DEPARTMENT OF LABOR

Office of Workers' Compensation Programs

Division of Federal Employees' Compensation; Proposed Extension of the Approval of Information Collection Requirements

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Office of Workers' Compensation Programs is soliciting comments concerning the proposed collection: Claim for Continuance of Compensation (CA-12). A copy of the proposed information collection request can be obtained by contacting the office listed below in the **ADDRESSES** section of this Notice.

SUPPLEMENTARY INFORMATION:

I. Background: The Office of Workers' Compensation Programs administers the Federal Employees' Compensation Act, 5 U.S.C. 8133. Under the Act, eligible dependents of deceased employees receive compensation benefits on account of the employee's death. OWCP has to monitor death benefits for current marital status, potential for dual benefits, and other criteria for qualifying as a dependent under the law. The CA-12 is sent annually to beneficiaries in death cases to ensure that their status has not changed and that they remain entitled to benefits. The information collected is used by OWCP claims examiners to ensure that death benefits being paid are correct, and that payments are not made to ineligible survivors. This information collection is currently approved for use through May 31, 2011.

II. Review Focus: The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions: The Department of Labor seeks extension of approval to collect this information collection in order to ensure that death benefits being paid are correct.

following proposal for the collection of
information under the provisions of the
Paperwork Reduction Act of 1995 (44
U.S.C. chapter 35). The NRC hereby
informs potential respondents that an
agency may not conduct or sponsor, and
that a person is not required to respond
to, a collection of information unless it
displays a currently valid OMB control
number. The NRC published a **Federal
Register** notice with a 60-day comment
period on this information collection on
October 13, 2010.

power plant construction permits and
early site permits with a limited work
authorization and applicants for nuclear
power plant construction permits that
have a limited work authorization under
the provisions of 10 CFR part 50; all
holders of a combined license for a
nuclear power plant issued under 10
CFR part 52 and applicants for a

10. *Abstract:* NRC regulations in 10
CFR part 26 prescribe requirements to
establish, implement, and maintain
fitness-for-duty programs at affected
licensees and other entities. The
objectives of these requirements are to
provide reasonable assurance that
persons subject to the rule are
trustworthy, reliable, and not under the
influence of any substance, legal or
illegal, or mentally or physically
impaired from any cause, which in any
way could adversely affect their ability
to safely and competently perform their
duties. These requirements also provide
reasonable assurance that the effects of
fatigue and degraded alertness on
individuals' abilities to safely and
competently perform their duties are
managed commensurate with
maintaining public health and safety.
The information collections required by
part 26 are necessary to properly
manage FFD programs and to enable
effective and efficient regulatory
oversight of affected licensees other
entities. These licensees and other
entities must perform certain tasks,
maintain records, and submit reports to
comply with part 26 drug and alcohol
provisions and fatigue management
requirements. These records and reports
are necessary to enable regulatory
inspection and evaluation of a licensee's
or entity's compliance with NRC
regulations, its FFD performance, and of
any significant FFD-related event to
help maintain public health and safety,

promote the common defense and
security, and protect the environment.
