SUPPLEMENTARY INFORMATION:

Title: Importation of Live Swine, Pork
and Pork Products, and Swine Semen
from the European Union.

OMB Control Number: 0579–0218.

Type of Request: Revision to and
extension of approval of an information
collection.

Abstract: Under the Animal Health
Protection Act (7 U.S.C. 8301 *et seq.*),
the Animal and Plant Health Inspection
Service (APHIS) of the United States
Department of Agriculture is authorized,
among other things, to prohibit or
restrict the importation and interstate
movement of animals and animal
products to prevent the introduction
into and dissemination within the
United States of livestock diseases and
pests. To carry out this mission, APHIS
regulates the importation of animals and
animal products into the United States.

The regulations in 9 CFR part 94,
prohibit or restrict the importation of
specified animals and animal products
to prevent the introduction of diseases
such as classical swine fever (CSF), foot-
and-mouth disease, swine vesicular
disease, and African swine fever.
Among other things, part 94 lists the
requirements for the importation of pork
and pork products and live swine where
these diseases exist. Section 94.31 lists
the requirements for the importation of
pork, pork products, and breeding swine
from the European Union (“the APHIS
defined European CSF region”). In
addition, 9 CFR 98.38 lists the
requirements for the importation of
swine semen from the APHIS-defined
European CSF region.

These regulations require information
collection activities, such as a certificate
for pork and pork products, breeding
swine, and swine semen; application for
import or in-transit permit; and
declaration of importation. Since the
last approval, we have decreased the
estimates of burden to reflect the
decrease in importation of pork and
pork products.

We are asking the Office of
Management and Budget (OMB) to

approve our use of these information
collection activities, as described, for an
additional 3 years.

The purpose of this notice is to solicit
comments from the public (as well as
affected agencies) concerning this
information collection. These comments
will help us:

(1) Evaluate whether the collection of
information is necessary for the proper
performance of the functions of the
Agency, including whether the
information will have practical utility;

(2) Evaluate the accuracy of our
estimate of the burden of the collection
of information, including the validity of
the methodology and assumptions used;

(3) Enhance the quality, utility, and
clarity of the information to be
collected; and

(4) Minimize the burden of the
collection of information on those who
are to respond, through use, as
appropriate, of automated, electronic,
mechanical, and other collection
technologies; *e.g.*, permitting electronic
submission of responses.

Estimate of burden: The public
burden for this collection of information
is estimated to average 1 hour per
response.

Respondents: Foreign government
animal health officials.

*Estimated annual number of
respondents:* 194.

*Estimated annual number of
responses per respondent:* 8.3.

*Estimated annual number of
responses:* 1,611.

*Estimated total annual burden on
respondents:* 1,598 hours. (Due to
averaging, the total annual burden hours
may not equal the product of the annual
number of responses multiplied by the
reporting burden per response.)

All responses to this notice will be
summarized and included in the request
for OMB approval. All comments will
also become a matter of public record.

Done in Washington, DC, this 28th day of
September 2020.

Mark Davidson,

Acting Administrator, Animal and Plant
Health Inspection Service.
