

2. Recommendations for appropriate standards to determine fair and appropriate compensation;

3. An assessment of tribal self-determination and sovereignty interests implicated by applications for rights-of-way on tribal land; and

4. An analysis of relevant national energy transportation policies.

The Departments propose the following work plan to meet the specific requirements of the Act and meet the congressionally mandated deadline for submittal of the final report.

1. DOI and DOE plan to conduct a series of pre-scoping phone calls and meetings with selected tribal leaders, members of the energy industry, appropriate government entities and affected businesses and consumers to discuss the various aspects of the report called for by section 1813. Participants in this pre-scoping work group will be identified through suggestions tribal leaders, other prominent Indian groups, business associations, and government organizations. The outcome of these pre-scoping discussions will provide useful detail and direction for the subsequent stages of the work plan.

2. DOI and DOE propose to contract with a Department of Energy National Laboratory to prepare an analysis of historical rates of compensation for pipelines crossing Indian land (as specified in section 1813(b)(1)), using a case study approach. We plan to direct the analysts to solicit and collect data from the Bureau of Indian Affairs, Tribal Governments, the energy industry, and other appropriate sources (*e.g.*, the National Archives and Records Administration) for this analysis.

3. In February 2006, DOI and DOE plan to jointly conduct a 2-day nationwide scoping meeting with presentations from all affected groups, soliciting input on the subjects of appropriate standards and procedures for determining fair and appropriate compensation, tribal self-determination and sovereignty interests, and relevant national energy transportation policies. At this meeting, we propose to establish several working groups to solicit and further develop information on each of these subjects.

4. Between February and May 2006, DOI and DOE plan to conduct up to two workshops for each of these working groups. We expect to draw extensively on the results of the groups' efforts in preparing the report to Congress.

5. In May 2006, DOI and DOE plan to prepare a draft report, send copies to the tribes, and publish a notice of availability in the **Federal Register**.

6. Between May 2006 and mid-July 2006, DOI and DOE plan to conduct three regional Tribal consultation meetings to present the draft report and to receive written and oral comments on the draft.

7. DOI and DOE will consider these comments in preparing a final report for delivery to Congress by August 7, 2006.

The Departments request public comment on proposed work plan in addition to any other areas of concern regarding the section 1813 study. We will accept comments until January 20, 2006.

If you want to provide comments, please send written comments by regular mail to Attention: Section 1813 ROW Study, Office of Indian Energy and Economic Development, 1849 C St., NW., Mail Stop 2749, Washington, DC, 20240 or by email to IEED@bia.edu.

Dated: December 22, 2005.

Michael D. Olsen,

Principal Deputy Assistant Secretary—Indian Affairs.

Call for Nominations for the Bureau of Land Management's California Desert District Advisory Council

SUMMARY: The Bureau of Land Management's California Desert District is soliciting nominations from the public for five members of its District Advisory Council to serve the 2007-2009 three-year term. Council members provide advice and recommendations to BLM on the management of public lands in southern California. Nominations will be accepted through Wednesday, May 31, 2006. The three-year term would begin January 1, 2007.

The five positions to be filled include:

- One public-at-large
- One environmental protection
- One renewable resources (grazing interests)
- Two elected officials representing county government

The California Desert District Advisory Council is comprised of 15 private individuals who represent different interests and advise BLM officials on policies and programs concerning the management of 11.5 million acres of public land in southern California. The Council meets in formal session three to four times each year in various locations throughout the California Desert District. Council members serve without compensation except for reimbursement of travel expenditures incurred in the course of their duties. Members serve three-year terms and may be nominated for reappointment for an additional three-year term.

Section 309 of the Federal Land Policy and Management Act (FLPMA) directs the Secretary of the Interior to involve the public in planning and issues related to management of BLM administered lands. The Secretary also selects Council nominees consistent with the requirements of the Federal Advisory Committee Act (FACA), which requires nominees appointed to the Council be balanced in terms of points of view and representative of the various interests concerned with the management of the public lands.

The Council also is balanced geographically, and BLM will try to find qualified representatives from areas throughout the California Desert District. The District covers portions of eight counties, and includes 10.4 million acres of public land in the California Desert Conservation Area and 300,000 acres of scattered parcels in San Diego, western Riverside, western San Bernardino, Orange, and Los Angeles Counties (known as the South Coast).

Any group or individual may nominate a qualified person, based upon their education, training, and knowledge of BLM, the California Desert, and the issues involving BLM-administered public lands throughout
