Needs and Uses: A BTA authorization holder has a five-year build-out period, beginning on the date of the grant of the BTA authorization and terminating on the 5th year anniversary of the grant of the authorization, within which it may develop and expand MDS station operations within its service area. Section 21.930(c) requires the BTA holder to file with the Commission a demonstration that the holder has met construction requirements. This demonstration must be filed sixty days prior to the end of the five year build-out period. On June 14, 2001, the Commission's Mass Media Bureau adopted a Memorandum Opinion and Order in MM Docket No. 01-109 which extended the five year build out requirement set forth in Section 21.930 by two years. Thus, the first filings will not occur until FY 2003. The certification of completion of construction (FCC 304-A) required by Section 21.930(a)(3) has separate OMB approval under control number 3060-0664.) The data is used by FCC staff to determine if the BTA holder has met its construction requirements and to ensure that service is promptly delivered to the public. The Commission will issue a declaration that the holder has met the construction requirements.
