

regulation otherwise would be significant under DOT Regulatory Policies and Procedures, a final regulatory evaluation will be prepared and placed in the Rules Docket. A copy of it, if filed, may be obtained from the Rules Docket at the location provided under the caption **ADDRESSES**.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding a new airworthiness directive to read as follows:

2000–15–19 Eurocopter France:

Amendment 39–11852. Docket No. 2000–SW–09–AD.

Applicability: Model SA–365N, N1, and AS–365N2, N3 helicopters with CENTRISEP EAPS sand filters, part number QB0261, QB0262, QB0486, or QB0487, installed, certificated in any category.

Note 1: This AD applies to each helicopter identified in the preceding applicability provision, regardless of whether it has been otherwise modified, altered, or repaired in the area subject to the requirements of this AD. For helicopters that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (b) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required as indicated, unless accomplished previously.

To prevent loss of a sand filter ejection nozzle (nozzle) in flight, impact with the main or tail rotor, and a subsequent forced landing, accomplish the following:

(a) Before further flight, and thereafter before the first flight of each day, visually inspect the left-hand and right-hand nozzles for a crack. Replace any cracked nozzle with an airworthy nozzle before further flight.

Note 2: Eurocopter AS 365 Service Bulletin No. 71.00.14, dated February 21, 2000, pertains to the subject of this AD.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Regulations Group, Rotorcraft Directorate, FAA. Operators shall submit their requests through an FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Regulations Group.

Note 3: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Regulations Group.

(c) Special flight permits may be issued in accordance with §§ 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the helicopter to a location where the requirements of this AD can be accomplished.

(d) This amendment becomes effective on August 24, 2000.

Note 4: The subject of this AD is addressed in Direction Generale De L'Aviation Civile (France) AD No. 2000–108–050(A), dated March 22, 2000.

Issued in Fort Worth, Texas, on August 1, 2000.

Henry A. Armstrong,

Manager, Rotorcraft Directorate, Aircraft Certification Service.

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 00–ACE–19]

Amendment to Class E Airspace; Atwood, KS; Correction

AGENCY: Federal Aviation Administration, DOT.

ACTION: Direct final rule; request for comments and correction.

SUMMARY: This document corrects an error in the latitude of the Atwood Nondirectional Radio Beacon (NDB) and the bearing from the Atwood NDB in the airspace description for the Atwood–Rawlins County, City-County Airport, Atwood, KS. This action revises the Class E airspace, corrects an error in the latitude of the Atwood NDB, and corrects the NDB bearing in the airspace designation for Atwood–Rawlins County–City County Airport as published in the **Federal Register** July 14, 2000 (65 FR 43684), Airspace Docket No. 00–ACE–19.

DATES: The direct final rule, request for comments published at 65 FR 43684 is effective on 0901 UTC, November 30, 2000.

This correction is effective on November 30, 2000.

Comment Date: Comments must be received on or before September 5, 2000.

FOR FURTHER INFORMATION CONTACT:

Kathy Randolph, Air Traffic Division, Airspace Branch, ACE–520C, DOT Regional Headquarters Building, Federal Aviation Administration, 901 Locust, Kansas City, MO 64106; telephone: (816) 329–2525.

SUPPLEMENTARY INFORMATION:

History

On July 14, 2000, the FAA published in the **Federal Register** a direct final rule; request for comments which revises the Class E airspace at Atwood, KS (FR document 00–17870, 65 FR 43684, Airspace Docket No. 00–ACE–19). An error was subsequently discovered in the latitude of the Atwood NDB and the bearing in the airspace designation for Atwood–Rawlins County, City-County Airport. This action corrects those errors. After careful review of all available information related to the subject presented above, the FAA has determined that air safety and the public interest require adoption of the rule. The FAA has determined that this correction will not change the meaning of the action nor add any additional burden on the public beyond that already published. This action corrects the error in the Atwood NDB latitude and the airspace designation.

The FAA uses the direct final rulemaking procedure for a non-controversial rule where the FAA believes that there will be no adverse public comment. The direct final rule; request for comments advised the public that no adverse comments were anticipated, and that unless a written adverse comment, or a written notice of intent to submit such an adverse comment, were received within the comment period, the regulation would become effective on November 30, 2000.

