Alternative B proposes that local public use and access needs be addressed by creating formal partnerships between the Refuge and various local entities.

Alternative C would generally continue to follow management direction described in Alternative A as modified by subsequent program-specific plans. Alternative C would also identify any specific changes or updates in management direction as well as adopt the new goals and objectives for Refuge management. Alternative C proposes that the Refuge manager could open or close some public lands, which are intermingled with private lands, to use by commercial guides and transporters whose clients are big game hunting. Alternative C proposes that the Refuge independently maintain a facility of one or more buildings with capacity for office, meeting, and storage space in a community within the refuge. Alternative C proposes the same study of traditional access methods for subsistence purposes. Alternative C would address local public use and access needs slightly different from Alternative B by proposing to expand or improve some opportunities for public use and access on Refuge lands.

Public Meetings

We will involve the public through open houses, meetings, written comments, and personal interviews with community members. We will mail documents to our national and local Refuge mailing lists. Public meetings will be held in communities in the Refuge area, including Kotzebue, Noorvik, and Selawik. Dates, times, and locations of each meeting or open house will be announced in advance in local media.
