The Commission strongly encourages electronic filings. Please include the project number (P-9907-018) on any documents or motions filed.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person in the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

j. *Description of Existing Facilities:* The project consists of the following facilities: (1) An existing earthfill 10-foot-high Lake Creek diversion dam; (2) an existing 15-inch-diameter, 2,300-foot-long buried PVC penstock; (3) a powerhouse containing one generating unit with a rated capacity of 110 kilowatts; (4) a 200-foot-long, 34.5-kV transmission line connected to Idaho Power Company lines; (5) a wooden fish ladder in a riprap-lined spillway; and (6) appurtenant facilities.

k. *Description of Proceeding:* Section 6.4 of the Commission's regulations (18 CFR 6.4) provides, among other things, that it is deemed to be the intent of a licensee to surrender a license, if the licensee abandons a project for a period of three years.

The Director of Hydropower Licensing issued a 50-year license to A. W. Brown, Co. for the Sunshine Power Project on March 20, 1987 (38 FERC ¶ 62,282). The project was transferred to Mr. Jerry McMillan and Ms. Christine Smith by order on February 23, 1996 (74 FERC ¶ 62,092). On January 26, 2006, Ms. Smith informed the Commission that in August of 2005, Mr. McMillan deeded Ms. Smith his interest in the Sunshine Project. In response, on April 6, 2006, Commission staff requested Ms. Smith file an application for transfer of license with the Secretary of the Commission. Ms. Smith failed to file a transfer application.

On August 13, 2007, Commission staff received a letter from Ms. Smith stating that she had sold the project to Ms. Claudia Burkhart. Commission staff wrote to Ms. Burkhart on August 21, 2008, stating that she needed to file a transfer of license application with the Commission's Secretary. Once again, no transfer application was filed. According to Commission records, the

project has not operated since October 1, 2008, and the owner does not intend to bring the project back into operation. On October 19, 2009, Commission staff wrote Ms. Burkhart requesting she file either a detailed plan and schedule to resume generation at the project along with a transfer of license application, or a request to voluntarily surrender the license. No response was filed. On January 13, 2010, Commission staff sent a letter to Mr. McMillan and Ms. Smith, with a copy to Ms. Burkhart, requesting them to show cause why the Commission should not initiate a proceeding for terminating the license based upon implied surrender. No response was filed to the show cause letter.
