

standards by reference”. Thus, for rules 401, 402, and 404, EGLE revised the location of material adopted by reference to be addressed in R336.1902.

The existing rule 401a currently includes a definition for the term “used oil” that was approved by EPA in 2015. (80 FR 21183, April 17, 2015). However, Michigan EGLE later revised Michigan’s Air Pollution Control Rule in Chapter 336, Part 1, “Definitions” to more appropriately include the definition of used oil in the general air provisions rule at R336.1121(c) to reference “used oil” for all the air rules. (84 FR 8809, April 11, 2019). Michigan EGLE eliminated the redundant “used oil” definition by removing the definition from Part 4.

Clean Air Act (CAA) Section 110(l) prohibits EPA from approving a SIP revision if it would interfere with any applicable requirement concerning attainment, reasonable further progress, or any other CAA requirement. EPA concurs with Michigan EGLE’s 110(l) analysis that the revisions to the Part 4 rules improve its clarity and do not interfere with any applicable requirement concerning attainment or any other applicable requirement of the CAA. Further, the revision will not increase any emissions to the atmosphere because they do not impact the applicability of any source or emission limits.

EPA finds the revision to Part 4 acceptable and thus, proposes approval into the Michigan SIP.

III. What action is EPA taking?

EPA is proposing to approve the revisions to Michigan’s Part 4 rule into the Michigan SIP, as submitted on August 17, 2022. The administrative changes to Part 4 will not increase any emissions to the atmosphere because they do not impact the applicability of any source or any emission limits.

IV. Incorporation by Reference

In this rule, EPA is proposing to include in a final EPA rule regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is proposing to incorporate by reference Michigan rules R336.1401a, R336.1401, R336.1402, and R336.1404, effective October 24, 2019, as discussed in Section I of this preamble. EPA has made, and will continue to make, these documents generally available through www.regulations.gov and at the EPA Region 5 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

V. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal

governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

Update of the Communications Uses Program, Cost Recovery Fee Schedules and Section 512 of FLPMA for Rights-of-Way: Reopening of Comment Period

AGENCY: Bureau of Land Management, Interior.

ACTION: Proposed rule; reopening of comment period.

SUMMARY: On November 7, 2022, the Bureau of Land Management (BLM) published in the **Federal Register** a proposed rule to enhance the communications uses program, update its cost recovery fee schedules, and add provisions governing the development and approval of operations, maintenance, and fire prevention plans and agreements for rights-of-way (ROW) for electric transmission and distribution facilities (powerlines). The BLM has determined that it is appropriate to reopen the docket until January 23, 2023, to allow for additional public comment.

DATES: The comment period for the proposed rule originally published on November 7, 2022, at 87 FR 67306, is reopened. Comments must be submitted on or before January 23, 2023. The BLM need not consider, or include in the administrative record for the final rule, comments that the BLM receives after the close of the comment period or comments delivered to an address other than those listed in the **ADDRESSES** section.

ADDRESSES:

Mail, Personal, or Messenger Delivery: U.S. Department of the Interior, Director

Public Comment Procedures

If you wish to comment on this proposed rule, you may submit your comments to the BLM, marked with the number RIN 1004-AE60, by mail, personal or messenger delivery, or through <https://www.regulations.gov> (see the **ADDRESSES** section). Please note that comments on this proposed rule’s information collection burdens should be submitted to the OMB as described in the **ADDRESSES** section.

Please make your comments on the proposed rule as specific as possible, confine them to issues pertinent to the proposed rule, and explain the reason for any changes you recommend. Where possible, your comments should reference the specific section or paragraph of the proposal that you are addressing. The comments and recommendations that will be most useful and likely to influence agency decisions are:

1. Those supported by quantitative information or studies; and
2. Those that include citations to, and analyses of, the applicable laws and regulations.

The BLM is not obligated to consider or include in the Administrative Record for the final rule comments that we receive after the close of the comment period (see **DATES**) or comments delivered to an address other than those listed above (see **ADDRESSES**).

Comments, including names and street addresses of respondents, will be available for public review at the address listed under “**ADDRESSES**: Mail,

personal, or messenger delivery” during regular business hours (7:45 a.m. to 4:15 p.m. EST), Monday through Friday, except holidays. Before including your address, telephone number, email address, or other personal identifying information in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold from public review your personal identifying information, we cannot guarantee that we will be able to do so.

Background

The proposed rule was published on November 7, 2022 (87 FR 67306), with a 60-day comment period closing on January 6, 2023. Since publication, the BLM has received a request for extension of the comment period on the proposed rule. The BLM has determined that it is appropriate to reopen the docket until January 23, 2023, to allow for additional public comment.
