SUPPLEMENTARY INFORMATION:

Background: The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDDAA), codified at 42 U.S.C. 4365, to provide independent scientific and

technical advice to the EPA Administrator on the scientific and technical basis for agency positions and regulations. The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C. 10. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies. Pursuant to FACA and EPA policy, notice is hereby given that the Science Advisory Board Radionuclide Cancer Risk Coefficients Review Panel will hold two public meetings to review and discuss charge questions, listen to agency presentations, listen to public comments and peer review the EPA's draft Cancer Risk Coefficients for Environmental Exposure to Radionuclides (Federal Guidance Report No. 16).

Availability of meeting materials: All meeting materials, including the agenda, will be available on the SAB web page at <https://sab.epa.gov>.

Procedures for providing public input: Public comment for consideration by EPA's Federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a Federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to the EPA. Members of the public can submit relevant comments pertaining to the committee's charge or meeting materials. Input from the public to the SAB will have the most impact if it provides specific scientific or technical information or analysis for the SAB to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comments should follow the instruction below to submit comments.

Oral statements: In general, individuals or groups requesting an oral presentation at a meeting conducted virtually will be limited to three minutes, and individuals or groups requesting an oral presentation at an in-person meeting will be limited to five minutes. Each person making an oral statement should consider providing written comments as well as their oral statement so that the points presented orally can be expanded upon in writing. Persons interested in providing oral statements should contact the DFO, in writing (preferably via email) at the contact information noted under **FOR FURTHER INFORMATION CONTACT**, by April 18, 2024, for the April 25, 2024 meeting and by May 22, 2024, for the May 29–

31, 2024 meeting, to be placed on the list of registered speakers.

Written statements: Written statements will be accepted throughout the advisory process; however, for timely consideration by SAB members, statements should be submitted to the DFO by April 18, 2024, for consideration at the April 25, 2024 meeting and May 22, 2024, for consideration at the May 29–31, 2024 meeting. Written statements should be supplied to the DFO at the contact information above via email. Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its websites. Members of the public should be aware that their personal contact information if included in any written comments, may be posted to the SAB website. Copyrighted material will not be posted without the explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities, please contact the DFO, at the contact information noted above, preferably at least ten days before the meetings, to give the EPA as much time as possible to process your request.

V Khanna Johnston,

Deputy Director, Science Advisory Board Staff Office.

Michael S. Regan*, No. 1:23-cv-00424-RCL (D.D.C.). On February 15, 2023, Plaintiff Sierra Club filed a complaint in the United States District Court for the District of Columbia alleging that EPA's failure to issue final Federal plans implementing emissions guidelines for commercial and industrial solid waste incinerators ("CISWI"), and other solid waste incinerators ("OSWI") in states

which had not submitted approvable state plans constituted agency action unreasonably delayed.

DATES: Written comments on the proposed consent decree must be received by May 6, 2024.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OGC-2024-0166, online at <https://www.regulations.gov> (EPA's preferred method). Follow the online instructions for submitting comments.

II. Additional Information About the Proposed Consent Decree

Plaintiffs filed a complaint in the United States District Court for the District of Columbia alleging that the EPA's failure to issue final Federal plans implementing emissions guidelines for CISWI and OSWI facilities in states which had not submitted approvable state plans constituted "agency action unreasonably delayed" within the meaning of section 304(a)(2) of the Clean Air Act, 42 U.S.C. 7604(a).

EPA promulgated revised CISWI emission guidelines for existing facilities at 40 CFR subpart DDDD in 2011 and further revised them in February 2013, June 2016, and April 2019. EPA proposed a Federal plan for existing CISWI facilities in 2017, and to date, EPA has not promulgated a final Federal plan implementing CISWI standards under 42 U.S.C. 7429(b)(3).

EPA promulgated emission guidelines for existing OSWI facilities in December 2005 at 40 CFR subpart FFFF. To date, EPA has not finalized a Federal plan implementing standards for existing OSWI facilities under 42 U.S.C. 7429(b)(3).

Under the terms of the consent decree, with respect to the CISWI emission guidelines at 40 CFR subpart DDDD, no later than September 16, 2024, the appropriate EPA official would be required to sign a final rule establishing a Federal plan under 42 U.S.C. 7429(b)(3) for existing CISWI facilities located in any state which has not submitted an approvable state plan.

Under the terms of the consent decree, with respect to the OSWI emission guidelines at 40 CFR subpart FFFF, (1) no later than June 30, 2026, the appropriate EPA official would be required to sign a proposed rulemaking proposing a Federal plan under 42 U.S.C. 7429(b)(3) for existing OSWI facilities located in any state which has not submitted an approvable state plan; and (2) no later than June 30, 2027, the appropriate EPA official would be required to sign a final rule establishing a Federal plan under 42 U.S.C. 7429(b)(3) for existing OSWI facilities located in any state which has not submitted an approvable state plan.

In accordance with section 113(g) of the CAA, for a period of thirty (30) days following the date of publication of this notice, the Agency will accept written comments relating to the proposed consent decree. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper,

inadequate, or inconsistent with the requirements of the Act.

III. Additional Information About Commenting on the Proposed Consent Decree

Submit your comments, identified by Docket ID No. EPA-HQ-OGC-2024-0166, via <https://www.regulations.gov>. Once submitted, comments cannot be edited or removed from this docket. The EPA may publish any comment received to its public docket. Do not submit to EPA's docket at <https://www.regulations.gov> any information

you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>. For additional information about submitting information identified as CBI, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this document. Note that written comments containing CBI and submitted by mail may be delayed and deliveries or couriers will be received by scheduled appointment only.

If you submit an electronic comment, EPA recommends that you include your name, mailing address, and an email address or other contact information in the body of your comment. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the <https://www.regulations.gov> website to submit comments to EPA electronically is

EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous access" system, which means EPA will not know your identity, email address, or other contact information unless you provide it in the body of your comment.

Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

Associate General Counsel.
