

company, or exporter) was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.

Consistent with its recent notice,¹³ Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for each specific company listed above will be that established in the final results of this review, except if the rate is less than 0.50 percent and, therefore, *de minimis* within the meaning of 19 CFR 351.106(c)(1), in which case the cash deposit rate will be zero; (2) for previously investigated companies not participating in this review, the cash deposit will continue to be the company-specific rate published for the most recently completed segment of this proceeding; (3) if the exporter is not a firm covered in this review, or the original less-than-fair-value (LTFV) investigation, but the manufacturer is, then the cash deposit rate will be the rate established for the most recent segment for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 5.40 percent, the all-others rate established in the LTFV investigation.¹⁴ These deposit requirements, when imposed,

shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Order

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

This notice is being issued and published in accordance with sections 751(a)(1) and 777(i) of the Act, and 19 CFR 351.213.

Dated: March 18, 2021.

Christian Marsh,

Acting Assistant Secretary for Enforcement and Compliance.

Endangered and Threatened Species; Announcement of a Recovery Planning Workshop To Inform Recovery Planning for 15 ESA Listed Indo-Pacific Coral Species

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: On September 10, 2014, we, NMFS, listed 15 Indo-Pacific coral species as threatened under the Endangered Species Act (ESA). We are convening a workshop to solicit facts and information from experts to help identify and guide recovery needs for these species under section 4(f) of the ESA. We will not be asking for a consensus recommendation on how to recover these species. This workshop will be open to the public.

DATES: *Workshop dates and information:* We will hold the recovery planning workshop for these coral species virtually over the course of four three-hour sessions in May 2021. To accommodate participants from different time zones, we will duplicate each session, as follows:

- Week 1—Session I: Recovery Introduction
 - Option A: Wednesday May 5, 8–11 a.m. Hawaii Standard Time (HST);
 - Option B: Thursday May 6, 2–5 p.m. HST.
- Week 2—Session II: Recovery Approaches
 - Option A: Wednesday May 12, 8–11 a.m. HST;
 - Option B: Thursday May 13, 2–5 p.m. HST.
- Week 3—Session III: Recovery Criteria
 - Option A: Wednesday May 19, 8–11 a.m. HST;
 - Option B: Thursday May 20, 2–5 p.m. HST.
- Week 4—Session IV: Recovery Actions
 - Option A: Wednesday May 26, 8–11 a.m. HST;
 - Option B: Thursday May 27, 2–5 p.m. HST.

RSVP date: If you plan to attend the workshop as an interested member of the public, please contact Danielle Jayewardene, NMFS Pacific Islands Regional Office (PIRO) Protected Resources Division, danielle.jayewardene@noaa.gov, 808–725–5143 no later than April 21, 2021.

¹³ See Notice of Discontinuation of Policy to Issue Liquidation Instructions After 15 Days in Applicable Antidumping and Countervailing Duty Administrative Proceedings, 86 FR 884 (January 15, 2021).

¹⁴ See Certain Carbon and Alloy Steel Cut-To-Length Plate from Austria, Belgium, France, the Federal Republic of Germany, Italy, Japan, the Republic of Korea, and Taiwan: Amended Final Affirmative Antidumping Determinations for France, the Federal Republic of Germany, the Republic of Korea and Taiwan, and Antidumping Duty Orders, 82 FR 24096, 24098 (May 25, 2017).

FOR FURTHER INFORMATION CONTACT:

Danielle Jayewardene, NMFS Pacific Islands Regional Office (PIRO) Protected Resources Division, danielle.jayewardene@noaa.gov, 808-725-5143.

SUPPLEMENTARY INFORMATION:**Background**

On September 10, 2014, we, NMFS, listed 15 Indo-Pacific coral species as threatened under the Endangered Species Act (ESA) (79 FR 53851; September 10, 2014). The 15 listed species are *Acropora globiceps*, *Acropora jacquelineae*, *Acropora lokani*, *Acropora pharaonis*, *Acropora retusa*, *Acropora rudis*, *Acropora speciosa*, *Acropora tenella*, *Anacropora spinosa*, *Euphyllia paradivisa*, *Isopora crateriformis*, *Montipora australiensis*, *Pavona diffluens*, *Porites napopora*, and *Seriatopora aculeata*. The final listing rule describes the background of the listing action for these species and provides a summary of our conclusions regarding their status. For additional background and information about these species, the reader is referred to our species web pages (available at <https://www.fisheries.noaa.gov/corals#by-species>).

