**SUPPLEMENTARY INFORMATION:** The above supplementary rules are being implemented for the following purposes:

The above defined lands contain valuable watershed resources, groves of Sequioa Trees, and regionally significant recreational resources. Improved public access through acquired easements has increased visitation. low impact recreational activities. The concerns of local residents and property owners are also addressed by these supplementary rules.

This order is in no way intended to affect the rights or existing privileges of private land owners or their interests within the defined public land. Existing public easements, county roads, state highways, private lanes or driveways, and private real estate is exempt from these supplementary rules. Further, this order does not infer any Bureau of Land Management jurisdiction over private or state owned lands. These supplementary rules will be in effect until replaced by a more comprehensive recreational management plan for the areas. These supplementary rules are in compliance with the Caliente Resource Management Plan of May 1997.

Federal, State, and local law enforcement officers and California peace officers, as defined in Chapter 4.5 of the California Penal Code, are exempt from these supplementary rules in the course of their official duties. Limitations upon the use of motorized vehicles do not apply to emergency vehicles, fire suppression and rescue vehicles, law enforcement vehicles, and other vehicles performing official duties, or as approved by an authorized officer of the BLM.
