

consideration at CoP15. In our third **Federal Register** notice, published on November 4, 2009 (74 FR 57190), we announced the provisional agenda for CoP15, solicited public comments on items on the provisional agenda, and announced a public meeting to discuss the agenda items. That public meeting was held on December 2, 2009.

You may obtain information on the above **Federal Register** notices from the following sources. For information on draft resolutions and decisions, and agenda items, contact the Division of Management Authority (see “ADDRESSES,” above); and for information on species proposals, contact the Division of Scientific Authority (see “ADDRESSES,” above). Our regulations governing this public process are found in 50 CFR 23.87. Pursuant to 50 CFR 23.87(a)(3)(iii), with this notice we are posting on our website (http://www.fws.gov/international/newspubs/fedregnot_list.html) a summary of our proposed negotiating positions on the items included in the CoP15 agenda and proposed amendments to the Appendices, and the reasons for our proposed positions.

Tentative Negotiating Positions

On our website (http://www.fws.gov/international/newspubs/fedregnot_list.html), we summarize the tentative U.S. negotiating positions on proposals to amend the Appendices (species proposals), draft resolutions and decisions, and agenda items that have been submitted by other countries and the CITES Secretariat. Documents submitted by the United States either alone or as a co-proponent for consideration by the Parties at CoP15 can be found on the Secretariat's website at: <http://www.cites.org/eng/cop/index.shtml>. Those documents are: CoP15 Docs. 36, 41.3, 41.4, 41.5, 48, 54, and 67. The United States, either alone or as a co-proponent, submitted the following proposals to amend Appendices I and II: CoP15 Props. 2, 3, 15, 16, 21, 25, 28, and 31. We will not provide any additional explanation of the U.S. negotiating position for documents and proposals that the United States submitted. The introduction in the text of each of the documents the United States submitted contains a discussion of the background of the issue and the rationale for submitting the document.

AUTHOR: This notice was prepared by Clifton A. Horton, Division of Management Authority; under the authority of the U.S. Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*).

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731–TA–1163 (Final)]

Woven Electric Blankets From China

AGENCY: United States International Trade Commission.

ACTION: Scheduling of the final phase of an antidumping investigation.

SUMMARY: The Commission hereby gives notice of the scheduling of the final phase of antidumping investigation No. 731–TA–1163 (Final) under section 735(b) of the Tariff Act of 1930 (19 U.S.C. 1673d(b)) (the Act) to determine whether an industry in the United States is materially injured or threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of less-than-fair-value imports from China of woven electric blankets, provided for in subheading 6301.10.00 of the Harmonized Tariff Schedule of the United States (HTSUS).¹

¹ For purposes of this investigation, the Department of Commerce has defined the subject merchandise as finished, semi-finished, and unassembled woven electric blankets, including woven electric blankets commonly referred to as throws, of all sizes and fabric types, whether made of man-made fiber, natural fiber or a blend of both. Semi-finished woven electric blankets and throws consist of shells of woven fabric containing wire. Unassembled woven electric blankets and throws consist of a shell of woven fabric and one or more of the following components when packaged together or in a kit: (1) Wire; (2) controller(s). The shell of woven fabric consists of two sheets of fabric joined together forming a “shell.” The shell of woven fabric is manufactured to accommodate either the electric blanket's wiring or a subassembly containing the electric blanket's wiring (e.g., wiring mounted on a substrate). A shell of woven fabric that is not packaged together, or in a kit, with either wire, controller(s), or both, is not covered by this investigation even though the shell of woven fabric may be dedicated solely for use as a material in the production of woven electric blankets. Although the HTSUS subheading is provided for convenience and customs purposes, only the written description of the scope is dispositive.
