegal pet trade; and climate change, based on projections for the Southwestern United States and northern Mexico predicting warmer, drier, and more drought-like conditions (Hoerling and Eischeid 2007; Seager *et al.* 2007). Extirpation of the thick-billed parrot in the United States was likely caused by excessive, unregulated shooting (Snyder *et al.* 1999). The recovery plan addendum recommends protection of currently occupied habitat; additional research to understand relationships between habitat, migration patterns, and population dynamics; development of a standardized monitoring protocol; development of replacement nesting habitat; verification of occupied wintering habitat; development of forest management plans; and the enforcement of existing environmental and species collection laws. The plan recognizes the need to manage these forest landscapes in both the United States and Mexico to maximize resources for the species.

Recovery Plan Goals

The objective of an agency recovery plan is to provide a framework for the recovery of a species so that protection under the Act is no longer necessary. A recovery plan includes scientific information about the species and provides criteria and actions necessary for us to be able to reclassify the species to threatened status or remove it from the List. Recovery plans help guide our recovery efforts by describing actions

we consider necessary for the species' conservation, and by estimating time and costs for implementing needed recovery measures. To achieve its goals, this draft recovery plan addendum identifies the following objectives:

- Support the thick-billed parrot throughout its range in perpetuity.
- Maintain habitat conditions necessary to provide feeding, nesting, and wintering habitat for the thick-billed parrot through time.
- Assess the potential for the United States to support naturally dispersing or actively relocated thick-billed parrots, including a review of U.S. historical habitat, current habitat management, and habitat connectivity with Mexico.

The draft recovery plan addendum contains recovery criteria based on maintaining and increasing population numbers and habitat quality and quantity. The draft recovery plan addendum focuses on protecting populations, managing threats, maintaining habitat, monitoring progress, and building partnerships to facilitate recovery.

As the thick-billed parrot meets recovery criteria, we will review the subspecies' status and consider downlisting, and, ultimately, removal from the List.

Request for Public Comments

Section 4(f) of the Act requires us to provide public notice and an opportunity for public review and comment during recovery plan development. It is also our policy to request peer review of recovery plans (July 1, 1994; 59 FR 34270). In an appendix to the approved recovery plan, we will summarize and respond to the issues raised by the public and peer reviewers. Substantive comments may or may not result in changes to the recovery plan; comments regarding recovery plan implementation will be forwarded as appropriate to Federal or other entities so that they can be taken into account during the course of implementing recovery actions. Responses to individual commenters will not be provided, but we will provide a summary of how we addressed substantive comments in an appendix to the approved recovery plan.

We invite written comments on the draft recovery plan addendum. In particular, we are interested in additional information regarding the current threats to the species and the costs associated with implementing the recommended recovery actions. We provide an English translation of the PACE in Appendix B of the addendum; however, we will not address comments specific to the content of the PACE, as

this document was finalized by CONANP in 2009.

Before we approve our draft addendum, we will consider all comments we receive by the date specified in **DATES** above. Methods of submitting comments are in the **ADDRESSES** section above.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Comments and materials we receive will be available, by appointment, for public inspection during normal business hours at our office (see **ADDRESSES**).

A complete list of all references cited herein is available upon request from the U.S. Fish and Wildlife Service, Branch of Recovery (see **FOR FURTHER INFORMATION CONTACT** section).

Authority

We developed our draft recovery plan addendum under the authority of section 4(f) of the Act, 16 U.S.C. 1533(f). We publish this notice under section 4(f) Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*).

Dated: June 6, 2012.

Benjamin Tuggle,

Regional Director, Southwest Region.

Endangered Species; Receipt of Applications for Permit

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of applications for permit.

SUMMARY: We, the U.S. Fish and Wildlife Service, invite the public to comment on the following applications to conduct certain activities with endangered species. With some exceptions, the Endangered Species Act

(ESA) prohibits activities with listed species unless Federal authorization is acquired that allows such activities.

DATES: We must receive comments or requests for documents on or before July 19, 2012.

ADDRESSES: Brenda Tapia, Division of Management Authority, U.S. Fish and Wildlife Service, 4401 North Fairfax Drive, Room 212, Arlington, VA 22203; fax (703) 358-2280; or email DMAFR@fws.gov.

FOR FURTHER INFORMATION CONTACT: Brenda Tapia, (703) 358-2104 (telephone); (703) 358-2280 (fax); DMAFR@fws.gov (email).

SUPPLEMENTARY INFORMATION:

I. Public Comment Procedures

A. How do I request copies of applications or comment on submitted applications?

Send your request for copies of applications or comments and materials concerning any of the applications to the contact listed under **ADDRESSES**. Please include the **Federal Register** notice publication date, the PRT-number, and the name of the applicant in your request or submission. We will not consider requests or comments sent to an email or physical address not listed under **ADDRESSES**. If you provide an email address in your request for copies of applications, we will attempt to respond to your request electronically.

