

**Abstract:** The Trends in International Mathematics and Science Study (TIMSS), conducted by the National Center for Education Statistics (NCES), within the U.S. Department of Education (ED), is an international assessment of fourth and eighth grade students' achievement in mathematics and science. Since its inception in 1995, TIMSS has continued to assess students every 4 years (1995, 1999, 2003, 2007, 2011, 2015, and 2019), with the next TIMSS assessment, TIMSS 2023, being the eighth iteration of the study. In TIMSS 2023, approximately 65 countries or education systems will participate. The United States will participate in TIMSS 2023 to continue to monitor the progress of its students compared to that of other nations and to provide data on factors that may influence student achievement.

TIMSS is led by the International Association for the Evaluation of Educational Achievement (IEA), an international collective of research organizations and government agencies that create the frameworks used to develop the assessment, the survey instruments, and the study timeline. IEA decides and agrees upon a common set of standards, procedures, and timelines for collecting and reporting data, all of which must be followed by all participating countries. As a result, TIMSS can provide a reliable and comparable measure of student skills in participating countries. In the U.S., NCES conducts this study in collaboration with the IEA and several contractors to ensure proper implementation of the study and adoption of practices in adherence to the IEA's standards. Participation in TIMSS is consistent with NCES's mandate of acquiring and disseminating data on educational activities and student achievement in the United States compared with foreign nations [The Educational Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. 9543)].

Because TIMSS is a collaborative effort among many parties, the United States must adhere to the international schedule set forth by the IEA, including the availability of final field test and main study plans as well as draft and final questionnaires. To meet the international data collection schedule, to align with recruitment for other NCES studies (e.g., the National Assessment of Education Progress, NAEP), and for schools to put the TIMSS 2023 field test assessment on their Spring 2022 calendars, recruitment activities for the field test will begin in June of 2021. This package requests approval to conduct sampling and recruitment activities associated with the TIMSS

2023 field test, which will be conducted in March and April 2022.

**Abstract:** Section 314(a)(4) of the Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSAA) (Pub. L. 116-260) provides funding for proprietary schools, to be used to make financial aid grants directly to students, which may be used for any component of the student's cost of attendance or for emergency costs that arise due to the coronavirus, such

as tuition, food, housing, health care (including mental health care) or child care.

**Additional Information:** An emergency clearance approval for the use of the system is described below due to the following conditions: If this emergency collection is not approved, these emergency financial aid grants to students would be delayed. The pressing financial need of students due to the disruptions caused by the coronavirus would remain unmet, leaving students without the aid intended for such critical benefits as such as food, housing, course materials, technology, health care, and child-care expenses.
