An invitation to consult was extended to the Ak-Chin Indian Community (*previously* listed as Ak Chin Indian Community of the Maricopa (Ak Chin) Indian Reservation, Arizona); Hopi Tribe of Arizona; Tohono O'odham Nation of Arizona; and the Zuni Tribe of the Zuni Reservation, New Mexico.

History and Description of the Remains

On an unknown date, human remains representing, at minimum, five individuals were removed from an unknown geographic location. During the 1920s, the human remains (Mandible 1; Mandible 2; Mandible 5; Mandible 7) were acquired by Vassar College's Natural History and Social

Museums. After the museums dissolved in the 1960s, the human remains were acquired by the Anthropology and Biology departments. Human remains located in the Biology and Anthropology Department teaching collections were examined for visual and statistical markers of Native American affinities, with results reported on December 21, 2020. The results from the assessments identified these individuals with "Hohokam" affinity. No known individuals were identified. No associated funerary objects are present.
