Classification Comments: Interested parties may submit comments involving the suitability of the land for a shooting facilities complex. Comments on the classification are restricted to whether the land is physically suited for the proposal, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or whether the use is consistent with State and Federal programs.

Application Comments: Interested parties may submit comments regarding the specific use proposed in the application, or any other factors not directly related to the suitability of the land for a shooting facilities complex.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

The BLM State Director will review any adverse comments. In the absence of any adverse comments, the classification will become effective on July 12, 2010. The lands will not be available for conveyance until after the classification becomes effective, and completion of the environmental assessment on the application. Conveyance of the lands is also contingent upon approval of a supplemental survey plat for sec. 11.

Authority: 43 CFR 2741.5(h).

Approved: Jeff Rawson,
