Representatives of the United States Government and the Government of Côte d'Ivoire plan to conclude the Amendment in the first quarter of 2022.

(Authority: 22 U.S.C. 7708(i)(2))

Dated: February 10, 2022.

Thomas G. Hohenthanner,

Acting VP/General Counsel and Corporate Secretary.

Summary of First Amendment to Millennium Challenge Compact With the Republic of Côte d'Ivoire

The Board of Directors of the Millennium Challenge Corporation ("MCC") has approved an amendment (the "Amendment") to the existing US\$524,740,000, five-year Millennium Challenge Compact between the United States of America, acting through MCC, and the Republic of Côte d'Ivoire (the "Compact").

Background

The Compact was signed on November 7, 2017 and entered into force on August 5, 2019. The Compact aims to contribute to economic growth and investment in Côte d'Ivoire through two projects supporting the Ivorian government's drive to diversify its economy through investments focused on education and transportation: (i) The Skills for Employability and Productivity Project; and (ii) the Abidjan Transport Project.

Scope of the Amendment

MCC proposes to extend the term of the Compact for an additional twelve months until August 5, 2025, and to provide additional funding of up to \$12,000,000. The term extension is necessary to mitigate implementation delays due to the COVID-19 pandemic and to complete Compact projects as originally contemplated. The proposed additional funding will be used to cover additional program administration and related oversight costs associated with extending the Compact's term.

Justification for the Amendment

The first case of COVID-19 in Côte d'Ivoire was confirmed on March 11, 2020. The Government declared a state of emergency on March 23, 2020, imposing curfews and major restrictions on the movement of people. The timing of the pandemic delayed the effective

operational start-up of Millennium Challenge Account-Côte d'Ivoire ("MCA-CI") by several months. The new team of recently hired key staff was forced to telework for over three months (March–June 2020), and installation of the servers for the MCA-CI's financial platform, SAP, was delayed until July 2020. The SAP system finally went live in January–March 2021, a cumulative delay of eight months.

COVID-19 has delayed trainings and made it impossible to have in-person exchanges with other MCAs. Procurements had to be delayed as companies and bidders temporarily closed and were subject to quarantines, and supply chain and other work disruptions. With regard to the Abidjan Transport Project, detailed design studies needed to prepare bidding packages for road construction works have been delayed by 15 months due to a variety of COVID-19-related factors and are scheduled to be completed by the spring of 2022. In addition, several key procurements, such as laboratory equipment for road maintenance (georadar and deflectionmeter), were extended to accommodate border re-openings so that non-resident companies could participate in the procurements. Trainings on the use of the laboratory equipment were delayed by 10 months and 12 months, respectively. With regard to the Skills for Employability and Productivity Project, community mobilization activities for secondary school construction, which are required prior to construction, came to a halt for nearly four months due to travel restrictions that prevented project staff from conducting site visits.

At the time of approval of this Compact, it was recognized that complex construction projects of this nature would be challenging in a post-conflict and limited-capacity country, but achievable in the absence of unknown risks emerging. COVID-19 impacts have upset that calculus. Extending the Compact term will better position MCC and MCA-CI to complete and hand over all ongoing projects to the beneficiary institutions without compromising health, safety, or environmental standards, and will reduce sustainability risks by allowing for necessary attention to post-construction activities, including testing and commissioning of infrastructure, and training and capacity building of implementing entities. As COVID-19 has disrupted program activities and timelines, an extended Compact term will improve the potential to obtain the intended long-term benefits for the

citizens of Côte d'Ivoire and return on MCC's investment.