Please make your requests or comments as specific as possible. Please confine your comments to issues for which we seek comments in this notice, and explain the basis for your comments. Include sufficient information with your comments to allow us to authenticate any scientific or commercial data you include.

The comments and recommendations that will be most useful and likely to influence agency decisions are: (1) Those supported by quantitative information or studies; and (2) those that include citations to, and analyses of, the applicable laws and regulations. We will not consider or include in our administrative record comments we receive after the close of the comment period (see **DATES**) or comments delivered to an address other than those listed above (see **ADDRESSES**).

B. May I review comments submitted by others?

Comments, including names and street addresses of respondents, will be available for public review at the street address listed under **ADDRESSES**. The public may review documents and other

information applicants have sent in support of the application unless our allowing viewing would violate the Privacy Act or Freedom of Information Act. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

II. Background

To help us carry out our conservation responsibilities for affected species, and in consideration of section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), along with Executive Order 13576, “Delivering an Efficient, Effective, and Accountable Government,” and the President’s Memorandum for the Heads of Executive Departments and Agencies of January 21, 2009—Transparency and Open Government (74 FR 4685; January 26, 2009), which call on all Federal agencies to promote openness and transparency in Government by disclosing information to the public, we invite public comment on these permit applications before final action is taken.

III. Permit Applications

A. Endangered Species

Applicant: Southwest Fisheries Science Center, La Jolla, CA; PRT-844694

The applicant requests reissuance of the permit to import and/or introduce from the sea, biological samples collected from wild and captive-bred animals of Kemp’s ridley sea turtle (*Lepidochelys kempii*), hawksbill sea turtle (*Eretmochelys imbricata*), leatherback sea turtle (*Dermochelys coriacea*), green sea turtle (*Chelonia mydas*), loggerhead sea turtle (*Caretta caretta*), and olive ridley sea turtle (*Lepidochelys olivacea*) for the purpose of scientific research. Samples are collected from live or salvaged specimens. This notification covers activities conducted by the applicant over a period of 5 years.

Applicant: Bryce Carlson, West Lafayette, IN; PRT-00568A

The applicant requests a permit to import: hair and tissue samples collected noninvasively from gorilla (*Gorilla gorilla*), chimpanzee (*Pan troglodytes*), and red colobus (*procolobus rufomitratus tephrosceles*) from the wild for the purpose of

enhancement of the survival of the species for scientific research. This notification covers activities to be conducted by the applicants over a 5-year period.

Applicant: Loraine & John Shea, Covington, LA; PRT-050694

The applicants request renewal of their captive-bred wildlife registration under 50 CFR 17.21(g) for the golden parakeet (*Aratinga guarouba*), cuban parrot (*Amazona leucocephala*), vinaceous parrot (*Amazona vinacea*), and red-browed parrot (*Amazona rhodocorytha*) to enhance their propagation or survival. This notification covers activities to be conducted by the applicant over a 5-year period.

Applicant: Diamond G of Morgan City, LLC, Encinal, TX; PRT-75404A

The applicant requests a captive-bred wildlife registration under 50 CFR 17.21(g) for the scimitar-horned oryx (*Oryx dammah*) to enhance their propagation or survival. This notification covers activities to be conducted by the applicant over a 5-year period.

Applicant: Diamond G of Morgan City, LLC, Encinal, TX; PRT-75534A

The applicant requests a permit authorizing interstate and foreign commerce, export, and cull of excess scimitar-horned oryx (*Oryx dammah*) from the captive herd maintained at their facility, for the purpose of enhancement of the survival of the species. This notification covers activities to be conducted by the applicant over a 5-year period.

Applicant: Spirit Wild Productions, Ltd., China Springs, TX; PRT-76154A

The applicant requests a captive-bred wildlife registration under 50 CFR 17.21(g) for the scimitar-horned oryx (*Oryx dammah*) to enhance their propagation or survival. This notification covers activities to be conducted by the applicant over a 5-year period.

Applicant: Spirit Wild Productions, Ltd., China Springs, TX; PRT-76153A

The applicant requests a permit authorizing interstate and foreign commerce, export, and cull of excess scimitar-horned oryx (*Oryx dammah*) from the captive herd maintained at their facility, for the purpose of enhancement of the survival of the species. This notification covers activities to be conducted by the applicant over a 5-year period.

Applicant: Michael Cone, Alice, TX;
PRT-76246A

The applicant requests a captive-bred wildlife registration under 50 CFR 17.21(g) for the scimitar-horned oryx (*Oryx dammah*) to enhance their propagation or survival. This notification covers activities to be conducted by the applicant over a 5-year period.

Applicant: Michael Cone, Alice, TX;
PRT-76245A

The applicant requests a permit authorizing interstate and foreign commerce, export, and cull of excess scimitar-horned oryx (*Oryx dammah*) from the captive herd maintained at their facility, for the purpose of enhancement of the survival of the species. This notification covers activities to be conducted by the applicant over a 5-year period.