NMFS is required by section 4(f) of the ESA to develop and implement recovery plans for the conservation and survival of federally listed species unless the Secretary finds that such a plan will not promote the conservation of the species. Recovery means that listed species and their ecosystems are restored, and their future secured, so that the protections of the ESA are no longer necessary. The ESA specifies that recovery plans are to include (1) a description of site-specific management actions necessary to achieve the plan's goals for the conservation and survival of the species; (2) objective, measurable criteria which, when met, would result in the species being removed from the list; and (3) estimates of the time and costs required to carry out the actions and achieve the plan's conservation goals. Under section 4(f) of the ESA, public notice and an opportunity for public review and comment are also provided during recovery plan development.

This notice serves as the first public notice and opportunity for public input early in the process. Once a recovery plan has been drafted, it will be announced in the **Federal Register** and available on our website (see **ADDRESSES** section) for public review and comment before being finalized.

Recovery Planning Workshop Announcement

From Wednesday May 5, 2021 through Thursday May 27, 2021, NMFS will hold a virtual workshop in four sessions to help inform our recovery planning for these 15 coral species (see **DATES** section). We are inviting experts and stakeholders in specific topic areas, including the species' biology/ecology, threats to the species and the species' habitat, the recovery planning process itself, and coral and coral reef conservation and management. These experts and stakeholders will help us to identify potential actions to address the threats to the species, identify gaps in knowledge and associated research needs, as well as begin developing recovery criteria for the species. Identified experts and stakeholders include representatives of Federal and state agencies, scientific experts, and individuals from conservation partners and nongovernmental organizations.

NMFS will provide a moderator to manage the workshop as well as note takers to document input received. We are seeking facts and information; we will not be asking for consensus recommendations on how to recover these 15 coral species. NMFS will prepare a summary of the workshop, noting the main points raised by the participants.

This workshop will be open to the public, and a public comment period will be provided at the end of each session. If you plan to attend the workshop as an interested member of the public, please contact Danielle Jayewardene at the address listed above by April 21, 2021, so we can ensure sufficient online connectivity for participants and interested parties during our logistics planning.

Agenda

- May 5/May 6 Session I will focus on introducing ESA recovery planning for the listed Indo-Pacific coral species.
- May 12/May 13 Session II will focus on recovery approaches for the listed Indo-Pacific coral species.
- May 19/May 20 Session III will focus on recovery criteria for the listed Indo-Pacific coral species.
- May 26/May 27 Session IV will focus on recovery actions for the listed Indo-Pacific coral species.

The workshop is accessible to persons with disabilities. Send requests for accessibility accommodations by April 21, 2021 to Danielle Jayewardene, danielle.jayewardene@noaa.gov, 808-725-5143.

Authority: 16 U.S.C. 1531 *et seq.*

Dated: March 19, 2021.

Donna S. Wieting,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration**

[RTID 0648-XA959]

Marine Mammals; File No. 25581

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that Freedive Pictures, Ltd, St. Stephens Avenue Bristol, United Kingdom, BS1 1YL, (Responsible Party: Sophie Morgan), has applied in due form for a permit to conduct commercial or educational photography on marine mammals.

DATES: Written, telefaxed, or email comments must be received on or before April 23, 2021.

ADDRESSES: These documents are available upon written request via email to NMFS.Pr1Comments@noaa.gov.

Written comments on this application should be submitted via email to NMFS.Pr1Comments@noaa.gov. Please include File No. 25581 in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request via email to NMFS.Pr1Comments@noaa.gov. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Shasta McClenahan, Ph.D. or Erin Markin, Ph.D., (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*) and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

The applicant proposes to film marine mammals in Hawaii, California, and Alaska for a film showcasing the wonders of the Pacific Ocean. Above water or underwater filming may occur from land, vessels, or an unmanned aircraft system. Species to be filmed in the day or night include up to 1,750 humpback whales (*Megaptera novaeangliae*; Hawaii distinct
