

from the most-recently approved ICR due to the use of updated labor rates. This ICR references labor rates from the Bureau of Labor Statistics to calculate respondent burden costs, and references labor rates from OPM to calculate Agency burden costs.

There is an increase in both capital/startup and O&M costs as compared to the previous ICR; however, this change also is not due to any program changes. Similar to the respondent burden adjustments, the change is due to the increased number of sources estimated to be subject to the standard, and is not due to any program changes.

## **ENVIRONMENTAL PROTECTION AGENCY**

**[FRL-9903-22-ORD; Docket ID No. EPA-HQ-ORD-2013-0232]**

### **Draft Integrated Science Assessment for Nitrogen Oxides—Health Criteria**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of Public Comment Period.

**SUMMARY:** EPA is announcing a 60-day public comment period for the draft document titled, “First External Review Draft Integrated Science Assessment for Nitrogen Oxides—Health Criteria” (EPA/600/R-13/202). The draft document was prepared by the National Center for Environmental Assessment (NCEA) within EPA’s Office of Research and Development as part of the review of the primary (health-based) national ambient air quality standards (NAAQS) for nitrogen dioxide (NO<sub>2</sub>). The Integrated Science Assessment (ISA), in conjunction with additional technical and policy assessments, provide the scientific basis for EPA decisions on the adequacy of the current NAAQS and the appropriateness of possible alternative standards. EPA intends to develop a separate ISA, and NAAQS review, for the secondary (welfare-based) NAAQS for NO<sub>2</sub>, in conjunction with a review of the secondary NAAQS for sulfur dioxide.

EPA is releasing this draft document to seek review by the Clean Air Scientific Advisory Committee (CASAC) and the public (meeting date and location to be specified in a separate **Federal Register** notice). This draft document is not final as described in EPA’s information quality guidelines,

and it does not represent and should not be construed to represent Agency policy or views. EPA will consider any public comments submitted in response to this notice when revising the document.

**DATES:** The 60-day public comment period begins November 22, 2013, and ends January 21, 2014. Comments must be received on or before January 21, 2014.

**ADDRESSES:** The “First External Review Draft Integrated Science Assessment for Nitrogen Oxides—Health Criteria” will be available primarily via the Internet on NCEA’s home page under the Recent Additions and Publications menus at <http://www.epa.gov/ncea> or the public docket at <http://www.regulations.gov>, Docket ID: EPA-HQ-ORD-2013-0232. A limited number of CD-ROM copies will be available. Contact Ms. Marieka Boyd by phone: 919-541-0031; fax: 919-541-5078; or email: [boyd.marieka@epa.gov](mailto:boyd.marieka@epa.gov) to request a CD-ROM, and please provide your name, your mailing address, and the document title, “First External Review Draft Integrated Science Assessment for Nitrogen Oxides—Health Criteria” to facilitate processing of your request.

**FOR FURTHER INFORMATION CONTACT:** For information on the public comment period, contact the ORD Docket at the EPA Headquarters Docket Center; telephone: 202-566-1752; facsimile: 202-566-9744; or email: [Docket\\_ORD@epa.gov](mailto:Docket_ORD@epa.gov).

For technical information, contact Dr. Molini Patel, NCEA; telephone: 919-541-1492; facsimile: 919-541-1818; or email: [patel.molini@epa.gov](mailto:patel.molini@epa.gov).

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Information About the Document**

Section 108 (a) of the Clean Air Act directs the Administrator to identify certain pollutants which, among other things, “cause or contribute to air pollution which may reasonably be anticipated to endanger public health or welfare” and to issue air quality criteria for them. These air quality criteria are to “accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of [a] pollutant in the ambient air. . . .” Under section 109 of the Act, EPA is then to establish NAAQS for each pollutant for which EPA has issued criteria. Section 109 (d) of the Act subsequently requires periodic review and, if appropriate, revision of existing air quality criteria to reflect advances in scientific knowledge on the effects of the pollutant on public health or welfare. EPA is also required to review

and, if appropriate, revise the NAAQS, based on the revised air quality criteria (for more information on the NAAQS review process, see <http://www.epa.gov/ttn/naaqs/review.html>).

Nitrogen oxides are one of six criteria pollutants for which EPA has established NAAQS. Periodically, EPA reviews the scientific basis for these standards by preparing an ISA (formerly called an Air Quality Criteria Document). The ISA, in conjunction with additional technical and policy assessments, provides the scientific basis for EPA decisions on the adequacy of the current NAAQS and the appropriateness of possible alternative standards. The CASAC, an independent science advisory committee whose review and advisory functions are mandated by Section 109 (d) (2) of the Clean Air Act, is charged (among other things) with independent scientific review of EPA’s air quality criteria.

