SUPPLEMENTARY INFORMATION: The Defense Manufacturing Community Support Program, authorized under Section 846 of the Fiscal Year 2019 National Defense Authorization Act (Pub. L. 115–232), is designed to undertake long-term investments in critical skills, facilities, research and development, and small business support in order to strengthen the national security innovation and manufacturing base. The program also seeks to ensure complementarity of those communities so designated with existing Defense Manufacturing Institutes. Defense Manufacturing Institutes are manufacturing ecosystems established since 2014, with common manufacturing and design challenges revolving around specific technologies. This information collection supports the awarding of grants under the Defense Manufacturing Community Support Program, including the initial Grant Proposal, final Grant Application, and Post-Award Performance Reporting.

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DoD–2021–OS–0040]

Submission for OMB Review; Comment Request

AGENCY: Office of the Under Secretary of Defense for Acquisition and Sustainment, Department of Defense (DoD).

ACTION: Information collection notice.

SUMMARY: Consistent with the Paperwork Reduction Act of 1995 and its implementing regulations, this document provides notice DoD is submitting an Information Collection Request to the Office of Management and Budget (OMB) to collect information necessary for the Office of Local Defense Community Cooperation to make and maintain grants to qualified applicants under the Defense Community Infrastructure Program. DoD requests emergency processing and OMB authorization to collect the information after publication of this notice for a period of six months.

DATES: Comments must be received by June 11, 2021.

ADDRESSES: The Department has requested emergency processing from OMB for this information collection request by 15 days after publication of this notice. Interested parties can access the supporting materials and collection instrument as well as submit comments and recommendations to OMB at www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 15-day Review—Open for Public Comments” or by using the search

function. Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

SUPPLEMENTARY INFORMATION: Section 2391(d) of Title 10, United States Code (10 U.S.C. 2391), authorizes the Secretary of Defense to, “make grants, conclude cooperative agreements, and supplement funds available under Federal programs administered by agencies other than the Department of Defense, for projects owned by a State or local government, or a not-for-profit, member-owned utility service to address deficiencies in community infrastructure supportive of a military installation.” This information collection supports the awarding of grants under the Defense Community Infrastructure Program. The criteria established for the selection of community infrastructure projects will likely reflect projects consisting of some combination of attributes that will enhance: (i) Military value; (ii) military installation resilience; and/or, (iii) military family quality of life at a military installation. The Consolidated Appropriations Act for Fiscal Year 2021 (PL 116–260) provides \$60 million to the Office of Local Defense Community Cooperation for this program, and these funds expire if they are not obligated prior to September 30, 2021.

SUPPLEMENTARY INFORMATION:

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The NASNTI Program provides grants to eligible institutions of higher education (IHEs) to enable them to improve and expand their capacity to serve Native Americans and low-income individuals. Institutions may use the grants to plan, develop, undertake, and carry out activities to improve and expand their capacity to serve Native American and low-income students.

Background: Colleges and universities that are eligible to participate in the NASNTI Program have a critical role in serving Native American students and eradicating systemic and institutional barriers that limit progress in improving educational outcomes for Native American students. To identify and address those barriers, applicants should consider data on existing gaps in retention and graduation rates. In developing their proposed projects, we strongly encourage applicants to propose high-impact services informed by data and to set specific targets and measures for each year of the project for how the proposed services will address those gaps and improve results for Native American students.

Priorities: This notice contains one competitive preference priority and one invitational priority. The competitive preference priority is from the Notice of Administrative Priority and Definitions for Discretionary Grant Programs, published in the **Federal Register** on December 30, 2020 (85 FR 86545) (Remote Learning NFP).

Competitive Preference Priority: For FY 2021 and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is a competitive preference priority. Under 34 CFR 75.105(c)(2)(i), we award up to an additional 5 points to an application, depending on how well the application meets this priority.

This priority is:

Building Capacity for Remote Learning (up to 5 points).

Background: Reports on students with disabilities reveal that the transition to remote learning presents new obstacles to educational accessibility.¹ In rural

reservation communities during the novel coronavirus (COVID-19) pandemic, special education services for students with disabilities were significantly disrupted due, in part, to lack of access to high-speed internet and technology.² Achieving educational equity for students with disabilities has long been a goal, but the pandemic has highlighted how advances toward equity are often lost during crises.³

Additionally, recent data indicates that homelessness affects 18 percent of students at two-year institutions and 14 percent of students enrolled at four-year institutions. In a survey of 167,000 college students, 27 percent of American Indians or Alaska Native students that responded were homeless. Housing insecurity and homelessness have a particularly strong, statistically significant negative association with college completion rates, persistence, and credit attainment.⁴

Through this priority, the Department invites applicants to submit proposals to provide high-quality remote learning to students with disabilities and students experiencing homelessness.

Priority:

Under this priority, an applicant must propose a project that is designed to provide high-quality remote learning specifically for one or more of the following student subgroups:

- (a) Children or students with disabilities; or
- (b) Homeless students.

The remote learning environment must be accessible to individuals with disabilities in accordance with Section 504 of the Rehabilitation Act of 1973 and Title II of the Americans with Disabilities Act, as applicable. The remote learning environment must also provide appropriate remote learning language assistance services to English learners.

Invitational Priority: For FY 2021 and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is an invitational priority. Under 34 CFR 75.105(c)(1), we do not give an application that meets this
