

steel pipelines that extend from El Paso, Texas to the U.S. boundary with Mexico.

Through corporate transactions, Chevron assigned the permit to Plains Pipeline L.P. (Plains). On July 1, 2013, Plains assigned its rights to the 1995 permit to NMPL LLC which was subsequently merged into Magellan.

Magellan affirms that the operation and maintenance of the permitted facilities authorized by the 1995 Permit will remain substantially the same, and it is not seeking authorization for new construction or a change in operations.

Under E.O. 13337 the Secretary of State is designated and empowered to receive all applications for Presidential Permits for the construction, connection, operation, or maintenance at the borders of the United States, of facilities for the exportation or importation of liquid petroleum, petroleum products, or other fuels (except natural gas) to or from a foreign country. The Department of State is circulating this application to concerned federal agencies for comment. The Department of State has the responsibility to determine whether issuance of a new or amended Presidential Permit in light of Magellan's acquisition of the pipeline facilities would be in the U.S. national interest.

DATES: Interested parties are invited to submit comments within 30 days of the publication date of this notice by email to MagellanPipelinePermit@state.govmailto: With regard to whether issuing a new Presidential Permit reflecting the corporate succession would be in the national interest.