On February 10, 2012 (77 FR 7149), EPA formally initiated its current review of the air quality criteria for the health effects of nitrogen oxides and the primary (health-based) NO<sub>2</sub> NAAQS, requesting the submission of recent scientific information on specified topics. EPA held a workshop February 29 to March 1, 2012, to discuss with invited scientific experts from internal and external to EPA, key science and policy issues relevant to the review of the health effects of nitrogen oxides (77 FR 7149). EPA’s “Draft Plan for Development of the Integrated Science Assessment for Nitrogen Oxides—Health Criteria” was made available for public comment on May 3, 2013 (78 FR 26026), and was discussed by the CASAC via a publicly accessible teleconference consultation on June 5, 2013 (78 FR 27234). On June 11, 2013, EPA held a workshop to discuss, with invited scientific experts, initial draft materials prepared in the development of the ISA (78 FR 27374).

A draft Integrated Review Plan (IRP) is being developed that will characterize all of the phases of the review of the primary NAAQS for NO<sub>2</sub>, including the schedule for the entire review, the process for conducting the various phases of the review, and the key policy-relevant science issues that will guide the review. The draft IRP will incorporate a revised plan for ISA development after consideration of CASAC and public comments on the draft plan for development of the ISA. The draft IRP will be reviewed by CASAC and the public together with the first draft ISA at a public meeting. The availability of the draft IRP for review by CASAC and the public, and the date and location of the public meeting, will

be announced in separate **Federal Register** notices.

The "First External Review Draft Integrated Science Assessment for Nitrogen Oxides—Health Criteria" will be discussed at a public meeting for review by CASAC and the public. In addition to the public comment period announced in this notice, the public will have an opportunity to address CASAC. A separate **Federal Register** notice will inform the public of the exact date and time of the CASAC meeting and of the procedures for public participation in that CASAC meeting.

## II. How To Submit Technical Comments to the Docket at [www.regulations.gov](http://www.regulations.gov)

Submit your comments, identified by Docket ID No. EPA-HQ-ORD-2013-0232, by one of the following methods:

- [www.regulations.gov](http://www.regulations.gov): Follow the on-line instructions for submitting comments.
- *Email*: [Docket\\_ORD@epa.gov](mailto:Docket_ORD@epa.gov).
- *Fax*: 202-566-9744.
- *Mail*: U.S. Environmental Protection Agency, EPA Docket Center (ORD Docket), Mail Code: 28221T, 1200 Pennsylvania Avenue NW., Washington, DC 20460. The phone number is 202-566-1752.

- *Hand Delivery*: The ORD Docket is located in the EPA Headquarters Docket Center, EPA West Building, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is 202-566-1744. Such deliveries are only accepted during the docket's normal hours of operation, and special arrangements should be made for deliveries of boxed information. If you provide comments by mail or hand delivery, please submit three copies of the comments. For attachments, provide an index, number pages consecutively with the comments, and submit an unbound original and three copies.

*Instructions*: Direct your comments to Docket ID No. EPA-HQ-ORD-2013-0232. Please ensure that your comments are submitted within the specified comment period. Comments received after the closing date will be marked "late," and may only be considered if time permits. It is EPA's policy to include all comments it receives in the public docket without change and to make the comments available online at [www.regulations.gov](http://www.regulations.gov), including any personal information provided, unless a comment includes information claimed to be Confidential Business Information

(CBI) or other information whose disclosure is restricted by statute. Do not submit information through [www.regulations.gov](http://www.regulations.gov) or email that you consider to be CBI or otherwise protected. The [www.regulations.gov](http://www.regulations.gov) Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through [www.regulations.gov](http://www.regulations.gov), your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about EPA's public docket visit the EPA Docket Center homepage at [www.epa.gov/epahome/dockets.htm](http://www.epa.gov/epahome/dockets.htm).

*Docket*: Documents in the docket are listed in the [www.regulations.gov](http://www.regulations.gov) index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other materials, such as copyrighted material, are publicly available only in hard copy. Publicly available docket materials are available either electronically in [www.regulations.gov](http://www.regulations.gov) or in hard copy at the ORD Docket in the EPA Headquarters Docket Center.

Dated: October 30, 2013.

**Debra B. Walsh,**

*Acting Deputy Director, National Center for Environmental Assessment.*
