SUPPLEMENTARY INFORMATION:

Title, Associated Form, and OMB Number: Defense Federal Acquisition Regulation Supplement (DFARS) Part 211, Describing Agency Needs, and the associated clauses at DFARS 252.211-7004, Alternate Preservation, Packaging, and Packing; and 252.211-7005, Substitutions for Military or Federal Specifications and Standards; OMB Control Number 0704-0398. Information collection requirements and approvals for the clause at DFARS 252.211-7006, Radio Frequency Identification, are addressed separately under Control Number 0704-0434. Information collection requirements and approvals for the clause at DFARS 252.211-7007, Reporting of Government-Furnished Equipment in the DoD Item Unique Identification (IUID) Registry, are addressed separately under Control Number 0704-0246.

Needs and Uses: This information collection permits offerors to—

- Propose alternatives to military preservation, packaging, or packing specifications. DoD uses the information to evaluate and award contracts using commercial or industrial preservation, packaging, or packing if the offeror chooses to propose such alternates.
- Propose Single Process Initiative (SPI) processes as alternatives to military or Federal specifications and standards cited in DoD solicitations for previously developed items. DoD uses the information to verify Government acceptance of an SPI process as a valid replacement for a military or Federal specification or standard.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Annual Burden Hours: 2,326.

Number of Respondents: 675.

Responses per Respondent: approximately 2.6.

Annual Responses: 1,763.

Average Burden per Response: approximately 1 1/3 hours.
Frequency: On occasion.

Summary of Information Collection

DFARS Part 211 and the clauses at DFARS 252.211-7004 and 252.211-7005 are required for DoD contractors and subcontractors to propose—

(a) Alternatives to military preservation, packaging, or packing specifications; and/or

(b) Single Process Initiative (SPI) processes in lieu of military or Federal specifications.

The provision at DFARS 252.211-7004, Alternate Preservation, Packaging, and Packing, is used in solicitations that include military preservation, packaging, or packing specifications when it may be feasible for DoD to evaluate and award using commercial or industrial preservation, packaging, or packing. If the offeror chooses to propose alternate preservation, packaging, or packing, the provision requires the offeror to submit information sufficient to allow evaluation of the proposed commercial or industrial preservation, packaging, or packing.

The clause at DFARS 252.211-7005, Substitutions for Military or Federal Specifications and Standards, is used in solicitations and contracts for previously developed items. The clause encourages offerors to propose management or manufacturing processes, if previously accepted by DoD under the Single Process Initiative (SPI) program, as alternatives to military or Federal specifications and standards cited in the solicitation.

Department of the Army; Corps of Engineers

Notice of Intent To Prepare a Draft Environmental Impact Statement on Beach and Dune Restoration in St. Lucie County, FL

AGENCY: U.S. Army Corps of Engineers, Jacksonville District, DoD.

ACTION: Notice of Intent (NOI).

SUMMARY: The U.S. Army Corps of Engineers (Corps), Jacksonville District, has received a permit application for a Department of the Army permit under Section 10 of the Rivers and Harbors Act and Section 404 of the Clean Water Act from the St. Lucie County Erosion Control District (County) to construct a beach nourishment and dune restoration project along St. Lucie County. As part of the permit process, the Corps is evaluating the environmental effects associated with beach nourishment and dune restoration.

The primary Federal involvement associated with the Proposed Action is the dredging and discharge of fill within navigable waters of the United States. Because of the extensive hardbottom resources immediately adjacent to the beach, the high recreational uses of the project area, and the potential environmental impacts of the proposed project, the Corps will prepare an Environmental Impact Statement (EIS) in compliance with the National Environmental Policy Act (NEPA) to render a final decision on the County's permit application. The Corps' decision will be to either issue or deny a Department of the Army permit for the Proposed Action. The Draft EIS (DEIS) is intended to be sufficient in scope to address Federal, State, and local requirements and environmental issues
