[ET Docket No. 10-97; FCC 10-77]

Unlicensed Personal Communications Services Devices in the 1920-1930 MHz Band**AGENCY:** Federal Communications Commission.**ACTION:** Proposed rule.

SUMMARY: In this document the Commission proposes changes to its rules to enable Unlicensed Personal Communications Service (UPCS) devices operating in the 1920-1930 MHz band (known as the UPCS band) to make more efficient use of this spectrum. This action is taken in response to a Petition for Rulemaking filed by the Digital Enhanced Cordless

Telecommunications Forum (DECT), an association that promotes digital cordless radio technology for short-distance voice and data applications. The current rules prevent UPCS devices from accessing channels where a certain level of radio noise is detected, even though those channels remain usable. The proposed rule changes would adjust the radio noise level at which a channel would be deemed usable.

DATES: Comments must be filed on or before July 12, 2010, and reply comments must be filed on or before July 26, 2010.