Multiple Applicants

The following applicants each request a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus pygargus*) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Applicant: Sabin Johnson, Hobe Sound, FL; PRT-71350A

Applicant: Nicholas Spiak, Greer, SC;
PRT-46676A

Applicant: Steven Presnal, Wind Lake, WI; PRT-74920A

Applicant: Joseph Sultan, Belmont, MA;
PRT-73620A

Applicant: Gary Young, Windfield, WV;
PRT-75765A

Applicant: Stephen Finney, Stockton, NJ; PRT-75918A

Applicant: Eric Anderson, Abingdon, MD; PRT-76196A

Applicant: Jayson Anderson, Corona, CA; PRT-76255A

Applicant: Joshua Anderson, Corona, CA; PRT-76254A

Brenda Tapia,

Program Analyst/Data Administrator, Branch of Permits, Division of Management Authority.

DEPARTMENT OF INTERIOR

Bureau of Land Management

[LLCO956000 L14200000.BJ0000]

Notice of Filing of Plats

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Filing of Plats; Colorado.

SUMMARY: The Bureau of Land Management (BLM) Colorado State Office is publishing this notice to inform the public of the intent to file the land survey plats listed below and afford all affected parties a proper period of time to protest this action prior to the plat filing.

DATES: Unless there are protests of this action, the filing of the plats described in this notice will happen on July 19, 2012.

ADDRESSES: BLM Colorado State Office, Cadastral Survey, 2850 Youngfield Street, Lakewood, Colorado 80215-7093.

FOR FURTHER INFORMATION CONTACT:

Randy Bloom, Chief Cadastral Surveyor for Colorado, (303) 239-3856.

SUPPLEMENTARY INFORMATION: The plat and field notes of the dependent resurvey and survey in Township 7 North, Range 92 West, Sixth Principal Meridian, Colorado, were accepted on May 24, 2012.

The plat incorporating the field notes of the remonumentation of certain corners in Township 15 South, Range 97 West, Sixth Principal Meridian, Colorado, was accepted on May 25, 2012.

The plat and field notes of the dependent resurvey and subdivision of sections 4 and 5 in Township 47 North, Range 1 East, New Mexico Principal Meridian, Colorado, were accepted on June 4, 2012.

The plat and field notes of the dependent resurvey and survey in Township 48 North, Range 1 East, New Mexico Principal Meridian, Colorado, were accepted on June 4, 2012.

Randy Bloom,

Chief Cadastral Surveyor for Colorado.

BILLING CODE 4310-JB-P

DEPARTMENT OF THE INTERIOR

National Park Service

[NPS-SER-FOMA-08530;5017-7143-409]

DRAFT General Management Plan and Draft Environmental Impact Statement, Fort Matanzas National Monument, Florida

AGENCY: National Park Service, Interior.

ACTION: Notice of Availability of the Draft General Management Plan and Environmental Impact Statement.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, 42

U.S.C. 4332(2)(C), the National Park Service (NPS) announces the availability of a draft Environmental Impact Statement (EIS) for the General Management Plan (GMP) for Fort Matanzas National Monument (Monument), Florida.

Consistent with NPS laws, regulations, and policies and the purpose of the Monument, the draft EIS/GMP describes the NPS preferred alternative—Alternative B—to guide the management of the Monument over the next 15 to 20 years. The preferred alternative incorporates various management prescriptions to ensure protection, access and enjoyment of the Monument's resources.

An up-to-date GMP is needed to address how visitors access and use the Monument and the facilities needed to support those uses, how resources are managed, and how the NPS manages its operations. Recent studies have enhanced the NPS's understanding of resources, resource threats, and visitor use in the Monument.

DATES: The NPS will accept comments from the public on the draft EIS/GMP for at least 60 days, starting from the date the Environmental Protection Agency publishes this Notice of Availability. The date, time, and location of the public meetings on the draft EIS/GMP will be announced through the NPS Planning, Environment, and Public Comment (PEPC) Web site: <http://parkplanning.nps.gov/FOMA> and media outlets.

ADDRESSES: Electronic copies of the draft EIS/GMP will be available online at <http://parkplanning.nps.gov/FOMA>. To request a copy, contact Fort Matanzas National Monument Superintendent Gordie Wilson, One South Castillo Drive, St. Augustine, FL, 32804. Comments may be submitted by several methods. The preferred method is commenting via the internet on the PEPC Web site above. An electronic public comment form is provided on this Web site. You may also mail comments to Superintendent, Fort Matanzas National Monument, One South Castillo Drive, St. Augustine, FL, 32804. Finally, you may hand-deliver comments to the monument. Before including your address, phone number, email address, or other personal identifying information in your comment, please be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to
