Information Collection Request Title: Bureau of Health Workforce Performance Data Collection OMB No. 0915–0061—Revision

Abstract: Over 40 Bureau of Health Workforce (BHW) programs award grants to health professions schools and training programs across the United States to develop, expand, and enhance training, and to strengthen the distribution of the health workforce. These programs are authorized by the Public Health Service Act (42 U.S.C. 201 *et seq.*), specifically Titles III, VII, and VIII. Performance information regarding these programs is collected in the HRSA Performance Report for Grants and Cooperative Agreements (PRGCA). Data collection activities consisting of an annual progress and annual performance report satisfy statutory and programmatic requirements for performance measurement and evaluation (including specific Title III, VII and VIII requirements), as well as Government Performance and Results Act (GPRA) requirements. The performance measures were last revised in 2013 to ensure they addressed programmatic changes, met evolving program management needs, and responded to emerging workforce concerns—especially as a result of the changes in the Affordable Care Act (Pub. L. 111–148). As these revisions were successful, BHW will continue with its current performance management strategy and measures and require annual progress and performance reporting.

Need and Proposed Use of the Information: The purpose of the

proposed data collection is to analyze and report grantee training activities and education, identify intended practice locations and report outcomes of funded initiatives. Data collected from these grant programs will also provide a description of the program activities of approximately 1,700 reporting grantees to better inform policymakers on the barriers, opportunities, and outcomes involved in health care workforce development. The proposed measures focus on five key outcomes: (1) Increasing the workforce supply of diverse well-educated practitioners, (2) increasing the number of practitioners that practice in underserved and rural areas, (3) enhancing the quality of education, (4) increasing the recruitment, training, and placement of under-represented groups in the health workforce, and (5) supporting educational infrastructure to increase the capacity to train more health professionals.

Likely Respondents: Respondents are awardees of BHW health professions grant programs.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this Information Collection Request are summarized in the table below.

Total Estimated Annualized burden hours:

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
Program Aggregate Data Collection*	600	1	600	6	3,600
Individual-level Data Collection	1,100	1	1,100	2	2,200
Total	1,700	1,700	5,800

* Program aggregate data collection will only be required for programs that do not provide direct financial support to all trainees.

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Jackie Painter,

Director, Division of the Executive Secretariat.

SUPPLEMENTARY INFORMATION:

This Document

This notice extends from 365 days to 730 days the period for which the 2015 lists of QCTs and DDAs are effective for projects located in areas not on the 2016 list of DDAs or QCTs, published November 24, 2015, at 80 FR 73201, but having submitted applications while the area was a 2015 QCT or DDA for each of the 50 states, the District of Columbia, Puerto Rico, American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands. The actual designations of 2015 QCTs and DDAs are not affected by this notice. HUD is revising the effective date of the 2015 QCTs and DDAs at this time to aid the transition to Small Difficult Development Areas as announced in a notice designating 2016 QCTs and DDAs published at 80 FR 73201 and otherwise ensure that LIHTC and bond-financed projects relying on 2015 QCT or DDA designations and not in areas designated as 2016 QCTs and DDAs, but unable to meet the 365-day requirement of the original effective date of the 2015 QCT and DDA designations, may still be completed within 730 days.

The sections entitled "Effective Date" and "Interpretive Examples of Effective Date" of the 2015 DDA and QCT designations as published October 3, 2014 at 79 FR 59855 are hereby revised to read as follows:

Effective Date

The 2015 lists of QCTs and DDAs are effective:

- (1) For allocations of credit after December 31, 2014; or
- (2) for purposes of IRC Section 42(h)(4), if the bonds are issued and the

building is placed in service after December 31, 2014.

If an area is not on a subsequent list of DDAs, the 2015 lists are effective for the area if:

(1) The allocation of credit to an applicant is made no later than the end of the 730-day period after the applicant submits a complete application to the LIHTC-allocating agency, and the submission is made before the effective date of the subsequent lists; or

(2) for purposes of IRC Section 42(h)(4), if:

(a) The bonds are issued or the building is placed in service no later than the end of the 730-day period after the applicant submits a complete application to the bond-issuing agency, and

(b) the submission is made before the effective date of the subsequent lists, provided that both the issuance of the bonds and the placement in service of the building occur after the application is submitted.

An application is deemed to be submitted on the date it is filed if the application is determined to be complete by the credit-allocating or bond-issuing agency. A "complete application" means that no more than de minimis clarification of the application is required for the agency to make a decision about the allocation of tax credits or issuance of bonds requested in the application.

In the case of a "multiphase project," the DDA or QCT status of the site of the project that applies for all phases of the project is that which applied when the project received its first allocation of LIHTC. For purposes of IRC Section 42(h)(4), the DDA or QCT status of the site of the project that applies for all phases of the project is that which applied when the first of the following occurred: (a) The building(s) in the first phase were placed in service, or (b) the bonds were issued.

For purposes of this notice, a "multiphase project" is defined as a set of buildings to be constructed or rehabilitated under the rules of the LIHTC and meeting the following criteria:

(1) The multiphase composition of the project (*i.e.*, total number of buildings and phases in project, with a description of how many buildings are to be built in each phase and when each phase is to be completed, and any other information required by the agency) is made known by the applicant in the first application of credit for any building in the project, and that applicant identifies the buildings in the project for which credit is (or will be) sought;
