I. Funding Opportunity Description

During the past several years, the Department of Health and Human Services has increased efforts to fight Medicare and Medicaid fraud. The Administration on Aging (AoA), through the SMP program, has worked in partnership with the Centers for Medicare and Medicaid Services (CMS), the Office of Inspector General (OIG), and the Department of Justice to expand strategies to eliminate waste, fraud, and abuse in these Federal programs. This additional funding opportunity will be used to expand the reach of the SMP program with the explicit purpose of expanding efforts to target collaborative efforts with CMS, OIG and other law enforcement entities in high fraud states and to expand current capacity to recruit, train, and support the SMP volunteer network.

Justification for the Exception to Competition

It is necessary to limit competition for this program to the current SMP grantees to expand their implementation efforts. In order for the outcomes expected to be produced within the allotted timeframe of the program, the infrastructure for achieving these results must already be in place. This infrastructure includes:

- A proven SMP volunteer management, training, and recruiting program;
- Expertise in capturing data in the SMP management, tracking, and reporting system (SMART FACTS);
- Established partnership relationships between the SMP program and state and local fraud control partners, including CMS, OIG, Attorney General, and State Insurance Commissioners offices;
- Developed and tested SMP program public awareness materials, brochures, PSAs, and other resources to use in outreach and educational efforts;
- Expertise and experience in reaching targeted populations with the SMP message, among others.

The current SMP projects are uniquely qualified to address the requirements contained in this funding opportunity. Their established infrastructure and expertise will enable them to successfully meet the challenging and time-sensitive requirements of this program. It is essential that the infrastructure, foundation of expertise, and proven experience is in place to assure the grant objectives are achieved.