Correction to the Direct Final Rule; Request for Comments

Accordingly, pursuant to the authority delegated to me, the airspace designation for Atwood–Rawlins County City-County Airport, as published in the **Federal Register** on July 14, 2000 (65 FR 43684), (**Federal Register** Document 00–17870; page 43686, column one) is corrected as follows:

§ 71.1 [CORRECTED]

ACE KS E5 Atwood, KS [Corrected]

On page 43686, in the first column under Atwood NDB remove latitude 39°50′20″ N. and substitute 39°50′19″

N., and in line five of the airspace designation, correct the airspace designation by removing "258" and adding "358".

Issued in Kansas City, MO on July 27, 2000.

Herman J. Lyons, Jr.,

Manager, Air Traffic Division, Central Region.

[Airspace Docket No. 00-AEA-1]

RIN 2120-AA66

Amendment of VOR Federal Airway V-162

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends the legal description of Federal Airway V-162 by deleting the portion of the route between the Martinsburg, WV, Very High Frequency Omnidirectional Range/Tactical Air Navigation (VORTAC) and the Harrisburg, PA, VORTAC. The FAA is taking this action because the route segment between the Harrisburg VORTAC and the Hyper Intersection is unusable for navigation due to signal roughness and scalloping.

EFFECTIVE DATE: 0901 UTC, October 5, 2000.

FOR FURTHER INFORMATION CONTACT: Paul Gallant, Airspace and Rules Division, ATA-400, Office of Air Traffic Airspace Management, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION:

History

On May 18, 2000, the FAA proposed to amend 14 CFR part 71 to delete a segment of V-162 that is unusable for navigation (65 FR 31504). Flight inspection found that the radial between the Harrisburg VORTAC and Hyper Intersection is not usable due to signal roughness and scalloping. This problem renders the affected segment unusable for navigation purposes. The FAA has issued a Flight Data Center Notice to Airmen advising users of this restriction.

Interested parties were invited to participate in this rulemaking proceeding by submitting comments. No comments were received. Except for

editorial changes, this rule is the same as that proposed in the notice.

The Rule

This action amends part 71 by deleting the portion of VOR Federal Airway V-162 between the Martinsburg, WV, VORTAC and the Harrisburg, PA, VORTAC. Flight inspection has found that the radial extending from the Harrisburg VORTAC to the Hyper Intersection is not usable for navigation due to signal roughness and scalloping. As a result of this problem, the portion of the airway between Martinsburg VORTAC and Harrisburg VORTAC is being deleted. Other existing published airways provide alternative routing between the Martinsburg VORTAC and Harrisburg VORTAC.

Domestic VOR Federal airways are published in paragraph 6010(a) of FAA Order 7400.9G, dated September 1, 1999, and effective September 16, 1999, which is incorporated by reference in 14 CFR 71.1. The airway listed in this document will be published subsequently in the Order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p.389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9G, Airspace Designations and Reporting Points, dated September 1, 1999, and effective September 16, 1999, is amended as follows:

Paragraph 6010(a)—Domestic VOR Federal Airways

* * * * *

V-162 [Revised]

From Harrisburg, PA; INT Harrisburg 092° and East Texas, PA, 251° radials; East Texas; Allentown, PA; to Huguenot, NY.

* * * * *

Issued in Washington, DC, on August 3, 2000.

Paul Gallant,

Acting Manager, Airspace and Rules Division.

Food and Drug Administration

21 CFR Part 876

[Docket No. 98N-1134]

Gastroenterology and Urology Devices; Reclassification of the Extracorporeal Shock Wave Lithotripter

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is issuing a final rule to reclassify from class III to class II the extracorporeal shock wave lithotripter, when intended for use to fragment kidney and ureteral calculi. FDA is taking this action on its own initiative in order to assure that these devices are regulated according to the appropriate degree of regulatory control needed to provide reasonable assurance of their safety and effectiveness. Elsewhere in this issue of the **Federal Register**, FDA is publishing a notice of availability of a guidance document, which will serve as the special control for the reclassified device.

DATES: This rule is effective September 8, 2000.
