SUPPLEMENTARY INFORMATION:**Background**

The Ernest F. Hollings Scholarship Program was established through the Consolidated Appropriations Act, 2005 (Pub. L. 108-447). The purposes of the program include: (1) To increase undergraduate training in oceanic and atmospheric science, research, technology, and education and to foster multidisciplinary training opportunities; (2) to increase public understanding and support for stewardship of the ocean and atmosphere and to improve

environmental literacy; (3) to recruit and prepare students for public service careers with the National Oceanic and Atmospheric Administration and other natural resource and science agencies at the Federal, state, local and tribal levels of government; and, (4) to recruit and prepare students for careers as teachers and educators in oceanic and atmospheric science and to improve scientific and environmental education in the United States.

The Hollings Scholarship Program will provide successful undergraduate applicants with awards that include academic assistance (up to a maximum of \$8,000 per year) for full-time study during the 9-month academic year; a 10-week, full-time internship position (\$650/week) during the summer at a NOAA facility; and, if reappointed, academic assistance (up to a maximum of \$8,000) for full-time study during a second 9-month academic year. The internship between the first and second years of the award provides the scholars with "hands-on" practical educational training experience in NOAA-related scientific, research, technology, policy, management, and education activities. Awards will also include travel expenses to attend a mandatory Hollings Scholarship Program orientation, approved conferences where students present a paper or poster, and a housing subsidy for scholars who do not reside at home during the summer internship.

Authority

The Ernest F. Hollings Undergraduate Scholarship Program is established by the Administrator of the National Oceanic and Atmospheric Administration under authority of the Consolidated Appropriations Act, 2005 (Pub. L. 108-447).

Funding Availability

Approximately \$3.5 million will be available for the award of a maximum of 100 two-year scholarships, dependent on the availability of appropriations. There is no guarantee that funds will be available to provide scholarships for all qualified students.

The Program Officer will conduct a review of the rank order and make recommendations to the Selecting Official based on the panel ratings and the selection factors listed below. The Selecting Official, the Director of Education, NOAA, will consider merit reviews and recommendations and award in rank order unless the application is justified to be selected out of rank order based on one or more of the following selection factors:
