[Project No. 2558–000]

#### Central Vermont Public Service Corporation; Notice of Authorization for Continued Project Operation

On August 1, 2011, the Central Vermont Public Service Corporation,

licensee for the Otter Creek Hydroelectric Project, filed an Application for a New License pursuant to the Federal Power Act (FPA) and the Commission's regulations thereunder. The Otter Creek Hydroelectric Project is located on Otter Creek in Addison and Rutland counties, Vermont.

The license for Project No. 2558 was issued for a period ending March 31, 2012. Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year-to-year an annual license to the then licensee under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in section 15 or any other applicable section of the FPA. If the project's prior license waived the applicability of section 15 of the FPA, then, based on section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to section 15 of the FPA, notice is hereby given that an annual license for Project No. 2558 is issued to the Central Vermont Public Service Corporation for a period effective April 1, 2012 through March 31, 2013, or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before March 31, 2013, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise. If the project is not subject to section 15 of the FPA, notice is hereby given that the Central Vermont Public Service Corporation is authorized to continue operation of the Otter Creek Hydroelectric Project, until such time as the Commission acts on its application for a subsequent license.

### Western Area Power Administration

#### Interconnection of the Grande Prairie Wind Farm, Holt County, NE

**AGENCY:** Western Area Power Administration, Department of Energy.

**ACTION:** Notice of intent to prepare an environmental impact statement and conduct scoping meetings; Notice of potential floodplain and wetlands involvement.

**SUMMARY:** The Western Area Power Administration (Western), an agency of the Department of Energy (DOE), intends to prepare an environmental impact statement (EIS) on the proposed interconnection of the Grande Prairie Wind Farm (Project) in Holt County, near the city of O'Neill, Nebraska. Grande Prairie Wind, LLC (Grande Prairie Wind), a majority-owned subsidiary of Midwest Wind Energy, LLC, has applied to Western to interconnect their proposed wind energy generation project to Western's power transmission system. Western's Federal action would be to execute an interconnection agreement with Grande Prairie Wind and make any necessary

modifications to the transmission system to accommodate the interconnection at Grande Prairie Wind's expense. Western is issuing this notice to inform the public and interested parties about Western's intent to prepare an EIS, conduct a public scoping process, and invite the public to comment on the scope, proposed action, alternatives, and other issues to be addressed in the EIS.

Construction activities proposed by Grande Prairie Wind may affect floodplains and wetlands, so this Notice of Intent (NOI) also serves as a notice of proposed floodplain or wetland action in accordance with DOE floodplain and wetland environmental review requirements.

**DATES:** The public scoping period begins with the publication of this notice and closes on May 16, 2012. To provide the public an opportunity to review the proposal and project information, Western will hold one public meeting in O'Neill, Nebraska. Western will announce the date and location of the public scoping meeting through local news media, and posting on the Western Web site at <http://www.wapa.gov/ugp/Environment/default.htm> at least 15 days prior to the meeting. While comments will be accepted at any time during the EIS process, submission of comments by the end of the scoping comment period will ensure full consideration in the Draft EIS.

**ADDRESSES:** Written comments on the scope of the EIS should be addressed to Mr. Matt Marsh, Western Area Power Administration, P.O. Box 35800, 2900 4th Avenue, North, Billings, MT 59107, fax (406) 255-2900 or email at [grandeprairie@wapa.gov](mailto:grandeprairie@wapa.gov).
