

political agreement on an OECD/G20 Two-Pillar Solution as pertaining to DSTs, the commitments under the joint statement, and associated measures. Pursuant to section 306(b) of the Trade Act, if the U.S. Trade Representative, in consultation with Treasury, subsequently considers that Turkey is not satisfactorily implementing these political agreements or associated measures, then the U.S. Trade Representative will consider further action under section 301.

Annex

The U.S. Trade Representative has decided to terminate the additional duties under heading 9903.90.06 of the HTSUS on articles the product of Turkey, as provided for in U.S. notes 27(a) and 27(b) to subchapter III of chapter 99 of the HTSUS. The termination of these additional duties is effective on November 28, 2021.

In accordance with this determination, the U.S. Trade Representative has determined to modify the HTSUS by: (1) Deleting U.S. notes 27(a) and 27(b) to subchapter III of chapter 99 of the HTSUS; and (2) by deleting HTSUS heading 9903.90.06. The modifications of the HTSUS are effective on November 28, 2021. Any provisions of previous notices issued in this investigation that are inconsistent with this notice are superseded to the extent of such inconsistency.

Greta Peisch,

General Counsel, Office of the United States Trade Representative.

Background

On November 15, 2021, President Joseph R. Biden, Jr. signed the Bipartisan Infrastructure Law (BIL), enacted as the Infrastructure Investment and Jobs Act, Public Law 117–58 (Nov. 15, 2021). The BIL is a once-in-a-generation investment in infrastructure, which will grow the economy, enhance

U.S. competitiveness in the world, create good jobs, and make the U.S. economy more sustainable, resilient, and equitable. It includes the largest dedicated bridge investment since the construction of the Interstate System, and the largest investment in electric vehicle charging infrastructure in history. Specific to FHWA, the BIL provides more than \$350 billion over 5 fiscal years (FY 22–26) for surface transportation programs. This represents, on an average annual basis, nearly 29 percent more Federal-aid funding for highway programs and activities than under prior law, and it also establishes more than a dozen new highway programs.

The BIL focuses on investing in safety, bridges, equity and reconnecting communities, addressing climate change, and promoting resilience. In addition, there are several new programs offering new opportunities for local governments and other non-traditional entities to receive highway funding. More information on the BIL can be located at www.whitehouse.gov or at www.congress.gov/bill/117th-congress/house-bill/3684.

In order to make the most of the BIL's historic investment and opportunities, FHWA is seeking your input on the FHWA-related sections of the BIL. Most of those provisions are contained in Title I of Division A and in Title VIII of Division J. Through this RFI, FHWA is soliciting information and suggestions from the public and a broad array of stakeholders across public and private sectors on how best to facilitate FHWA's implementation of the BIL.

Request for Information

This RFI is intended to solicit information on: (i) Potential opportunities and challenges for implementing new BIL programs; (ii) potential opportunities and challenges for implementing existing programs modified by the BIL; (iii) solutions or suggestions as to how FHWA might implement the BIL; (iv) necessity for additional guidance, FAQs, or program changes; and (v) areas requiring new and continued research.

Content of Comments

The Department will review all comments submitted to the docket associated with this Notice, FHWA–2021–0021. To maximize useful comments, FHWA encourages commenters to provide the following information:

1. Specific Reference. A specific reference to the section number of the BIL that the comment discusses (and the associated section of the U.S. Code that

the bill amends, if applicable). A specific reference will assist FHWA in identifying the requirements and relevant documentation that may describe the legislative history of the requirements.

2. Detailed description of the action you think FHWA should take in response to the opportunity or challenge identified.

3. Detailed information that you think FHWA should consider while implementing the provision(s).

Scope of Comments

Although FHWA is seeking comments on the new programs and other changes in the BIL, FHWA is particularly

interested in any comments on how best it can implement highway formula programs continued by the BIL. For example, the BIL continues the Surface Transportation Block Program, with some additional eligibilities, under 23 U.S.C. 133. The FHWA is interested not only in comments on the new eligibilities, but also if there are additional opportunities to make improvements or changes to the existing program as FHWA implements the BIL. The same goes for other existing programs such as the National Highway Performance Program, the Highway Safety Improvement Program, the National Highway Freight Program, and

the Congestion Mitigation and Air Quality Improvement Program.

Although FHWA is seeking public input on the implementation of the BIL, it will issue guidance and begin other activities related to implementation while this docket remains open.

Under this Notice, FHWA is not soliciting petitions for rulemaking or comments on any ongoing rulemaking action.

Stephanie Pollack,

Deputy Administrator, Federal Highway Administration.
